planning It examines all the key issues as well as the evolution traditions current innovations and future developments in the field of planning Focusing on how planning impacts upon social issues such as employment social exclusion and quality of life the volume also looks at innovations in planning policy and practice in particular the challenge of sustainability The contributors analyze the built environment s relationship with culture and take a critical look at the creative re thinking currently taking place in Nordic planning *Bachelors, Manhood, and the Novel, 1850-1925* Katherine V.

Snyder,1999-09-02 Katherine Snyder s study explores the significance of the bachelor narrator a prevalent but little recognised figure in premodernist and modernist fiction by male authors including Hawthorne James Conrad Ford and Fitzgerald Snyder demonstrates that bachelors functioned in cultural and literary discourse as threshold figures who by crossing the shifting permeable boundaries of bourgeois domesticity highlighted the limits of conventional masculinity The very marginality of the figure Snyder argues effects a critique of gendered norms of manhood while the symbolic function of marriage as a means of plot resolution is also made more complex by the presence of the single man Bachelor figures made moreover an ideal narrative device for male authors who themselves occupied vexed cultural positions By attending to the gendered identities and relations at issue in these narratives Snyder s study discloses the aesthetic and political underpinnings of the traditional canon of English and American male modernism *The Printed and the Built* Mari

Hvattum,Anne Hultzsch,2018-06-28 *The Printed and the Built* explores the intricate relationship between architecture and printed media in the fast changing nineteenth century Publication history is a rapidly expanding scholarly field which has profoundly influenced architectural history in recent years Yet while groundbreaking work has been done on architecture and printing in the Renaissance the Enlightenment and the twentieth century the nineteenth century has received little attention This is the omission that *The Printed and the Built* seeks to address thus filling a significant gap in the understanding of architecture s cultural history Lavishly illustrated with colourful and eclectic visual material from panoramas to printed ephemera adverts penny magazines early photography and even crime reportage *The Printed and the Built* consists of five in depth thematic essays accompanied by 25 short pieces each examining a particular printed form Altogether they illustrate how new genres communicated architecture to a mass audience setting the stage for the modern architectural era **Bibliographic Guide to Art and Architecture** New York Public Library.
