Police Corruption And Psychological Testing A Strategy For Preemployment Screening:

Police Corruption and Psychological Testing Natalie L. Claussen-Rogers, Bruce A. Arrigo, 2005 Police corruption is a growing ethical and occupational problem in many precincts and departments around the country. Despite this, effective pre-employment strategies designed to predict, explain, and prevent it are lacking. *Police Corruption and Psychological Testing: A Strategy for Pre-employment Screening* aims to fill this troubling gap in the academic and popular literature. Both original in its approach and integrative in its scope, this text is a useful practical guide to understanding officer misconduct, pre-employment screening, and personality assessment. Relevant to the disciplines of criminal justice and psychology, this book can be used as a supplemental text in several undergraduate and graduate courses. Examples include criminal psychology, policing, and society, criminal behavior, law enforcement administration, criminal justice policy, and profiling offenders. Robert P. Hanssen, subject of the movie *Breach*, is profiled in one chapter of this book. This book is part of the Criminal Justice and Psychology Series. *Pre-Employment Background Investigations for Public Safety Professionals* Frank A.

Police Brutality, Misconduct, and Corruption James F. Albrecht, 2017-09-14 This Brief proposes a criminological typology for understanding and addressing police misconduct. Through examination of each major type of police misconduct, the author proposes future research directions to deter and prevent misconduct. According to an examination of 50 years of police misconduct cases within the New York Police Department (NYPD) and Los Angeles Police Department (LAPD), the author proposes 5 major typologies: police corruption, police criminality, excessive use of force, abuse of authority, and police misconduct. Through a systematic examination of each of these five types, the author aims to break down the nebulous topic of police misbehavior into manageable categories with their own set of causes and recommendations for detection and prevention. This work will be of interest for researchers in criminology and criminal justice, particularly with an interest in police studies and related fields such as public policy and sociology. It will also be of interest for policymakers.

Comparing Police Corruption Leslie Holmes, 2021-09-30 This book analyses police corruption across four country case studies, exploring how the problem manifests in each country and how it can be reduced. The problem of police corruption ranges from having to pay a bribe to a traffic cop to avoid a speeding fine, right up to more serious forms such as collusion with organised crime groups and terrorists. The issue therefore constitutes a significant security threat and a human rights issue, but it is often difficult to understand the extent of the problem and how it varies across contexts. This book analyses the corruption situation in Bulgaria, Germany, Russia, and Singapore, identifies similarities and differences across them, and analyses the various means of addressing the problem: punitive, incentivising, technological, administrative, and imaging and

the role of civil society Drawing on existing literature and research the book also makes extensive use of local sources and original survey data across the four countries As comparative literature on police corruption remains rare this book s survey of the situation in two developed states and two post communist transition states will be of considerable interest to students and researchers across corruption studies criminology police studies and security studies as well as practitioners working in anti corruption and law enforcement agencies
