 No Religion Higher Than Truth Maria Carlson, 2015-03-08 Among the various kinds of occultism popular during the Russian Silver Age 1890-1914 modern Theosophy was by far the most intellectually significant This contemporary gnostic gospel was invented and disseminated by Helena Blavatsky an expatriate Russian with an enthusiasm for Buddhist thought and a genius for self promotion What distinguished Theosophy from the other kinds of mysticism the spiritualism table

turning fortune telling and magic that fascinated the Russian intelligentsia of the period In answering this question Maria Carlson offers the first scholarly study of a controversial but important movement in its Russian context Carlson's is the only work on this topic written by an intellectual historian not ideologically committed to Theosophy Placing Mme Blavatsky and her secret doctrine in a Russian setting the book also discusses independent Russian Theosophical circles and the impact of the Theosophical Anthroposophical schism in Russia It surveys the vigorous polemics of the Theosophists and their critics demonstrates Theosophy's role in the philosophical dialogues of the Russian creative intelligentsia and chronicles the demise of the movement after 1917 By exploring this long neglected aspect of the Silver Age Carlson greatly enriches our knowledge of fin de siècle Russian culture Originally published in 1993 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Among Stone Giants**

JoAnne Van Tilburg, 2003 A portrait of the first woman archaeologist to work in Polynesia documents Routledge's experiences on Easter Island beginning with the launch of the 1913 Mana Expedition and continuing with her immersion into local customs and beliefs and battle with schizophrenia *Mysteries and Secrets Revealed* Loren Pankratz, 2021-04-01 *Mysteries and Secrets Revealed* uncovers the reality behind mysteries of nature and secrets of frauds that eluded common understanding The journey begins in the ancient Greek city of Delphi where priests claimed the gift of a priceless gold lion was an acknowledgement of their clairvoyant powers But their concocted story concealed an embarrassing blunder Those sufficiently savvy to catch the lie became aware of even deeper problems Author Loren Pankratz then guides us through the conflicts of Renaissance scholars including Galileo who explained things in ways that enraged philosophers and infuriated priests Galileo's methods of investigation were perpetuated by the meticulous work of the Academy of Experiment and Bernard Fontenelle's enthralling dialogue enabled common people to accept life in the rearranged sun centered universe Clairvoyants in a mesmeric trance claimed they could visit distant planets and endure brutal surgical procedures If any of this was real how was it possible One nineteenth century mesmeric savant Alexis Didier was so convincing that someone claimed no case of clairvoyance could be made for anyone if his accomplishments were not real This unchallenged declaration is now unraveled here for the first time through information gleaned from uncommon documents and rare antiquarian pamphlets The surprising manifestations of modern spiritualism quickly escalated into a psychic arms race that included mysterious tipping and turning of tables Scientist Michael Faraday devised ingenious experiments to show how subtle muscle reactions outside of awareness created these manifestations On the other hand explanations for table levitations and mysterious writing on slates could only be solved by individuals with acute observational skills and acquainted

with the methods of trickery Each story in *Mysteries and Secrets Revealed* captures the tension of conflict the thrill of discovery and the strategies of science that unmasked frauds fakes false belief and the enigmas of our natural world

Magic's Translations Margaret J. Wiener, 2025-04-04 Do you believe in magic This familiar question suggests magic is easily recognized but unreal In *Magic's Translations* Margaret J Wiener argues that such views are shaped by historical power struggles especially in Europe's relations with the wider world Focusing on nineteenth and twentieth century Dutch interactions with Indonesians Wiener reveals how colonial agents framed unfamiliar practices practitioners and objects as magic rendering distinct phenomena fundamentally alike and advancing colonizing projects that deemed magic antithetical to reason and reality While colonial authorities including ethnologists mobilized the concept of magic to differentiate Europeans from Indonesians nature from culture reason from superstition and fact from fetish their efforts produced unexpected outcomes Some Indonesian artifacts and acts not only retained their power but invaded European experiences As anthropologists were among the key translators of magic throughout the world Wiener intersperses accounts of magic's translations in the Indies with reflections on anthropology's ongoing engagement with the concept She demonstrates that magic became an object of expert knowledge political control and popular fascination rather than a self-evident category or relic of naïve belief

s reign was an era of breathtaking social change but it did little to create a platform for women to express themselves But not so within the social sphere of the s ance a mysterious lamp lit world on both sides of the Atlantic in which women who craved a public voice could hold their own Out of the Shadows tells the stories of the enterprising women whose supposedly clairvoyant gifts granted them fame fortune and most important influence as they crossed rigid boundaries of gender and class as easily as they passed between the realms of the living and the dead The Fox sisters inspired some of the era s best known political activists and set off a transatlantic s ance craze While in the throes of a trance Emma Hardinge Britten delivered powerful speeches to crowds of thousands Victoria Woodhull claimed guidance from the spirit world as she took on the millionaires of Wall Street before becoming America s first female presidential candidate And Georgina Weldon narrowly escaped the asylum before becoming a celebrity campaigner against archaic lunacy laws Drawing on diaries letters and rarely seen memoirs and texts Emily Midorikawa illuminates a radical history of female influence that has been confined to the dark until now
