**A Journey through the Content and Language Integrated Learning Landscape** Carmel Mary Coonan, Luciana Favaro, Marcella Menegale, 2017-11-06

Interest in Content and Language Integrated Learning (CLIL) in Europe and beyond has increased exponentially since it first appeared on the scene in Europe in the early 1990s. CLIL has grown to become a much discussed topic of language education today with the number of publications pertaining to the field continuing to increase. Researchers, teachers, teacher trainers, course planners and others involved in CLIL are constantly searching for new studies to help them understand how CLIL is evolving and how best it can be implemented. As the concept is now informing the pedagogical principles of different educational realities, research and reflection are now required to further understand its potential and implications, its inherent difficulties and possible applications. This volume was conceived with this idea in mind. The book primarily covers three macro areas: learning, teaching and training. It provides insight into the latest areas of research and reflection that are characterizing the CLIL field in the current decade. The wide range of topics covered reveal, for example, a shift in interest towards CLIL at the tertiary level focusing on lecturer and student perceptions and problems.

*The 5-Year Plan: The Nets' Tumultuous Journey from New Jersey to Brooklyn* Greg Hrinya, 2015-05-22

The New Jersey Nets were mired in mediocrity when an international man of mystery emerged from the shadows. Russian multimillionaire Mikhail Prokhorov came bearing two gifts: a bottomless wallet and a passion for basketball. In return for his money, he expected everybody associated with the team—management, players, ball boys—to commit to success and achieve it within five years. But the Nets required more than money to change their fortunes. They needed shrewd decision makers, brilliant minds and the most physically gifted players in the world. Instead, as Prokhorov's thirst for instant gratification spiraled out of control, management turned losing into an art form, dangling perfectly good players as trade bait, kowtowing to their stars and alienating an entire state. The fallout on the court and in the locker room produced, if not a winning team, the most interesting basketball story not yet told.
