Yuille,2012-12-06 The New Police Officer During the past twenty years the tasks required of police officers have expanded and changed with dramatic rapidity The traditional roles of the police had been those of law enforcement and the maintenance of public order As a consequence police officers were typically large bodied males selected for their physical abilities and trained to accept orders and enforce the law Over the past two decades however the industrialized nations have placed a variety of new demands on police officers To traditional law enforcement and public order tasks have been added social work mental health duties and community relations work For example domestic disputes violence between husbands and wives lovers relatives etc have increased in frequency and severity or at least there has been a dramatic increase in reporting the occurrence of domestic violence Our societies have no formal system to deal with domestic disputes and the responsibility to do so in most countries has fallen to the police In fact in some areas as many as 60% of calls for service to the police are related to domestic disputes see the chapter in this text by Dutton As a result the police officer has had to become a skilled social worker able to intervene with sensitivity in domestic situations Alternatively in the case of West Germany the officer has had to learn to work cooperatively with social workers see the chapter by Steinhilper The Rowman & Littlefield Handbook of Policing, Communication, and Society Howard Giles, Shawn L. Neighbourhood Policing Martin Innes, Colin Roberts, Trudy Lowe, Helen Innes, 2020-05-27 Neighbourhood policing is one of the most significant and high profile innovations in UK policing in recent times It has also been one of the most

successful garnering widespread political and public support for its objectives and the processes of policing that it has sought to embed. Indeed it has recently been described as the bedrock of the British policing model. But it was not always so lauded. At the time of its initial development it encountered considerable opposition and scepticism from both within and outside of the police. This book tells the story of how and why the neighbourhood policing model was originally designed and implemented and then what has led to a decline in its prominence in terms of everyday police practice. To do this Neighbourhood Policing draws upon unparalleled empirical data from the authors ten year programme of research to provide unique and compelling insights into the key practices and processes associated with the concept and implementation of neighbourhood policing. The chapters describe how key processes and practices have evolved and matured the ways neighbourhood policing delivers a range of local policing services as well as how in some towns and cities it has provided a platform for tackling violent extremism and organised crime. This approach is used to set out a broader analytic frame that addresses the conditions under which innovative policing models emerge, are developed and decline. In so doing the book engages with wider and deeper questions about the police function in contemporary society. **NBS Special Publication**

,1977 Community Policing Today Deborah A. Parsons, Janine Kremling, 2020-09-20. Written by an author team with experience in law enforcement and in the classroom. Community Policing Today explores the strategies police and communities can use to find long term solutions to the public safety issues facing today's communities including gangs, high crime and disproportionate minority contact. Framing community policing not as a program but as a transformation from traditional policing that involves sweeping changes in the way police view their role and relationships with the community, the authors demonstrate how law enforcement officers can partner with the community to help facilitate problem solving of public safety issues. With an emphasis on cutting edge trends and impacts on community policing, this book offers students a better understanding of the complexity and promise of community policing today. Included with this title: The password protected Instructor Resource Site, formally known as SAGE Edge, offers access to all text specific resources including a test bank and editable chapter specific PowerPoint slides. **The Police and Society** Victor E. Kappeler, Brian P.

Schaefer, 2018-09-11. The most productive route to understanding the dynamic interrelationships of the police with society is to examine the recurring central themes in policing. The articles in this anthology represent some of the best scholarship on compelling issues. Selected for both their complementary and competing natures, the articles serve as touchstones for one another, often challenging previous conceptions. Many selections question the methods by which information was acquired, the practices that evolved from that information and the background assumptions behind the construction of practices. Some of the many issues and conflicts addressed in this collection include: What is the nature of the police role and function? Who benefits from police service? Who is harmed? How are public safety and social order secured while maintaining individual rights and freedoms? To what extent do our expectations about the police and society reflect our values and demands? Are the

police a society unto themselves Is policing at a critical crossroads The editors assembled this volume with the goal of helping readers to identify underlying assumptions to dissect how values influence inquiries and to discover connections A better understanding of the role of the police in society provides a solid foundation for assessing the efficacy of future police society relationships
