Manufacturing Consent Michael Burawoy,2012-10-15 Since the 1930s industrial sociologists have tried to answer the question Why do workers not work harder Michael Burawoy spent ten months as a machine operator in a Chicago factory trying to answer different but equally important questions Why do workers work as hard as they do Why do workers routinely consent to their own exploitation Manufacturing Consent the result of Burawoy s research combines rich ethnographical description with an original Marxist theory of the capitalist labor process Manufacturing Consent is unique among studies of this kind because Burawoy has been able to analyze his own experiences in relation to those of Donald Roy who studied the same factory thirty years earlier Burawoy traces the technical political and ideological changes in factory life to the transformations of the market relations of the plant it is now part of a multinational corporation and to broader movements since World War II in industrial relations Theory of Societal Constitutionalism David Sciulli,1992 The author argues that

the existing conceptual frameworks of political and social theory restrict both theorists and empirical researchers to a narrow definition of authoritarianism that focuses on governmental structure and fails to take account of forms of social control exercised outside the governmental sphere Rather than define authoritarianism primarily by contrast to liberal democracy Sciulli argues we need to broaden our conception of authoritarianism to include social authoritarianism referring to social control imposed by private organizations and institutions such as business corporations and professional associations In this book Sciulli develops an alternative conceptual framework which he calls the theory of societal constitutionalism and he explains how the theory can be used to assess whether social order in a society whether democratic or authoritarian in political rule is characterized by some degree of social authoritarianism The book will be important reading for theorists in sociology political science and legal studies *Max Weber and Contemporary Capitalism* N.

Gane,2012-09-10 This book explores the uses and limits of Max Weber s work for thinking sociologically about capitalism today The books argues that through Weber a network of concepts can be developed that can frame a sociological analysis of the present Beyond Samosir Rita Smith Kipp,Richard D. Kipp,1983 **The Phenomenology of the Social World**

Alfred Schutz, 1967 In this book his major work Alfred Schutz attempts to provide a sound philosophical basis for the sociological theories of Max Weber Using a Husserlian phenomenology Schutz provides a complete and original analysis of human action and its intended meaning *Beiträge der Organisationsforschung zur Analyse industrieller Gesellschaften*

Analysis of Dis/agreement - with particular reference to Law and Legal Theory S. Eng, 2013-03-09 In order to determine whether

two participants in a discussion are in real disagreement one must compare their propositions Comparison presupposes yardsticks in common Analysis of Dis agreement thematises such yardsticks in that it demonstrates the existence content and factual significance of a relatively well delimited set of proposition types and proposition patterns with their accompanying tenability criteria and motivating interests The book is a work in the field of legal theory by virtue of its demonstrating how lawyers power of judgement is constituted in and through these yardsticks The book is interdisciplinary by virtue of its demonstrating how the same yardsticks come into play more generally in argumentation formulated in everyday language i e independently of law And the book is a work in the field of philosophy by virtue of its demonstrating the existence and factual significance of language and argumentation actions with a certain independence in relation to the level of controversial fundamental philosophical positions
