**Tactical Emergency Medicine** Richard B. Schwartz,John G. McManus,Raymond E. Swienton,2008 This brief practical text covers all aspects of tactical emergency medicine the practice of emergency medicine in the field rather than at the hospital during disasters police or military conflicts mass events and community incidents Key topics covered include hostage survival insertion and extraction techniques continuum of force medical support planning and triage medical evaluation in the incident zone care in custody medical control of incident site decontamination community communication and more Boxed definitions case scenarios and treatment algorithms are included The concluding chapter presents real world

scenarios to run tactical teams through and lists recommended training programs and continuing education Disaster Medicine David E. Hogan, Jonathan L. Burstein, 2007 Written by more than 30 emergency physicians with first hand experience handling medical care during disasters this volume is the only single comprehensive reference on disaster medicine It provides the information that every emergency department needs to prepare for and handle the challenges of natural and manmade disasters The contributors present guidelines for assessing the affected population s health care needs establishing priorities allocating resources and treating individuals Coverage encompasses a wide range of natural industrial technologic transportation related and conflict related disasters with examples from around the world This edition has more illustrations and more information on weapons of mass destruction and explosions Koenig and Schultz's Disaster Medicine Kristi L. Koenig, Carl H. Schultz, 2016-02-16 As societies become more complex and interconnected the global risk for catastrophic disasters is increasing Demand for expertise to mitigate the human suffering and damage these events cause is also high A new field of disaster medicine is emerging offering innovative approaches to optimize disaster management Much of the information needed to create the foundation for this growing specialty is not objectively described or is scattered among multiple different sources This definitive work brings together a coherent and comprehensive collection of scientific observations and evidence based recommendations with expert contributors from around the globe This book identifies essential subject matter clarifies nomenclature and outlines necessary areas of proficiency for healthcare professionals handling mass casualty crises It also describes in depth strategies for the rapid diagnosis and treatment of victims suffering from blast injuries or exposure to chemical biological and radiological agents **Planning Medical Care for High-risk Mass Gatherings** Ralph B. Leonard, 2007 **Guidance for One Health field epidemiology curriculum development** World Health Organization, Food and Agriculture Organization of the United Nations, World Organisation for Animal Health, 2024-02-14 The publication provides programmes with proposed training topics and learning objectives to ensure participants reach the minimum core competencies outlined in the competency framework Competencies for One Health field epidemiology (COHFE) framework World Health Organization, World Organisation for Animal Health, Food and Agriculture Organization of the United Nations, 2024-02-01 The COHFE framework defines the knowledge skills and competencies KSC needed for field epidemiologists to implement the One Health approach It consists of 14 domains with guidance for the frontline intermediate and advanced training levels KSC statements are further classified as core One Health optional One Health or sector specific for human health animal health or the environment Technical domains Foundational knowledge skills Surveillance systems Field investigations Disease management Laboratory capacity Infection prevention control biosafety biosecurity Preparedness response Epidemiological studies Data management biostatistics informatics Ecosystem Health Functional domains Leadership management Communication community engagement Training Ethics **Textbook of Emergency Medicine** Suresh David, 2011-01-01 Textbook of Emergency Medicine Vol 1 and 2 is a

comprehensive and contemporary exposition of the vast array of disorders and emergencies that might present to the emergency or casualty department of a hospital      **Emergency Medical Services** Jane H. Brice, Theodore R. Delbridge, J. Brent Myers, 2021-08-12 The two volume Emergency Medical Services Clinical Practice and Systems Oversight delivers a thorough foundation upon which to succeed as an EMS medical director and prepare for the NAEMSP National EMS Medical Directors Course and Practicum Focusing on EMS in the real world the book offers specific management tools that will be useful in the reader's own local EMS system and provides contextual understanding of how EMS functions within the broader emergency care system at a state local and national level The two volumes offer the core knowledge trainees will need to successfully complete their training and begin their career as EMS physicians regardless of the EMS systems in use in their areas A companion website rounds out the book's offerings with audio and video clips of EMS best practice in action Readers will also benefit from the inclusion of A thorough introduction to the history of EMS An exploration of EMS airway management including procedures and challenges as well as how to manage ventilation oxygenation and breathing in patients including cases of respiratory distress Practical discussions of medical problems including the challenges posed by the undifferentiated patient altered mental status cardiac arrest and dysrhythmias seizures stroke and allergic reactions An examination of EMS systems structure and leadership      **Preplanning for EMS** Warren Porter, American Academy of

Orthopaedic Surgeons, 2009-06 Preplanning was first developed in the 1970s by the fire service as a tool to make firefighting efforts more effective and ensure life safety for responders and civilians Preplanning for EMS introduces emergency medical services EMS administrators supervisors and providers to preincident planning focusing exclusively on EMS concerns
