Pointing From The Grave:

Pointing from the Grave Samantha Weinberg, 2004 In 1985 British DNA scientist Helena Greenwood was brutally murdered in San Francisco The only suspect Paul Frediani could not be linked to the crime In 1999 a San Diego detective reopened the case armed with a vital clue and a new forensic weapon that Greenwood helped pioneer Pointing from the Grave Samantha Weinberg, 2003 A true scientific and legal thriller with a perfect twist In April 1984 a young British DNA scientist was sexually assaulted in her San Francisco cottage A year later and hundreds of miles away she was brutally murdered The alleged rapist an American financial analyst was the only suspect Police and forensic experts however failed to link him to the crime the case was filed unsolved Fifteen years later a detective reopens the case and using the newest DNA techniques she finds a vital clue **Inventorium Sepulchrale : an Account of Some Antiquities** Bryan Faussett, 1856

Papers of the Peabody Museum of American Archaeology and Ethnology, Harvard University, 1911 *Mystery of the Bleeding Eyes* Sandeep Ray, 28-01-18 The story is set in the hills of Kasauli and Dagshai which houses The Visionary Institute of Technology VIT Established to create superhumans far ahead of their times the institute is also known for mysterious deaths Naveen and his friends are among the aspiring superhumans who find unusual things happening in the institute While investigating about the mysterious death of Alfred they unearth evidences which make them realise that their own survival is under threat Their quest to survival leads them to an unimaginable journey weaving through science and lesser known history of the place Women and Weapons in the Viking World Leszek Garde?a, 2021-11-30 The Viking Age c 750 1050 AD is conventionally seen as a tumultuous time when hordes of fierce warriors from Scandinavia wreaked havoc across the European continent and when Norse merchants travelled to distant corners of the world in pursuit of slaves silver and exotic commodities Until relatively recently archaeologists and textual scholars had the tendency to weave a largely male dominated image of this pivotal period in world history dismissing or substantially downplaying women's roles in Norse society Today however there is ample evidence to suggest that many of the most spectacular achievements of Viking Age Scandinavians for instance in craftsmanship exploration cross cultural trade warfare and other spheres of life would not have been possible without the active involvement of women Extant textual sources as well as the perpetually expanding corpus of archaeological evidence thus demonstrate unequivocally that both within the walls of the household and in the wider public arena women's voices were heard respected and followed This pioneering and lavishly illustrated monograph provides an in depth exploration of women's associations with the martial sphere of life in the Viking Age The multifarious motivations and circumstances that led women to engage in armed conflict or other activities whereby weapons served as potent symbols of prestige and empowerment are illuminated and interpreted through an interdisciplinary approach to medieval literature and archaeological evidence from Scandinavia and the wider Viking world Additional cross cultural excursions into the lives and

legends of female warriors in other past and present cultural milieus from the Asiatic steppes to the savannas of Africa and European battlefields lead to a nuanced understanding of the idea of the armed woman and its embodiments in Norse literature myth and archaeological reality
