The Political Economy of Heaven and Earth in Ghana Charles Prempeh, 2023-09-30 In March 2017 the president of Ghana Nana Addo Dankwa Akufo announced his intention to build a national cathedral to the people of Ghana. The announcement elicited watertight counter arguments that morphed into two a priori re-litigated assumptions. First, Ghana is a secular country and second, religion and state formation are incompatible. Informed by a frustrating paradox of an overwhelming religious presence and concurrent pervasive corruption in the country, public conversation reached a cul de sac of conviction without compromising. In *The Political Economy of Heaven and Earth in Ghana*, Charles Prempeh deploys the national cathedral as an entry point to provide both interdisciplinary and autoethnographic understanding of religion and politics. The book shows the capacity of religion when properly cultivated and curated as a worldview to answer the why questions of life will foster personal, moral, collective and ontological responsibility. All this is needed to stem the tide against corruption, commodity fetishism, environmental degradation, illegal mining, *galamsey*, heritage destruction and religious exploitation. Prempeh recuperates a historical fact about the mutual inclusivity between religion and politics, politics helping to manage differences while religion provides a transcendental reason for unity to be forged for human flourishing. Separating the two is therefore ahistorical and an obvious threat to the intangible virtues that answer why and how questions for public governance.

The Gulf War John Bulloch, Harvey Morris, 2016-07-28 After a million deaths and twice that number injured after the destruction of much of the infrastructure of Iran and Iraq, disruption of trade throughout the Gulf and the involvement of the USA and USSR, was the Gulf War a pointless exercise, a futile conflict which achieved nothing and left the combatants at the end of it all back in exactly the same position from which they started in 1980. In this book, first published in 1989, the authors argue that the lack of territorial gain was irrelevant; the real advantages won by each side were far more important, intangible though they were. For Iran, the channelling of the energies of her people away from domestic concerns meant the continuation of the Islamic revolution and ensured the stability of the mullahs. In Iraq, the war propped up the increasingly shaky regime of Saddam Hussein. The outside world, especially the superpowers, was terrified of the spread of Muslim fundamentalism so made no effort to prevent Iraq from trying to halt this spread. But Israel, Saudi Arabia, Syria and the oil states also had vested interests in promoting the continuation of the war.

Dynasties and Interludes Lawrence LeDuc, Jon H. Pammett, 2016-08-06 The Hill Times Best Books of 2016. An overview of the history of elections and voting in Canada, including minority governments, dynasties and social movements. *Dynasties and Interludes* provides a comprehensive and unique overview of elections and voting in Canada from Confederation to the most recent election. This revised and updated second edition includes an analysis of the results of the 2011 and 2015 federal elections as well as an in-depth discussion of

the Harper Dynasty *Special Sexual Operations.Accounting for Resistance to the Colonial “Gift” of Homosexuality in Twenty-First Century Africa* Artwell Nhemachena,Munyaradzi Mawere,2024-03-01 Even as African states are currently legislating against homosexuality in order to protect their societies there are some emergent Eurocentric discourses seeking to legalize bestiality involving sex between humans and nonhuman animals Indeed binaries between humans and nonhumans are being challenged and speciesism is being deconstructed to pave the way for interspecies sex Critically interrogating these dissident and subversive sexualities in novel ways this book also deals with emergent humanoid sex robots which are challenging human marriages and families by replacing human spouses The book is relevant to anthropologists sociologists lawyers legislators politicians theologians historians philosophers and educators Huge commendations are due for the gargantuan work done on this book which speaks to the past present and future of African sexualities These are revolutionary thoughts that change the traditional Western scholarship landscape in the field of sexualities The book inculcates and imparts African people centred strategic architectural futuristic flavor for building Africa s competitive positioning in the discourses on sexualities for the centuries ahead Indeed it is commendable and deserves an award for revitalizing Africanity and Africanism renaissance I am sure this book is going to stimulate broad discussions from Africa and the rest of the world which have sadly been fed with Eurocentric single stories on African sexualities Professor Eginald P Mihanjo Saint Augustine University of Tanzania This is a must read book It grapples with the important question Why the West would want to decolonize only by returning homosexuality to Africans and not by returning African land artefacts skulls and skeletons The book challenges the systemic humanophobic mission orchestrated by neo capitalists in the Euro American world and their allies in Africa Until we hold together the ethical and ontological boundaries of marriage as a divine cultural mandate secured in its sociogenic logicity all the debates about decolonization will not save us from the ultimate crime of promoting ontological disorderliness Charles Prempeh PhD Cantab Research Fellow Centre for Cultural and African Studies Kumasi Ghana and author of Gender Sexuality and Decolonisation in Postcolonial Ghana A Socio Philosophical Engagement

Recapturing an Enchanted World John D. Rempel,2020-01-28 While the Free Churches rightly sought to cleanse the church of the abuses of sacramentalism in that process they also set aside some of the church s historic practices and theology In response to this liturgically thin space Mennonite theologian and minister John D Rempel considers the role of the sacraments and ritual within the Free Church tradition helping us perceive the sacramental nature of our faith and worship

