novel's geographical and historical setting identifying current events fashions fads and popular interests that relate to the story A concise plot summary and comprehensive character listing follow and each novel is discussed within Christie's overall body of work with an emphasis on the development of themes narrative technique and characters over the course of her prolific career An appendix translates Poirot's French and defines the British idiomatic words and phrases that give Christie's novels so much of their flavor

Minor Mythologies as Popular Literature Richard Pine, 2018-10-01 This is the first single author study of the genres and roots of popular literature in its relation to film and television exploring the effects of academic snobbery on the teaching of popular literature Designed for classroom use by students of literature and film and their teachers it offers case studies in quest literature detective fiction the status of the outlaw and outsider and the interdependence of self other and the uncanny It challenges perceived notions of and prejudices against popular literature and affirms its connection with the deepest human experiences

Voices in the Media Gaëlle Planchenault, 2015-10-22 Verbal performances are often encountered in the media where they are used to embody characters or social archetypes Performed voices define the norm as well as the linguistic Others and by doing so circulate associated values and linguistic ideologies This book explores the idea that far from simply being exercises in verbal skill and flair performances of social ethnic or gendered voices in the media not only have the power to accomplish ideological work they are also sites of linguistic tension and negotiation Critically examining performances of French voices in the media this book raises the following questions How are repertoires of voices constructed and subsequently perpetuated in the media How do the stereotypic personae these voices contribute to build become familiar to national as well as transnational audiences How do such performed voices reproduce hegemonic ideologies of standard and non standard languages and participate in the perpetuation of social discriminations How are these performed voices commodified into cultural products of otherness that may later be reclaimed by stigmatized communities Following an innovative framework which allows for analysis of performances of varied voices and their impact in the media sphere *Voices in the Media* offers a new approach to the linguistics of media performance

Mostly French Alistair Rolls, 2009 This book which was inspired by a conference on plural conjugations of Frenchness *La France au pluriel* held in 2007 at the Universities of Technology Sydney and Newcastle focuses on the concept of national belonging as it pertains to detective fiction with particular emphasis on French and Australian detective fictions and the encounter and crossing over between them The objective is not only to use the concepts of French and Australian detective fiction productively via the analysis of French and Australian detective fiction novels but also to challenge and undermine the very notion of national detective fictions which are so often assumed to be transparently meaningful The contributors to this volume focus variously on the following areas comparative analysis of the genesis of French and Australian detective fiction translation of Australian and other novels into French translation as a genre Frenchness as a stereotype its role in individual novels and its spectre in all detective fiction and readings of individual

French and Australian detective novels Overall this book aims to challenge assumptions about French detective fiction its influence on other national fictions and its explicit and implicit presence in all detective fiction **Spink & Son's Monthly Numismatic Circular** ,1908 *The Numismatic Circular and Catalogue of Coins, Tokens, Commemorative & War Medals, Books & Cabinets* Spink & Son,1909 The Ageless Agatha Christie J.C.
