**Outgunned** Peter Harry Brown, Daniel G. Abel, 2010-06-15 Ours is a nation in the grip of a strange kind of mania Why after President Reagan was shot was there virtually no handgun legislation Why after the Columbine massacre in Littleton Colorado was nothing done to regulate the tools that children most frequently use to kill one another Why was there no legislative response after a six year old in Flint Michigan shot a classmate with a 32 caliber pocket rocket Tragedy follows tragedy with twelve children shot dead every day in America but guns remain less regulated than automobiles Why As authors Peter Harry Brown and Daniel G Abel in this powerful book demonstrate it is because of the terrible power of the gun coalition Outgunned begins with the story of Wendell Gauthier the master of disaster attorney who brought down the tobacco industry to the tune of billions and then turned his attention to guns He struck fear into the hearts of the gun manufacturers as he set out to make gunmakers bear some liability for the killings caused by the often poorly made inaccurate handguns they marketed to criminals Coauthor Daniel G Abel worked for Gauthier along with other attorneys as the gun control campaign gathered momentum This legal initiative seemed to be about to make history and change the face of violence in America but sadly Wendell Gauthier died of cancer before meaningful gun control could be established More than thirty class action suits against gun manufacturers now languish in courtroom paralysis while as many Saturday night

specials as ever are being made What happened Brown and Abel demonstrate how the pro gun forces once again curbed the will of a nation This book shows the enormous power of the NRA how it killed pending legislation in Congress hijacked the Campaign Act to fund the George W Bush presidential election victory and eviscerated the American Shooting Sports Council That association and the gun manufacturers actually wanted to compromise and agree to new handgun laws implicitly accepting some liability but the NRA leadership with Charlton Heston as their president crushed them In Outgunned Brown and Abel uncover how NRA lobbyists were instrumental in stopping Smith Wesson in its tracks They show how the tendrils of the NRA reach into the Christian Alliance and Republican Party and how men like John McCain have fought back and been undermined Outgunned reveals how the NRA began dealing with President George W Bush when he was still governor of Texas prodding him into signing a shocking prohibition against the kind of suits Gauthier brought against the gun manufacturers Outgunned is the story of a legal crusade with up close accounts of the people who fought every step of the way For those who believe in the importance of stopping unnecessary bloodshed this book is essential powerful and urgent

**The Gunner's Examiner** Harold E. Cloke, 2021-05-19 In *The Gunner's Examiner* Harold E Cloke presents a meticulous exploration of the psychological and moral complexities faced by contemporary military personnel particularly focusing on gunners With his distinctive narrative style Cloke interweaves vivid first person accounts with analytical prose offering a juxtaposition of personal experience and broader societal commentary The book is deeply rooted in the literary tradition of war narratives challenging conventional glorification and instead delving into the nuanced realities of conflict and its aftermath Harold E Cloke a distinguished scholar of military history and psychology draws upon his extensive background in military service and academic research This dual perspective not only enriches the text but also reflects Cloke's commitment to understanding the human condition amidst warfare His previous works have established him as a significant voice in the discourse surrounding the psychological effects of combat paving the way for *The Gunner's Examiner* as a critical study that addresses the moral dilemmas faced by soldiers today I highly recommend *The Gunner's Examiner* for readers seeking an insightful and thought provoking examination of modern warfare Cloke's work is essential for those interested in the intersection of psychology ethics and the experiences of military personnel offering a profound understanding that resonates with a wide audience