Beyond Bin Laden Brig (Retd) Rahul K Bhonsle,2011-10-12 The elimination of Osama Bin Laden was a remarkable success for American intelligence and Special Forces To track down a rebel leader who had cut himself off from communications with the World and operated from an isolated compound in an affluent locality where none would really suspect his presence requires diligence patience and perseverance of the highest order The raid by US Special Operations Forces was also unique Launched after careful preparation using stealth helicopters the deadly strike force known as the

Seals swooped down on the target and in half an hour plus succeeded in achieving the mission and getting away before local forces had even stirred Will the World be a better place without Osama or will it sink to the doom that he had predicted continues to be a dilemma There are many prognostications some represent plain hope others are borne out of historical experience while some spring from disparaging cynicism which see the ebb and flow of terrorism either receding or expanding as the years go on This Book is an attempt to work through this maze of uncertainty by examining key vectors related to the rise and fall of Osama Bin Laden and the Al Qaeda to envisage four possible scenarios ranging from the collapse of the state order seen as unlikely to containment of terror threat equally challenged in three dimensions globally regionally and locally over the next decade or so

Interrogating Xenophobia and Nativism in Twenty-First-Century Africa Emmanuel Matambo,2022-03-30 Interrogating Xenophobia and Nativism in Twenty First Century Africa interrogates xenophobia and nativism in Africa and how they hamper the realisation of Pan Africanism The contributors examine migration in Africa immigration policies and politics and the social impacts and history of xenophobia and nativism in African life and culture Through their analyses the contributors explore how xenophobia and nativism have impacted the Pan Africanism movement The book also offers suggestions for reducing xenophobia and nativism in Africa including bettering immigration policies and creating socioeconomic structures that would enrich the public and help prevent the pervasive belief that immigrants usurp limited opportunities for the poor in the countries they immigrate to

[The Great Deception](#) Christopher Booker,Richard North,2005-01-01 The Great Deception shows how the most ambitious political project of our time has for more than 50 years been based on a colossal confidence trick the systematic concealment from the people of Europe of what the aim of this project has always been since its inception in the late 1940s Updated to include the recent developments in Europe including the referendum and the upcoming votes in France and Holland As it reveals for the first time the true story behind the long term plan to build a politically united Europe the authors show how all previous attempts to reconstruct the history of this project whether written by Europhiles or Eurosceptics have got it wrong at almost every step along the way With all the suspense of a detective story drawing on thousands of books papers and official documents many of which have only become publicly available in the past few years the book traces how a handful of determined visionaries set out more than half a century ago to weld the countries of Europe into a single political state

[The Spirit of Methodism](#) Jeffrey W. Barbeau,2019-08-27 The story of Methodism is much richer and more expansive than John Wesley s sermons and Charles Wesley s hymns In this book Methodist theologian Jeffrey W Barbeau provides a brief and helpful introduction to the history of Methodism from the time of the Wesleys through developments in North America to its diverse and global communion today as well as its primary beliefs and practices

Brian Lenihan Brian Murphy,2014-09-26 Brian Lenihan was Minister for Finance at the time of the recent and dramatic political and economic crisis in Ireland and was the lynchpin in the rescue package sought by the Irish Government The recollections within this powerful new book throw light

on Lenihan's political career from its earliest days to his untimely death in 2011. The perceptive and timely contributions arise from those who were directly involved with him at all stages and include those of high profile public figures and political insiders from all sides of the Irish political spectrum. From the international stage, Christine Lagarde offers her memories of the man and the crises and challenges they faced together. Brian Lenihan's achievements and how he achieved them are documented and discussed, such as his work as Minister of State for Children, giving a rare insight into his persona and principles throughout his life and career. An unflinching public servant and adept political animal, Lenihan was hugely tested in the wake of Ireland's economic crisis, yet his paramount desire was to work in the best interests of his country. The legacy of that ambition is debated in this unique collection, which highlights his skills as a lawyer, academic, and politician, as well as describing Brian Lenihan, the man, through those who knew him on a more personal level. **Planned Violence**

Elleke Boehmer, Dominic Davies, 2018-11-29. This book brings the insights of social geographers and cultural historians into a critical dialogue with literary narratives of urban culture and theories of literary cultural production. In so doing, it explores new ways of conceptualizing the relationship between urban planning, its often violent effects, and literature. Comparing the spatial pasts and presents of the post-imperial and post-colonial cities of London, Delhi, and Johannesburg, but also including case studies of other cities such as Chicago, Belfast, Jerusalem, and Mumbai, *Planned Violence* investigates how that iconic site of modernity, the colonial city, was imagined by its planners and how this urban imagination and the cultural and social interventions that arose in response to it made violence a part of the everyday social life of its subjects. Throughout, however, the collection also explores the extent to which literary and cultural productions might actively resist infrastructures of planned violence and imagine alternative ways of inhabiting post-colonial city spaces.
