Machine As Metaphor And Tool:

The Machine as Metaphor and Tool Hermann Haken, Anders Karlqvist, Uno Svedin, 2012-12-06 The chapters in this book centre around one main theme the concept of the machine and its use as metaphor in a variety of contexts This concept is deeply rooted in western culture and is frequently used to interpret complex systems in nature and society With the advent of electronic computers the machine metaphor applied to thinking and the brain has become even more pertinent The idea of a machine has changed over time In this book these transformations are made transparent various aspects of the machine metaphor are discussed and limitations and pitfalls of the metaphor are elaborated The chapters are written in a non technical fashion and are accessible to a large readership of scientists and also laymen interested in the scientific perspectives and logical foundations of the machine concept that has been so influential in western thinking The idea of the book has its origin in a workshop held at the Scientific Station in Abisko Sweden in May 1990 where several of the present authors participated The meeting was organized and sponsored by the Swedish Council for Planning and Coordination of Research FRN Since 1983 the FRN has actively promoted a series of such annual events at Abisko all of which have been devoted to the exploration of various aspects of complex systems and their evolution

Mediating Discourse Online Sally Sieloff Magnan, 2008 Information and communication technology is transforming our notion of literacy In the study of second language learning there is an acute need to understand how learners collaborate in mediating discourse online This edited volume offers essays and research studies that lead us to question the borders between speech and writing to redefine narrative to speculate on the consequences of many to many communication and to ponder the ethics of researching online interaction Using diverse technologies bulletin boards course management systems chats instant messaging online gaming and situated in different cultural environments the studies explore intercultural notions of identity voice and collaboration Although the studies come from varying theoretical perspectives they point as a whole to insights to be gained from an ecological approach to studying how people make discourse online The volume will especially benefit researchers in the digital arena and instructors who must consider how online interaction affects language learning and use

Highways of the Mind Helen J. Burgess, Jeanne Hamming, 2014-10-31 Stories of the open road have a powerful sway over our imagination particularly in America where the vast web of interstate highways transformed the national identity as well as the national landscape Sometimes seen as the harbinger of a golden future other times as the conduit of a dehumanized dystopia the highway reflects some of our most potent fantasies as well as our deepest anxieties about modernity ecology commerce and individuality In a work rich in embedded multimedia Helen J Burgess and Jeanne Hamming look at cultural and media representations of the highway in planning documents industrial films corporate ephemera and science fiction narratives to explore how these stories of the road have reconfigured how we think about ourselves and our world Highways of the Mind available only on the Apple iBookstore site in iBook format shows how the stories we tell about the highway whether in the service of national pride corporate advertising urban planning or apocalyptic warnings determine how we imagine or fail to imagine the possibilities for human action in built environments

The American Body in Context Jessica R. Johnston, 2001 From Marilyn Monroe to the Spice Girls from Grover Cleveland to President Clinton to one s naked form reflected in the mirror each morning Americans are taught to read bodies as symbols displaying and revealing hidden truths about the individual and his or her behaviours Any discussion of the body becomes complex and muddled as one tries to analyze how and why certain body types are attributed certain meanings
