Political Manhood Kevin P. Murphy,2010-08-06 In a 1907 lecture to Harvard undergraduates Theodore Roosevelt claimed that colleges should never turn out mollicoddles instead of vigorous men warning that the weakling and the coward are out of place in a strong and free community A paradigm of ineffectuality and weakness the mollicoddle was all inner life whereas his opposite the red blood was a man of action Kevin P Murphy reveals how the popular ideals of American masculinity coalesced around these two distinct categories Because of its similarity to the emergent homosexual type the mollicoddle became a powerful rhetorical figure often used to marginalize and stigmatize certain political actors Murphy s history follows the redefinition of manhood across a variety of classes especially in the work of late nineteenth century reformers who trumpeted the virility of the laboring classes Challenging the characterization of the relationship between political machines and social and municipal reformers at the turn of the twentieth century he revolutionizes our understanding of the gendered and sexual meanings attached to political and ideological positions of the Progressive Era

Power Generation and the Environment Anco S. Blazev,2021-01-07 Natural and man made changes in the environment create a very complex picture This book analyzes this picture and provides snapshots of different areas of interest and to make suggestions for future work

on cleaning and stabilizing the Earth's environment. Starting with conventional energy generation and moving on to renewable energies, this book analyzes and calculates their environmental impact and the lesser known aspects of their cradle to grave life cycle such as the irreversible environmental damage done during the manufacturing of solar and wind equipment and during the installation operation and decommissioning of large scale hydro solar and wind power plants. **A Young Generation Under Pressure?** Joerg Tremmel, 2010-02-05. Justice between generations is still not as prominent on any agenda as justice between rich and poor or men and women. For the first time, this three part book explores the situation of young people of today in comparison to their direct predecessors. The first part, 'The Financial Situation of the Young Generation in a Generational Comparison', deals with this generation's financial standing; the second part, 'The Rush Hour of Life', examines their time restrictions. Both are considered from a life course perspective. The third part, 'On the Path to Gerontocracy', addresses the demographic shift in favor of the elderly in aging Western democracies. *Interior Department Appropriations for 1954*. United States. Congress. Senate. Committee on Appropriations, 1953. Constrained Opportunities Efe C. Özek, 2025-03-01. This study aims to understand political transnationalism through the political incorporation of migrants in the receiving country. With a qualitative analysis of the perceptions of transnational second generation Turks towards the political opportunity structures in Germany and the Netherlands, it seeks an answer to the question: How do political opportunity structures in the receiving country shape political transnationalism among Turkish migrants in Western Europe? It suggests a causal explanation for the impact of political opportunity structures on political transnationalism through a model called 'constrained opportunities'. The empirical results reveal constraints on political opportunity structures that lead to deficient immigrant political incorporation in the country of residence and reinforce political attachment with the country of origin. Ideal Citizens James Max Fendrich, 1993-01-01. Shifts the focus away from luminaries such as Jesse Jackson, Andrew Young and Marion Barry to examine how the lives of more representative civil rights activists have been affected by intense political experience. Traces their career choices and explores what kind of citizenship they practice. Paper edition, unseen. 16.95. Annotation copyright by Book News Inc. Portland, OR. *Understanding the Populist Shift* Gabriella Lazaridis, Giovanna Campani, 2016-11-10. During the European elections of 2014, one of the main issues raised by the media was the electoral performance of so-called populist parties. The electorate confirmed its deep dissatisfaction with mainstream political parties, voting for far right parties in parliamentary elections in Northern Europe: Austria, Denmark, Sweden, Eastern Europe, Hungary, where the deeply anti-Semitic Jobbik party gained votes, and in France, where the French National Front won about a quarter of the vote, while in the Southern European countries, battered by austerity policies, it was the radical right and left in Greece (Golden Dawn and Syriza) and the radical left in Spain (Podemos) that obtained excellent scores. This book examines the growing trend towards far and extreme right populism that has emerged prominently in Northern Finland, Western Austria, Denmark, France, the UK, Southern Greece, Italy, and Central Eastern Europe, Slovenia, Bulgaria, since the

1990s Providing a critical understanding of current European trends and analysing the complex phenomena covered by the notion of populism this book will be of interest to students and scholars researching right wing politics as well as European politics more generally
