*Early Childhood in the Anglosphere* Peter Moss,Linda Mitchell,2024-05-09 Written by two leading international experts Early Childhood in the Anglosphere offers a unique comparison of early childhood education and care

services and parenting leave across seven high income Anglophone countries Peter Moss and Linda Mitchell explore what these systems have in common including the dominance of childcare services widespread privatisation and marketisation and weak parenting leave They highlight the substantial failings of these systems and the causes and consequences of these failings But this book is ultimately about hope about how these failings might be made good through major changes In other words it is about transformation why transformation is both necessary and possible at this particular time what transformation might look like and how it might happen Part of that transformation concerns the need for new policies and structures but even more it is about how the Anglosphere thinks about early childhood The authors call for turning away from conceptualising early childhood services as childcare and marketised businesses selling commodities to parent consumers and for reconceptualising them as education imbued with an ethics of care a public good available as a right to all children and families and complemented by well paid individual entitlements to parenting leave Using examples from the Anglosphere and beyond and in a context of converging crises the book argues that transformation of thinking policies and structures is desirable and doable

**Fear and What Follows** Tim Parrish,2014-07-17 Fear and What Follows is a riveting unflinching account of the author s spiral into racist violence during the latter years of desegregation in 1960s and 1970s Baton Rouge About the memoir author and editor Michael Griffith writes This might be a controversial book in the best way controversial because it speaks to real and intractable problems and speaks to them with rare bluntness The narrative of Parrish s descent into fear and irrational behavior begins with bigotry and apocalyptic thinking in his Southern Baptist church Living a life upon this volatile foundation of prejudice and apprehension Parrish feels destabilized by his brother going to Vietnam his own puberty and restlessness serious family illness and economic uncertainty Then a near fatal street fight and subsequent stalking by an older sociopath fracture what security is left leaving him terrified and seemingly helpless Parrish comes to believe that he can only be safe by allying himself with brute force This brute influence is a vicious charismatic racist Under this bigot s terrible sway Parrish turns to violence in the street and at school He is even conflicted about whether he will help commit murder in order to avenge a friend At seventeen he must reckon with all of this as his parents and neighbors grow increasingly afraid that they are losing their neighborhood to African Americans Fear and What Follows is an unparalleled story of the complex roots of southern urban working class racism and white flight as well as a story of family love and the possibility of redemption
