Ferdinand Christian Baur and the History of Early Christianity Martin Bauspiess, Christof Landmesser, David Lincicum, 2017-02-10 Ferdinand Christian Baur 1792 1860 has been described as the greatest and at the same time the most controversial theologian in German Protestant theology since Schleiermacher The controversy was epitomized by a nineteenth century British critic who wrote that his theory makes of Christianity a thing of purely natural origin calls in question the authenticity of all but a few of the New Testament books and makes the whole collection contain not a harmonious system of divine truth but a confused mass of merely human and contradictory opinions as to the nature of the Christian religion The contributors to this volume however regard Baur as an epoch making New Testament scholar whose methods and conclusions though superseded have been mostly affirmed during the century and a half since his death This collection focuses on the history of early Christianity although as a historian of the church and theology Baur covered the entire field up to own time He combined the most exacting historical research with a theological interpretation of history influenced by Kant Schelling and Hegel The first three chapters discuss Baur's relation to Strauss Müller and Hegel Then a central core of chapters considers his historical and exegetical perspectives Judaism and

Hellenism Gnosticism New Testament introduction and theology the Pauline epistles the Synoptic Gospels John the critique of miracle and the combination of absoluteness and relativity The final chapters view his influence by analyzing the reception of Baur in Britain Baur and Harnack and Baur and practical theology This work offers a multi faceted picture of his thinking which will stimulate contemporary discussion Teacher, Preacher, Soldier, Spy Christopher Grasso, 2021 Teacher preacher soldier spy the civil wars of John R Kelso is an account of an extraordinary nineteenth century American life A schoolteacher and Methodist preacher in Missouri in the Civil War Kelso earned fame fighting rebel guerrillas Seeking personal revenge as well as defending the Union he vowed to slay twenty five rebels with his own hand and when he did so he was elected to Congress In the House of Representatives during Reconstruction he was one of the first to call for the impeachment of President Andrew Johnson After his term in Congress personal tragedy drove him west where he became a freethinking lecturer and author an atheist a Spiritualist and before his death in 1891 an anarchist John R Kelso was many things He was also a strong willed son a passionate husband and a loving and grieving father The Civil War remained central to his life challenging his notions of manhood and honor his ideals of liberty and equality and his beliefs about politics religion morality and human nature Throughout his life too he fought private wars not only against former friends and alienated family members rebellious students and disaffected church congregations political opponents and religious critics but also against the warring impulses in his own complex character His life story moreover offers a unique vantage upon dimensions of nineteenth century American culture that are usually treated separately religious revivalism and political anarchism sex divorce and Civil War battles freethinking and the Wild West Nineteenth-Century Philosophy of Religion Graham Oppy, N. N. Trakakis, 2014-09-19 The nineteenth century was a turbulent period in the history of the philosophical scrutiny of religion Major scholars such as Hegel Fichte Schelling Newman Caird and Royce sought to construct systematic responses to the Enlightenment critiques of religion carried out by Spinoza and Hume At the same time new critiques of religion were launched by philosophers such as Schopenhauer and Nietzsche and by scholars engaged in textual criticism such as Schleiermacher and Dilthey Over the course of the century the work of Marx Freud Darwin and Durkheim brought the revolutionary perspectives of political economy psychoanalysis evolutionary theory and anthropology to bear on both religion and its study These challenges played a major role in the shaping of twentieth century philosophical thought about religion Nineteenth Century Philosophy of Religion will be of interest to scholars and students of Philosophy and Religion and will serve as an authoritative guide for all who are interested in the debates that took place in this seminal period in the history of philosophical thinking about religion **A Theology of the Presence and Absence of God** Anthony J. Godzieba, 2018-05-02 In a consumer driven and technologized world can we still experience the mystery of God This book answers yes by exploring the rich resources of the Christian tradition of thinking and speaking about God Focusing on God's dialectical character divine availability presence and divine excess absence and the belief that God is love 1 John 4 16

