Police Dogs In Action:

Police Dogs in Action Clarke Newlon, 1974-01-01 Introduces the members of the K 9 corps dogs trained to detect narcotics and bombs and search for attack and hold criminals Dogopolis Chris Pearson, 2024-05-31 Dogopolis presents a surprising source for urban innovation in the history of three major cities human canine relationships Stroll through any American or European city today and you probably won't get far before seeing a dog being taken for a walk It's expected that these domesticated animals can easily navigate sidewalks streets and other foundational elements of our built environment But what if our cities were actually shaped in response to dogs more than we ever realized Chris Pearson's Dogopolis boldly and convincingly asserts that human canine relations were a crucial factor in the formation of modern urban living Focusing on New York London and Paris from the early nineteenth century into the 1930s Pearson shows that human reactions to dogs significantly remolded them and other contemporary western cities It's an unalterable fact that dogs often filthy bellicose and sometimes off putting run away spread rabies defecate and breed wherever they like so as dogs became a more and more common in nineteenth century middle class life cities had to respond to people's fear of them and revulsion at their least desirable traits The gradual integration of dogs into city life centered on disgust at dirt fear of crime and vagrancy and the promotion of humanitarian sentiments On the other hand dogs are some people's most beloved animal companions and human compassion and affection for pets and strays were equally powerful forces in shaping urban modernity Dogopolis details the complex interrelations among emotions sentiment and the ways we manifest our feelings toward what we love showing that together they can actually reshape society **K9 Supervisor's Manual** Robert S. alliance with a rising militant black population the shifts in political perspectives within the black community itself and the growing polarization of black and white sentiment in a city that had previously received national recognition as a model community in race relations The Detroit Riot of 1967 explores many of the critical questions that confront contemporary urban America and offers observations on the problems of the police system and substantive suggestions on redefining urban law enforcement in American society Locke argues that Detroit and every other city in America is in a race with time and thus far losing the battle It has been fifty years since the riot and federal policies are needed now more than ever that will help to protect the future of urban America **Hearings** United States.
