Poland Between East and West Josef Korbel, 2015-12-08 Though Russia and Germany were far apart in their principal goals their negative attitude toward the Europe of Versailles brought these two outcasts together Poland a child of the Versailles Peace Treaty was a bar to the Soviet drive toward a revisionist policy Therefore in an atmosphere of mutual distrust and deceit Russia and Germany entered into an intricate series of negotiations designed to destroy Poland either by military action or by diplomatic pressure Josef Korbel traces the strange course of these negotiations basing his work on original documents such as the files of the German Foreign Office the personal papers of General von Seeckt documents of the Soviet government the Supreme Soviet and the Third International and on original Polish sources Originally published in 1963 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 **Poland, the United States, and the Stabilization of Europe, 1919-1933**

Neal Pease, 1986 This is a very old story **The Baltic States And The Great Powers** David Crowe, 2019-07-11 This is the first complete account of the diplomatic relations and military steps leading to Estonia's Latvia's and Lithuania's forcible absorption into the USSR in 1940 David Crowe making use of recently opened archival sources traces the Baltic states relations with the Soviet Union Germany Poland Great Britain France and with one another from 1917 1940 He starts with an overview of 1917 1936 and then offers a detailed description of the diplomatic maneuvering that marked Europe's collective slide toward war Crowe covers the Sudeten and Memel crises involving German communities in 1938 the German Soviet Pact in August 1939 the mutual assistance pacts between the Baltic States and the USSR the Baltic German migration Soviet use of Estonia's military installations during their assault on Finland and the subsequent Soviet occupation of the Baltic states The story ends with the election of new Soviet sponsored legislatures that sought admission into the USSR as Soviet republics in 1940 a step that most Western countries never recognized and one that the Baltic states finally reversed when they regained their independence fifty one years later in August 1991 **Central European Security Concerns** Jacob

Kipp, 2021-01-26 This book first published in 1993 examines the security concerns of the Central European countries in the immediate aftermath of the Cold War The collapse of the Soviet Union brought considerable uncertainty and instability to its satellite states now free from Moscow's influence This collection of essays by leading Central European experts analyses the problems and difficulties faced by these countries as well as the opportunities offered in forging new security doctrines and alliances **Between The Revolution And The West** Hugh D. Phillips, 2019-09-19 This is the first complete biography of

Maxim Litvinov a Bolshevik revolutionary who began his professional life running guns into Tsarist Russia and eventually

became the leading Soviet diplomat in the turbulent 1930s His was a spectacular career spanning some of the most dramatic decades of the twentieth century and including an unsuccessful effort to contain Hitler with the cooperation of the Western Allies Litvinov's subsequent replacement as Soviet foreign minister by Molotov in 1939 signaled the dramatic shift in Soviet foreign policy that led directly to the outbreak of World War II After the war Litvinov's final public act was to bluntly warn the West of the danger presented by Stalin's cold war policies a threat Litvinov even dared to compare with that posed by Hitler a decade earlier Litvinov's career ended in the relative obscurity from which it had sprung his consistently pro Western policies no longer consonant with the reemerging Soviet hostility toward the West Passing away from remarkably natural causes in 1951 Litvinov left behind a political legacy that lay dormant for forty years until its recent revival by Mikhail Gorbachev Between the Revolution and the West is based on extensive research in the Soviet Union and the West including previously unavailable archives and interviews with Litvinov's friends and family Hugh Phillips work casts light not only on Litvinov the man but also on Soviet foreign policy during crucial and dramatic times

Bridging the European Divide Joshua B. Spero, 2004-10-20 Do middle powers matter geopolitically to great powers when confronting the unconventional twenty first century threats from nation states or nonstate actors Bridging the European Divide explores how key regional middle powers perceived and advocated their political power options in the aftermath of September 11 2001

Naval Advising and Assistance Donald Stoker, Michael T. McMaster, 2017-10-20 This original edited volume is the only book on naval advising Drawing upon the work of scholars and practitioners from all over the world it takes a comparative and global approach to examining the history theory and evolution of naval advising and assistance Starting with a brief history of the evolution of naval advising the book then moves to late 19th century naval advising efforts These generally involved individuals such as the American adventurer in China Philo McGiffin but also included State sponsored formal missions such as the first such US effort Colonel John Lay's 1870s mission to Egypt A comparative multi national examination of the ability of non European States such as China Turkey and Japan to adopt Western naval methods and doctrine and an examination of the French naval advising mission to Peru round out the book's pre First World War offerings The trends in naval advising between the World Wars particularly their use as tools of economic and political penetration are revealed through chapters on the British naval aviation mission to Japan the British and French naval missions to Poland the US mission to Peru and a comparative study of Italian naval missions in Persia China and Spain The latter also reveals early ideological motivations for dispatching advising missions The Cold War saw an intensification of

military advising including naval advising as both the Communist and the Western Powers used advising as ideological tools The US naval missions to Nationalist China and South Vietnam are assessed as are the Soviet naval advising efforts in East Germany and China Together through a wealth of original research the studies in this book provide numerous lessons for future naval advising efforts and constitute a unique contribution to the field