professor Anthony J Godzieba tracks how God became a problem in Western culture then responds by showing how human experience is open to divine transcendence and how that openness encounters the revelation of God as Trinity The book's contemporary edge comes from its insistence that belief as embodied performance is the most authentic way to participate in the mystery of God's love which is the answer to the mystery of the world and human beings Walter Kasper **The Recovery of Mission** Vinoth Ramachandra,2002-10-03 In recent years the term religious pluralism has come to be used not only in a descriptive sociological sense but also as theologically prescriptive Within this new paradigm traditional Christian understandings of Christ conversion evangelism and mission have been radically reinterpreted The Recovery of Mission explores the pluralist paradigm through the work of three of its most influential Asian exponents Stanley Samartha Alousius Pieris and Raimundo Panikkar subjecting each to a theological and philosophical critique On the basis of biblical patristic and contemporary theological writings Vinoth Ramachandra argues for the uniqueness and decisiveness of what God has done for us in Jesus Christ Ramachandra seeks to show that many of the valid concerns of pluralist theologians can best be met by reappropriating the missionary thrust at the heart of the gospel The book ends with suggestions challenging to pluralists and conservatives alike as to how the gospel needs to be communicated in a multifaith world *Positioning the Scholar* Indrek Peedu,2025-08-13 This book presents a systematic study of the issue of positioning in the scientific study of religion The book discusses the wider context of positioning in the study of religion highlights the epistemological and methodological presumptions as well as the implicit goals in play in the cognitive and evolutionary approaches Particular focus is on the contemporary evolutionary cognitive and behavioral study of religion and the issues of positioning in the context of these research approaches Based on this it presents an in depth analysis of the prevalent conceptualizations of the position of the scholar in the study of religion methodological naturalism methodological agnosticism neutrality and the dialogical position Furthermore for the first time the relevance of both evolutionary epistemology and the underdetermination of scientific research is shown for the purposes of a full evaluation of the justifiability of particular epistemological arguments Finally directions forward in discussing and conceptualizing the position of the scholar in the study of religion are suggested The book is expected to be of relevance and interest for scholars of religion interested in method and theory in the study of religion evolutionary and cognitive study of religion and other related fields The Modern Theologians David F. Ford,2013-09-23 This popular text has been updated to ensure that it continues to provide a current and comprehensive overview of the main Christian theologies of the twentieth and twenty first centuries Each chapter is written by a leading theologian and gives a clear picture of a particular movement topic or individual New and updated treatments of topics covered in earlier editions with over half the chapters new to this edition or revised by new authors New section singling out six classic theologians of the twentieth century Expanded treatment of the natural sciences gender Roman Catholic theology since Vatican II and African Asian and Evangelical theologies Completely new chapters on spirituality pastoral theology

philosophical theology postcolonial biblical interpretation Pentecostal theology Islam and Christian theology Buddhism and Christian theology and theology and film As in previous editions the text opens with a full introduction to modern theology Epilogue discussing the present situation and prospects of Christian theology in the twenty first century Christian Faith and the Theological Life Romanus Cessario, 1996 What does it mean to believe in God This question still provokes a recalcitrant world In spite of the apparent disinterest of our age the religious question continues to task and to vex sometimes quietly sometimes dramatically When religious divisions occasion civil strife believers are faced with an even more radical inquiry Wherein lies the real truth about Christian doctrine and its place in our lives Can we appeal to any authority for belief How do we escape the suspicions of a skeptical age In this book Romanus Cessario explores these questions and suggests responses taken from the history of theology He offers a readable account of the accumulated wisdom of the Christian tradition concerning the faith question citing as major authorities the saints those who have realized the will of God throughout the ages Faith supplies not only the assurance but also the substance of things hoped for The experience of Israel teaches that God has foreseen something better for us this something better resides in the Word of God that takes flesh in the womb of the Virgin Mary Because it keeps being born again in the heart of every believer as St Thomas Aquinas reminds us it leads us to the blessedness of eternal life Since the end of the Second Vatican Council in 1965 authors have dealt mainly with the existential dimensions of Christian life This volume the fruit of more than two decades of contemplation on the virtues of Christian life complements these as well as historical studies about faith It presents a coherent meditation on faith's principal concerns its acts of belief and confession and its character as a virtue in the Christian life Father Cessario explains how the mysteries of faith what the Christian believer professes each Sunday in the Creed transform our lives and make us living images of the Triune God Consequently this book will meet a wide range of needs by answering the questions of the informed reader animating study groups and parish seminars and stimulating the ordinary believer to appropriate the depth of the riches and the wisdom and knowledge of God

