 thoughts about the Hemolytic Uremic Syndrome HUS got started in 1961 along with my attempt to return to Argentina As I

 American pediatric meetings At that time he was actively working on HUS which had become an epidemic in Buenos Aires
 and other parts of Argentina I was impressed by the team effort and devotion of his group to such heavy demands They
 obviously were meeting the challenge at an amazingly high level under a very crippling physical situation with shortages of
 space laboratories and equipment His group together with Dr Becu at the time the pathologist at the Children s Hospital of
 Buenos Aires we had met through his mother who was instrumental in arranging my return to Buenos Aires wrote some of
 the classic papers on HUS Through the years as Dr Gianantonio became more involved in general pediatrics the
 administrative aspects and its orientation in Latin America he became known for his deep philosophical questions as to what
 we are doing and where we are going His questions have obvious implications regarding an aggressive approach to our
