Handbook of Archaeology and Plastics Genevieve Godin, Þóra Pétursdóttir, Estelle Praet, John Schofield, 2024-09-17 The Routledge Handbook of Archaeology and Plastics investigates the archaeology of the contemporary world through the lens of its most distinguishing and problematic material Plastics are ubiquitous and have been so for nearly three generations since they became widely used in the early 1950s Plastics will persist for millennia their legacies as toxic heritage being felt deep into the future In this book comprising 32 original at times disturbing and critically engaged contributions scholars from archaeology and other cognate disciplines explore plastics from a number of different angles and perspectives Together these contributions highlight the dilemma that plastics present their usefulness on the one hand and the threats they present to environmental health on the other The volume also explores the lessons that archaeologists can learn from plastics about episodes of mass production consumption and toxicity in the past and also importantly about the future This important and timely collection will therefore be of interest to all archaeologists irrespective of their period of study or their geographical focus and to students of archaeology and cultural heritage It will also be relevant for researchers and students in other fields

of study that focus on plastics and their environmental and social impacts Ultimately this book concerns the contemporary world and the impact of people upon it through the archaeological lens

Designing with Natural Materials Graham A. Ormondroyd, Angela F. Morris, 2018-09-03 In a world now forced to address the issues of sustainability environmental impact and the widespread pollution of land and oceans with manmade materials alternative resources must be considered for the future of the planet A vast array of natural materials is available throughout the world with properties that are often superior to the man made alternatives Designing with Natural Materials fills the gap between the current scientific knowledge of the use of natural materials and product design and acts as a bridge between the two disciplines The book serves as an introduction to natural materials within the context of design The chapters include case studies research and a historical perspective It develops ideas of designing with natural materials in specific areas and looks to the future of new biobased materials and how these will influence design The work offers insight to designers of biobased materials across a range of different design disciplines while also providing insights to scientists on the process of design production and the needs of a material beyond those traditionally analyzed in the laboratory The final chapters touch on the use of bioinspiration and biomimicry in the development and use of biobased materials and how natural design will influence both material design and products in the future The book will be of interest to engineers scientific researchers professional designers students those working in industry who are considering using natural materials as an alternative to current unsustainable options and anyone who has an interest in the subject

Provocative Plastics Susan Lambert, 2021-01-07 Plastics have now been our most used materials for over fifty years This book adopts a new approach exploring plastics contribution from two perspectives as a medium for making and their value in societal use The first approach examines the multivalent nature of plastics materiality and their impact on creativity through the work of artists designers and manufacturers The second perspective explores attitudes to plastics and the different value systems applied to them through current research undertaken by design materials and socio cultural historians The book addresses the environmental impact of plastics and elucidates the ways in which they can and must be part of the solution The individual viewpoints are provocative and controversial but together they present a balanced and scholarly unpicking of the debate that surrounds this ubiquitous group of materials The book is essential reading for a wide academic readership interested in the Arts and Humanities especially Design and Design History Anthropology and Cultural Material and Social Histories

Mediating Sustainability in the Consumer Society Astrid Skjerven, Lisbeth Løvbak Berg, Liv Merete Nielsen, Dagny Stuedahl, 2024-12-30 This book sheds light on the role and impact of sustainability mediation an effective tool for political authorities and business enterprises to persuade consumers of the integrity of their actions products and services In this era of ecological and societal crises fuelled by increasing consumption sustainability has become a key buzzword and target to attain Governments around the world argue that they will meet their sustainability goals through environmental actions by enabling consumers to make

better choices and expecting brands to respond accordingly At the same time consumers are overwhelmed by the messaging conveyed in sustainability marketing campaigns often featuring misleading greenwashing with political authorities organisations and business enterprises all having conflicting interests In this complex scenario mediation has become a crucial issue This book offers a critical and multidisciplinary view of sustainability mediation from experts in the fields of philosophy consumption research media studies fashion design and citizenship offering a unique holistic view Each chapter highlights different and problematic aspects of the cultural narratives being communicated for example the necessity of growth and the notion of a green economy They present current theories methods indicators and strategies used to assess and measure the relation between mediation behaviour and sustainable development This book is of interest to scholars researchers and postgraduate students in all subject fields concerned with sustainability including design visual communication fashion consumption media and journalism and sustainable development

On Literary Plasticity Heather H. Yeung, 2020-05-15 *On Literary Plasticity* Readings with Kafka in Ecology Voice and Object Life calls to Franz Kafka and in particular *Die Sorge des Hausvaters* for aid in charting the long reach of plastic on the human mind and world In this book Heather H Yeung builds a past and future ecology of plastic arguing that it is through a deep reading of literature that we can begin to understand more clearly what it is that plastic means to us today asking under the auspices of the idea of literary plasticity what are the true depths of our twenty first century fascination with plastic How did we become so entangled How can we come to a better understanding of plastic's role in our imagination our environment and our lives What can literature teach us in this respect Why should we care

An Introduction to Design and Culture Penny Sparke, 2019-08-28 *An Introduction to Design and Culture* provides a comprehensive guide to the changing relationships between design and culture from 1900 to the present day with an emphasis on five main themes Design and consumption Design and technology The design profession Design theory Design and identities This fourth edition extends the traditional definition of design as covering product design furniture design interior design fashion design and graphic design to embrace its more recent manifestations which include service design user interface design co design and sustainable design among others It also discusses the relationship between design and the new media and the effect of globalisation on design Taking a broadly chronological approach Professor Sparke employs historical methods to show how these themes developed through the twentieth century and into the twenty first century and played a role within modernism postmodernism and beyond Over a hundred illustrations are used throughout to demonstrate the breadth of design and examples among them design in Modern China the work of Apple Computers Ltd and design thinking are used to elaborate key ideas The new edition remains essential reading for undergraduate and postgraduate students of design studies cultural studies and visual arts