Contested Christianity Timothy Larsen, 2004 This volume explores the cultural political and intellectual forces that helped define nineteenth century British Christianity Larsen challenges many of the standard assumptions about Victorian era Christians in their attempts to embody and their theological commitments He highlights the way in which Dissenters and other free church Evangelicals employed the full range of theological resources available to them to take stands that the wider culture was still resisting e g evangelical

nonconformists enfranchising women siding with the black population of Jamaica in opposition to their own colonial governor championing the rights of Jews Roman Catholics and atheists These stances belie the stereotypes of Victorian Evangelicals currently in existence and properly shift the focus to Dissent to plebeian culture to social contexts and to the cultural and political consequences of theological commitments This study brings freshness and verve to the study of religion and the Victorians bearing fruit in a range of significant findings and connections

Emily Bronte and the Religious Imagination Simon Marsden, 2013-11-21 Readers of Emily Brontë's poetry and of *Wuthering Heights* have seen in their author variously a devout if somewhat unorthodox Christian a heretic or a visionary mystic of the moors Rather than seeking to resolve this matter Emily Brontë and the Religious Imagination suggests that such conflicting readings are the product of tensions conflicts and ambiguities within the texts themselves Rejecting the idea that a single coherent set of religious doctrines are to be found in Brontë's work this book argues that *Wuthering Heights* and the poems dramatise individual experiences of faith in the context of a world in which such faith is always conflicted always threatened Brontë's work dramatises the experience of imaginative faith that is always contested by the presence of other voices other worldviews Her characters cling to visionary faith in the face of death and mortality awaiting and anticipating a final vindication an eschatological fulfilment that always lies in a future beyond the scope of the text

Kierkegaard's International Reception: The Near East, Asia, Australia and the Americas Jon Stewart, 2008-06-01 Although Kierkegaard's reception was initially more or less limited to Scandinavia it has for a long time now been a highly international affair As his writings became translated into the different languages his reputation spread and he became read more and more by people increasingly distant from his native Denmark While in Scandinavia the attack on the Church in the last years of his life became something of a cause célèbre later many different aspects of his work became the object of serious scholarly investigation well beyond the original northern borders As his reputation grew he was co-opted by a number of different philosophical and religious movements in different contexts throughout the world The three tomes of the present volume attempt to record the history of this reception according to national and linguistic categories Tome III is the most geographically diverse covering the Near East Asia Australia and the Americas The section on the Near East features pioneering articles on the Kierkegaard reception in Israel Turkey Iran and the Arab world The next section dubbed Asia and Australia features articles on the long and rich traditions of Kierkegaard research in Japan and Korea along with the more recent ones in China and Australia A final section is dedicated to Americas with articles on Canada the United States hispanophone South America Mexico and Brazil

Pilgrim's Process David R. Peel, 2021-08-31 This book traces the intellectual journey of a Christian minister and theologian Starting with his discovery of God through a love of the natural world David Peel's encounter with thinkers from his Reformed tradition and extensive ecumenical

involvement takes him to a revisionary theology which meets his attempt to integrate a scientific background with the Christian faith. Essays written during his career illustrate the path he has taken. The topics covered include theological method, the centrality of theology for the church's life and work, a sacramental view of ministry, the missional church, biblical authority, nonconformity's gifts to the contemporary church, and theological education. Peel's theological approach is as critical of inadequate theologies inherited from the past as it is determined to construct a Christian narrative which satisfies twin requirements: first being congruent with the Jesus tradition and secondly convincing the minds, reaching the hearts, and driving the commitments of contemporary people. Both ministers and church members are challenged to view their own theological journeys as God-given vocations.
