**Plato: Five Dialogues: Euthyphro, Apology, Crito, Meno, Phaedo** Plato,Benjamin Jowett,2017-10-12 Plato Five Dialogues Euthyphro Apology Crito Meno Phaedo Plato was a philosopher in Classical Greece and the founder of the Academy in Athens the first institution of higher learning in the Western world He is widely considered the most pivotal figure in the development of philosophy especially the Western tradition Unlike nearly all of his philosophical contemporaries Plato's entire work is believed to have survived intact for over 2 400 years Others believe that the oldest extant manuscript dates to around AD 895 1100 years after Plato's death This makes it difficult to know exactly what Plato wrote Along with his teacher Socrates and his most famous student Aristotle Plato laid the very foundations of Western philosophy and science Alfred North Whitehead once noted the safest general characterization of the European

philosophical tradition is that it consists of a series of footnotes to Plato In addition to being a foundational figure for Western science philosophy and mathematics Plato has also often been cited as one of the founders of Western religion and spirituality Plato's influence on Christianity is often thought to be mediated by his major influence on Saint Augustine of Hippo one of the most important philosophers and theologians in the foundation of the Western thought In the 19th century the philosopher Nietzsche called Christianity Platonism for the people Numenius of Apamea viewed this differently he called Plato the Hellenic Moses This would justify the superiority of Christianity over Hellenism because Moses predates Plato thus the original source of this wisdom is the root of Christianity and not Hellenistic culture 12 Plato was the innovator of the written dialogue and dialectic forms in philosophy Plato appears to have been the founder of Western political philosophy with his Republic and Laws among other dialogues providing some of the earliest extant treatments of political questions from a philosophical perspective Plato's own most decisive philosophical influences are usually thought to have been Socrates Parmenides Heraclitus and Pythagoras although few of his predecessors works remain extant and much of what we know about these figures today derives from Plato himself
