Manning, 2010-02-15 Despite constant calls for reform policing in the United States and Britain has changed little over the past thirty years In Policing Contingencies Peter K Manning draws on decades of fieldwork to investigate how law enforcement works on the ground and in the symbolic realm and why most efforts to reform the way police work have failed so far Manning begins by developing a model of policing as drama a way of communicating various messages to the public in an effort to enforce moral boundaries Unexpected outcomes or contingencies continually rewrite the plot of this drama requiring officers to adjust accordingly New information technologies media scrutiny and representations and community policing also play important roles and Manning studies these influences in detail He concludes that their impacts have been quite limited because the basic structure of policing officer assessments based on encounters during routine patrols has remained unchanged For policing to really change Manning argues its focus will need to shift to prevention Written with precision and judiciously argued Policing Contingencies will be of value to scholars of sociology criminology information technology and cultural theory

Schwartz,2019-08-28 We often hear about acts of violence in our country which may require an intervention by the police But sometimes the actions techniques and methods used generate questions or criticism about the lawfulness and necessity of policing Thus many in and out of law enforcement continue to look for ways to improve what we view as inappropriate police conduct Who are these men and women called upon to keep the order peace and safety of our communities How are they recruited trained and supervised as they perform the duties we demand of them Martin J Schwartz s book Policing Is About People examines the lawfulness and methodology of police actions and considerations in evaluating them More importantly it identifies the humanness of the police as told by a police officer The book offers an opportunity to view policing as a function demanded by the people our constitutional founders Finally the book considers how to make policing better safer and smarter for both the citizenry and the police Document Retrieval Index ,1976 **Detailed Statement of**
