comprehensive guide to sequels in English with over 84 000 works by 12 500 authors in 17 000 sequences **Back in the Spaceship Again** Karen Sands-O'Connor, Marietta Frank, 1999-08-30 Much literature for children appears in the form of series in which familiar characters appear in book after book In the late nineteenth and early twentieth century authors began to write science fiction series for children These early series generally had plots that revolved around inventions developed by the protagonist But it was the development and use of rocket and atomic science during World War II that paved the way for interesting and exciting new themes conflicts and plots While much has been written about the early

juvenile science fiction series particularly the Tom Swift books comparatively little has been written about children's science fiction series published since 1945 This book provides a broad overview of this previously neglected topic The volume offers a critical look at the history themes characters settings and construction of post 1945 juvenile science fiction series including the A I Gang the Animorphs Commander Toad Danny Dunn Dragonfall Five the Magic School Bus and Space Cat The book begins with an introductory history of juvenile science fiction since 1945 with chapters then devoted to particular topics Some of these topics include the role of aliens and animals attitudes toward humor the absence and presence of science and the characterization of women A special feature is an appendix listing the various series In addition the volume provides extensive bibliographical information 12 Tom Swift and the High Space Elevator (HB) Victor Appleton II, 2014-04-27 Within weeks of putting his outpost in space into geosynchronous orbit Tom got it into his mind to build a bigger station farther out in an orbit where it will be safe from space debris and where he can have much more room for everything he hopes to accomplish in space A combination of attacks and events on him and his company make it look like a necessity and much sooner than he would have imagined But what can he do to get around the logistical nightmare such an undertaking will bring An elevator from the ground straight up into space has been a dream of writers and engineers for more than a century Tom puts development of a space elevator on the front burner at Swift Enterprises His only hope is that it is actually possible **Fiction, Folklore, Fantasy & Poetry for Children, 1876-1985: Authors, illustrators**, 1986 *Notable Last Facts*, 2005 A core reference book for libraries More than 16 000 facts have been expertly researched and presented in an easy to use format It is a first of its kind work conceived of researched and written by a skilled librarian with more than 10 years of experience A Notable Last Fact is any historically significant event person place or thing that marks the end of its kind or its era Lasts carry symbolic demarcations of our advances failures and changes Notable Last Facts is a must have reference for all libraries *Tom Swift and the Cometary Reclamation* Thomas Hudson & Leo II, 2014-11-26 In this hardbound second installment of the Lunar Trilogy Tom Swift and the Space Battering Ram was part 1 an environmental disaster hits California at the same time the lunar colony now free of the tyranny of the Masters is facing a crisis of their own and it seems a single solution needs to be found for both At the same time Harlan Ames ventures to Tibet in search of answers about the Empress and where she might have crashed her evacuation spacecraft What he finds will turn his world on end and nearly ruin the now free colony on the Moon With his own troubles Tom must find a way to mine water from a passing comet and bring it to the Moon and down to the Earth safely and quickly before people start to die As it is people are leaving the state as if it is becoming a new dustbowl The inhabitants of the lunar colony don't have that luxury Will Harlan's search and Tom's projects succeed Or will they intersect with disastrous consequences Science Fiction for Young Readers Charles William Sullivan, 1993-03-24 In this collection of essays authorities on a wide range of topics related to science fiction discuss themes and works of special interest to young readers The first section includes chapters on the

origins of science fiction as a genre for young people and contains essays on Victor Appleton's Tom Swift series and the contributions of Isaac Asimov, Robert A. Heinlein, and Madeleine L. Engle. The second section looks beyond the origins of science fiction to particular works and authors. The chapters in this section approach authors and their works from particular thematic perspectives and thus show how particular themes bind together and define the body of an author's writings. The third section on science fiction as a vehicle for ideas looks beyond the literary features of the genre. Chapters in this section discuss science fiction as a means for conveying religious, philosophical, and social messages. AB Bookman's Weekly, 1997

Tom Swift Jr. and his associates at Swift Enterprises wait breathlessly for what may well be the most important scientific event in history: the arrival of the visitor from Planet X, a visitor in the form of energy. But there are factions at work determined to snatch the energy which Tom has named Exman from the young scientist inventor's grasp. First a series of unexplainable devastating earthquakes threaten to destroy a good portion of the earth, and Tom suspects the Brungarian rebels who obviously would like to capture Exman and use the space visitor to further their own evil purposes. *Twentieth-century Science Fiction Writers*, 1986 **Forthcoming Books** Rose Army, 1984-03 **Writer's Directory** Saint Martin's Press Inc., 1994