Wilsonianism L. Ambrosius, 2002-10-14 In *Wilsonianism* American foreign relations specialist Lloyd E Ambrosius has compiled his published and unpublished essays on Woodrow Wilson's liberal ideology and statecraft during and after World War I Although the president failed in his pursuit of a new world order his legacy of Wilsonianism the principles of national self determination economic globalization collective security and progressive historicism continued to shape U S foreign relations throughout the American Century Ambrosius examines the American roots of Wilson's liberal internationalism the dilemmas and contradictions in his principles and the problematic consequences of U S efforts to implement Wilsonian ideals without fully appreciating the world's cultural pluralism as well as its economic and political interdependence Offering a pluralist variant of the realist tradition in international relations Ambrosius stresses the centrality of power but maintains that culture and political economy as well as military strength determine the balance of power within and among nations or empires Consequently he concludes making the world safe for democracy has been more problematic in practice both at home and abroad than proclaiming Wilsonian principles in the abstract

Great Britain, Germany and the Soviet Union Stephanie Salzmänn, 2003 The treaty of Rapallo concluded in 1922 between Germany and the Soviet Union the two vanquished powers of the Great War ranks high among the diplomatic coups de surprise of the twentieth century Its real importance however lies in the repercussions of the alliance on the subsequent policies of the two victorious powers Britain and France This study examines the impact of Rapallo on British foreign policy between 1922 and 1934 when the German Soviet relationship had virtually ended The ghost of Rapallo is the central theme of this story as ever since the treaty's conclusion Rapallo has been a byword for Soviet German secret and potentially dangerous collaboration This book describes how the British viewed the Rapallo co operation how they dealt with this special relationship and how the lingering memory of Rapallo affected British policy for decades to come While examining a particular aspect of international relations it throws additional light on broader topics of European relations in the 1920s and early 1930s Dr Stephanie Salzmänn completed her PhD at Trinity Hall Cambridge

The Tragedy of Great Power Politics (Updated Edition) John J. Mearsheimer, 2003-01-17 A superb book Mearsheimer has made a significant contribution to our understanding of the behavior of great powers Barry R Posen *The National Interest* The updated edition of this classic treatise on the behavior of great powers takes a penetrating look at the question likely to dominate international relations in the twenty first century Can China rise peacefully In clear eloquent prose John Mearsheimer explains why the answer is no a rising China will seek to dominate Asia while the United States determined to remain the world's sole regional hegemon will go to great lengths to prevent that from happening The tragedy of great power politics is

inescapable **The Civil-Military Fabric of Weimar Foreign Policy** Gaines Post, Jr., 2015-03-08 In the historiographic debate over Germany's responsibility for the outbreak of the two world wars little attention has been paid to German politico-military activity in the Weimar Republic. Although Weimar diplomats and military leaders emphasized the interconnection and developed ideas and procedures for joint planning, historians have usually treated the foreign and military affairs of the republic separately. Gaines Post Jr. however examines the relationship between foreign policy and military planning and charts its directions and changes to develop a model of German civil-military relations which sheds light on the general problem of modern civil-military relations. He shows that diplomats and military leaders shared assumptions about the role of force in foreign policy and the subordination of the military arm to the political leadership and that they collaborated in assessing Germany's strategic situation in rearmament and in operational exercises. In the 1920's interdepartmental cooperation between the foreign office and the Defense Ministry became the foundation of a stable system of civil-military relations. The system broke down during the crisis period of 1930-1933 because of mounting institutional pressures. The author demonstrates how in both periods civilian and military leaders viewed military force not simply as an instrument of national self-defense but as an acceptable means of attaining national goals above all the revision of the German-Polish borders. The Elusive Quest Melvyn P. Leffler, 2017-10-10 Leffler argues that American officials did not disregard European developments after World War I but rather they sought to settle the war debt and reparations controversies to stabilize European currencies and to revive European markets. Leffler bridges the gap between revisionist and traditionalist studies by integrating the diverse aspects of foreign policy and elucidates many new aspects of the foreign policymaking process in the postwar period. Locarno Diplomacy Jon Jacobson, 2015-03-08 The Locarno Conference of 1925 and the five treaties concluded there have been seen as the turning point of the interwar years: i.e. Germany's acceptance of the 1919 peace settlement and the beginning of a new era of peace. Studying the documentary evidence, much of it available only recently, Jon Jacobson explores the personalities and politics of Locarno and offers a historical interpretation and synthesis of a critical decade in European diplomacy.
