Novel Histories Lisa Kasmer, 2012-01-12 *Novel Histories* British Women Writing History 1760 1830 explores issues of historical and literary genres historiography and the gendering of civic and literary roles It demonstrates the new and sometimes subversive ways that women authors pushed the limits of writing history in order to participate in contemporary national civic life otherwise closed to them *The Oxford History of the Novel in English* Patrick Parrinder, 2011 This series presents a comprehensive global and up to date history of English language prose fiction and written by a international team of scholars dust jacket *Sinister histories* Jonathan Dent, 2016-07-01 *Sinister histories* is the first book to offer a detailed exploration of the Gothic s response to Enlightenment historiography It uncovers hitherto neglected relationships between fiction and prominent works of eighteenth century history locating the Gothic novel in a range of new interdisciplinary contexts Drawing on ideas from literary studies history politics and philosophy the book demonstrates the extent to which historical works influenced and shaped Gothic fiction from the 1760s to the early nineteenth century Through a series of detailed readings of texts from *The Castle of Otranto* 1764 to *Maria or The Wrongs of Woman* 1798 this book offers an alternative account of the Gothic s development and a sustained revaluation of the creative legacies of the French Revolution

Making Use of History in New South African Fiction Sten Pultz Moslund, 2003 A study of the use of history as political ammunition and literature as historical counter discourse in Mongane Serote s *Gods of Our Time* Mike Nicol s *The Ibis Tapestry* and Zakes Mda s *Ways of Dying* Moslund shows how literary engagement with the past seeks to rupture the continuity of a strongly dichotomised epistemology and through that dissolve the inherited polarisation of society Falsification of history is exposed as constructed discourse and past simplifications of reality as sharply demarcated into homogenous self justifying categorisations of Us against Them are challenged with paradox doubt and introspection *The Physiology of the Novel* Nicholas Dames, 2007-09-27 How did the Victorians read novels Nicholas Dames answers that deceptively simple question by revealing a now forgotten range of nineteenth century theories of the novel a range based in a study of human physiology during the act of reading He demonstrates the ways in which the Victorians thought they read and uncovers surprising responses to the question of what might have transpired in the minds and bodies of readers of Victorian fiction His detailed studies of novelcritics who were also interested in neurological science combined with readings of novels by Thackeray Eliot Meredith and Gissing propose a vision of the Victorian novel reader as far from the quietly immersed being we now imagine as instead a reader whose nervous system was addressed attacked andsoothed by authors newly aware of the neural operations of their public Rich in unexpected intersections from the British response to Wagnerian opera to the birth of speed reading in the late nineteenth century *The Physiology of the Novel* challenges our assumptions about what novel reading once did and still does to the individual reader and provides new answers to the question of how novels influenced a culture s way of reading responding and feeling **Racism in Novels** Elaine Rocha, 2010-04-16 During the first

half of the twentieth century both countries witnessed the advance of capitalism translated into an aggressive police of development with the exploitation of minerals construction of railways and roads urbanization and industrialization Along with the economic development Brazilian and South African society tried to take control of their society meaning to control the population in order to maintain the status quo For that end racial definitions classifications theories and policies were fundamental As the features of South African politics and policies of racial segregation emerged with new colors for the world after the end of the Apartheid regime given the testimonies the released documents and the new analysis Brazilians have been pushed to face the problem of racial exclusion unmasking its image as a racial paradise under the lights of new studies as well Elaine Rocha uses novels published in both countries between 1912 and 1953 as a window from where one could see how cultural perceptions policies and of racial differentiation were reflected in the everyday life The analysis of the literary content plus the authors biographies political ideologies and the problems they were facing and interacting together with their intentions of affecting the lives of the readers with the tragedy they illustrated in their novels claiming for a change in the real world

The Power of Neo-Slave Fiction and Public History Grant Rodwell, 2023-10-13 Professional historians schools colleges and universities are not alone in shaping higher order understanding of history The central thesis of this book is the belief historical fiction in text and film shape attitudes towards an understanding of history as it moves the focus from slavery to the enslaved from the institution to the personal families and feminist accounts In a broader sense this contributes to a public history In part using the quickly growing corpus of neo slave counterfactual narratives this book examines the notion of the emerging slavery public history and the extent to which this is defined by literature film and other forms of artistic expression rather than non fiction popular or scholarly and education in history in the school systems Inter alia this book looks to the validity of historical fiction in print or in film as a way of understanding history A focal point of this book is the hypothesis that neo slave narratives supported by selective triangulated readings and viewings of scholarly works and non fiction have assisted greatly in re shaping the historiography of antebellum slavery and scholarly historians followed in the wake of these developments Essentially this has meant a re shaping of the historiography with a focus from slavery to that of the enslaved Moreover it has opened new vistas for a public history devoid of top down authoritative scholarship An

important and provocative read for students and scholars interested in understanding the history of slavery its harrowing effects and how it was culturally defined *Design Research in Architecture* Murray Fraser, 2021-07-28 What is the role of design research in the types of insight and knowledge that architects create That is the central question raised by this book It acts as the introductory overview for Ashgate's major new series *Design Research in Architecture* which has been created in order to establish a firm basis for this emerging field of investigation within architecture While there have been numerous architects scholars since the Renaissance who have relied upon the interplay of drawings models textual analysis intellectual ideas and cultural insights to scrutinise the discipline nonetheless until recently there has been a reluctance within architectural culture to acknowledge and accept the role of design research as part of the discourse However in many countries around the world one of the key changes in architecture and architectural education over the last decade has been the acceptance of design as a legitimate research area in its own right and this new series provides a forum where the best proponents of architectural design research can publish their work This volume provides a broad overview on design research that supports and amplifies the different volumes coming out in the book series It brings together leading architects and academics to discuss the more general issues involved in design research At the end there is an Indicative Bibliography which alludes to a long history of architectural books which can be seen as being in the spirit of design research [A](#)

(Re)formulation in Second Temple Historiographical Literature Louis Jonker, 2011-05-11 It is commonly accepted in various disciplines and contexts that history writing often if not always contribute to the process of identity re formation Using the past in order to find a renewed identity in new socio political and socio religious circumstances is something that we also witness in Hebrew Bible historiographies The so called Deuteronomistic History as well as the works of Chronicles and Ezra Nehemiah are often read from the perspective of a community trying to find a new identity in changed circumstances In the Historical Books section at the 2008 Auckland SBL International Meeting this perspective was investigated further The papers presented included theoretical reflections on the relationship between historiography and identity re formation as well as illustrations from Hebrew Bible historiographies of the Exilic and Second Temple periods These papers together with a few responses to the papers are offered here to a wider scholarly audience Contributors include Jon Berquist Mark Brett Louis Jonker Mark Leuchter Christine Mitchell Klaas Spronk Gerrie Snyman Ray Person Armin Siedlecki and Jacob Wright [A Reference Guide for English Studies](#) Michael J.
