*Complete Concordance to Miscellaneous Writings*, 1915      **Complete Concordance to Miscellaneous Writings ...** Albert Francis Conant, 1915      **John Cage and Buddhist Ecopoetics** Peter Jaeger, 2013-09-26 John Cage was among the first wave of post war American artists and intellectuals to be influenced by Zen Buddhism and it was an influence that led him to become profoundly engaged with our current ecological crisis In John Cage and Buddhist Ecopoetics Peter Jaeger asks what did Buddhism mean to Cage And how did his understanding of Buddhist philosophy impact on his representation of nature Following Cage s own creative innovations in the poem essay form and his use of the ancient Chinese text the I Ching to shape his music and writing this book outlines a new critical language that reconfigures writing and silence Interrogating Cage s green Zen in the light of contemporary psychoanalysis and cultural critique as well as his own later turn towards anarchist politics John Cage and Buddhist Ecopoetics provides readers with a critically performative site for the Zen inspired nothing which resides at the heart of Cage s poetics and which so clearly intersects with his ecological writing      **Silencing the Sounded Self** Christopher Shultis, 2013-11-05 Christopher Shultis observes an intriguing contrast between John Cage s affinity for Thoreau and fellow composer Charles Ives connection with Emerson Although both Thoreau and Emerson have been called transcendentalists they held different views about the relationship between nature and humanity and the artist s role in creativity Shultis explores the artist s sounded or silenced selves the self that takes control of the creative experience versus the one that seeks to coexist with it and shows how understanding this distinction allows a better understanding of Cage Having placed Cage in this experimental tradition of music poetry and literature Shultis offers provocative interpretations of Cage s aesthetic views especially as they concern the issue of non intention and addresses some of his most path breaking music as well as several experimentally innovative written works      **In the Borderlands of Teaching and Learning** Bryant Griffith, 2019-02-11 The craft of teaching and learning is like playing in a symphony orchestra every instrument has a voice and every voice is integral to the whole The arts history anthropology and philosophy and their forged discourses offer us a series of cautionary tales about the multiplicity of ways we can see and understand our world ways we often ignore in the classroom In the case of epistemology and pedagogy in particular we have hinged our understanding on a binary of opposites engaged in a dialectic dance and a type of discourse constructed to describe and explain it The art and act of teaching in this as if world necessitates teachers to be public intellectuals intellectual symbols who represent something more than just subject knowledge expertise but serve as conduits between the discourses of our world Established genres and discourses are exclusionary The vast migration of people and ideas is producing a new set of presuppositions The manner in which we decode other discourses and fuse them into meanings both personal and shared is the root of both

teaching and learning giving us a window into the way that each form of thought is connected both historically and experientially Look around you your school is becoming the United Nations but it s not so united Don t aim for truth aim for understanding Today s students construct and deconstruct in a multitude of ways on an as needed just in time basis Since ideas of difference are often nudged but unacknowledged we are in danger of becoming pedagogical dinosaurs not heeding change until it is too late Teaching and learning are construction zones so get out your hard hat These constructions are possibilities that need to be discussed and negotiated allowing us to sidestep the traps of grand narratives and a hierarchy of disciplinarity and research methodology Our possibilities need to be forged on an anvil of diversity These are the spaces the interstices where our voices become innovative and our silence offers a safe harbor Spaces to listen collaborate and craft cautionary tales about our lives and the possibilities for a shared future

**Reading the Modernist Long Poem** Brendan C. Gillott,2020-12-10 How do readers approach the enigmatic and unnavigable modernist long poem Taking as the form s exemplars the highly influential but critically contentious poetries of John Cage and Charles Olson this book considers indeterminacy the fundamental feature of the long poem by way of its analogues in musicology mycology cybernetics and philosophy It addresses features of these works that figure broadly in the long poem tradition such as listing typography archives mediation and mereology while articulating how both poets broke with the longform poetic traditions of the early 1900s Brendan C Gillott argues for Cage s and Olson s centrality to these traditions in developing critiquing and innovating on the longform poetics of the past their work revolutionized the longform poetry of the 20th and 21st centuries

*Just Silences* Marianne Constable,2009-01-10 Is the Miranda warning which lets an accused know of the

right to remain silent more about procedural fairness or about the conventions of speech acts and silences Do U S laws about Native Americans violate the preferred or traditional silence of the peoples whose religions and languages they aim to protect and preserve In *Just Silences* Marianne Constable draws on such examples to explore what is at stake in modern law a potentially new silence as to justice Grounding her claims about modern law in rhetorical analyses of U S law and legal texts and locating those claims within the tradition of Nietzsche Heidegger and Foucault Constable asks what we are to make of silences in modern law and justice She shows how what she calls sociolegal positivism is more important than the natural law positive law distinction for understanding modern law Modern law is a social and sociological phenomenon whose instrumental power oriented sometimes violent nature raises serious doubts about the continued possibility of justice She shows how particular views of language and speech are implicated in such law But law like language has not always been positivist empirical or sociological nor need it be Constable examines possibilities of silence and proposes an alternative understanding of law one that emerges in the calling however silently of words to justice Profoundly insightful and fluently written *Just Silences* suggests that justice today lies precariously in the silences of modern positive law *John Cage Composing, Computing, and Curating* Sandra Skurvida, 2025-01-31 This study reassesses Cage s multifaceted practice from a transdisciplinary perspective using text as a premise for his musical visual lingual and museal compositions In his compositions John Cage opened the structures of music language and the museum to change perpetuated by chance operations His correspondences across history with an extended circle of creators including Erik Satie Marcel Duchamp and Henry David Thoreau among many others erased single minded authorship via methodical processing of source material Foreshadowing ecological recycling Cage s late compositions for museum opened perspectives for posthuman mediation in curating and contemporary art He conceived of anarchy as the coexistence of mutually aiding yet autonomous self determinate entities This book introduces Cage to the twenty first century as a composer whose work intersects different temporalities and modes of being the past and the present the human and the non human and the individual and the communal The book will be of interest to scholars of art history music curatorial studies and museum studies Poetry as Re-Reading Ming-Qian Ma, 2008-08-20 Grounded in a detailed and compelling account of the philosophy guiding such a project Ma s book traces a continuity of thought and practice through the very different poetic work of objectivists Louis Zukofsky George Oppen Carl Rakosi and John Cage and language poets Susan Howe Lyn Hejinian Bruce Andrews and Charles Bernstein His deft individual readings provide an opening into this notoriously difficult work even as his larger critique reveals a new and clarifying perspective on American modernist and post modernist avant garde poetics Ma shows how we cannot understand these poets according to the usual way of reading but must see how they deliberately use redundancy unpredictability and irrationality to undermine the meaning oriented foundations of American modernism and to force a new and different kind of reading Pub desc Momentous Inconclusions Jennifer Bartlett, George Hart, 2021-01-05
