poetry and contemporary literary theory and the fluid boundaries between theoretical and literary writing **Ted Hughes** Joanny Moulin,2005-08-16 This is the first collection of essays to be published since the poet s death Continuing a tradition of more than thirty years of Ted Hughes studies it gathers contributions by most of the major international Hughes scholars voicing their critical preoccupations at the turn of the century Over the years academic criticism on the poetry of Ted Hughes has established some well trodden paths which this collection still strongly reflects however the productions of the latter Hughes in poetry as well as in criticism demand a revisiting of the critical discourse on his work The biographical dimension for instance has gradually gathered momentum and it is no longer possible to study the work of Ted Hughes without due reference to the life and work of Sylvia Plath This book is nonetheless also motivated by the wish to bring some fresh blood to the Hughes studies by politely rocking the boat of a rather comfortably established critical reception that has prided itself on being the mouthpiece of the poet s own ideological discourse For this reason some of the chapters in this collection belong to a continental European tradition that is resolutely foreign to the former partisanships For all that Ted Hughes *Alternative Horizons* suggests that steering clear of the polemical ruts dug by fans and detractors alike can only benefit the future of scholarly studies devoted to a great poet Feminisms in the Academy Domna C. J. Harrison,2009-08-20 This collection of essays explores the extensive use of Latin and Greek literary texts in a range of recent poetry written in English It contains both contributions from poets who include Tony Harrison Seamus Heaney and Michael Longley talking about their uses of classical literature in their own work in lyric poetry and in theatre poetry and essays from academic experts on the same topics Living Classics asks why contemporary poets are returning to making versions of and allusions to Greek and Roman literature in their work and interrogates the parallel interest of modern classical scholars in the contemporary reception of classical texts
