Policies Of Chaos The Organizational Causes Of Violence In Chinas Cultural Revolution:

Policies of Chaos Lynn T. White III, 2014-07-14 The tumult of the Cultural Revolution after 1966 is often blamed on a few leaders in Beijing or on long term egalitarian ideals or on communist or Chinese political cultures Lynn White shows however that the chaos resulted mainly from reactions by masses of individuals and small groups to three specific policies of administrative manipulation labeling groups designating bosses and legitimating violence in political campaigns These habits of local organization were common after 1949 and gave the state success in short term revolutionary aims despite scarce resources and staff but they also drove millions to attack each other later First measures accumulated before 1966 to give people bad or good names such as rightist or worker these set a family s access to employment education residence and rations so they gave interests to potential conflict groups Second policies for bossism went far beyond Confucian patronage patterns making work units tightly dependent on Party monitors so rational individuals either pandered to local bosses or when they could deposed them Third the institutionalized violence of political campaigns both mobilized activists and scared others into compliance These organizational measures were often effective in the short run before 1966 but accumulated social costs that China paid later The book ends with comparisons to past cases of mass urban ostracism in other countries and it suggests how such tragedies may be forecast or prevented in the future Originally published in 1989 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905 *Policies of Chaos* Lynn T. White (III), 1991 **Party Vs. State in Post-1949 China** Shiping

Zheng, 1997-07-13 This book provides the most comprehensive analysis of one of the most important issues in China today the tensions between the Chinese Communist Party and the Chinese state legislative judicial administrative and military institutions Taking the neo institutionalist approach the author suggests that the Communist Party in post 1949 China faces an institutional dilemma the Party cannot live with the state and it cannot live without the state Zheng demonstrates that it is not only conceptually constructive but analytically imperative to distinguish the state from the Communist Party Secondly he integrates detailed study with broader generalizations about Chinese politics thus making efforts to overcome the tendency toward specialized scholarship at the expense of comparative and systemic understanding of China He also opens a new dimension of Chinese politics the uncertain and conflictual relationship between the Communist Party and the Chinese state

Historical Dictionary of the Chinese Cultural Revolution Guo Jian, Yongyi Song, Yuan Zhou, 2015-07-23 As the world s only English language historical dictionary of the Chinese Cultural Revolution 1966 1976 this book offers a comprehensive coverage of major historical figures events political terms and other matters relevant to this unique period of modern

Chinese history that had profound influence on social and cultural movements of the world in the 1960s and 1970s This second edition of Historical Dictionary of the Chinese Cultural Revolution covers its history through a chronology an introductory essay glossary and an extensive bibliography The dictionary section has over 400 cross referenced entries on important personalities politics economy foreign relations religion and culture This book is an excellent access point for students researchers and anyone wanting to know more about this important period in Chinese history **Contest for Citizenship and Collective Violence During China's Cultural Revolution** Yang Lijun,2024-06-18 This book has been groundbreaking for scholars of the Cultural Revolution but hitherto was only available in Japanese and Chinese This edition allows English language readers to access the work for the first time The author explains how political struggles within the state competing sectarian interests and other complex factors intertwined to produce various forms of collective violence that had a major impact on the political economic and social order of the time **China's Cultural Revolution, 1966-69** Michael Schoenhals,2015-03-04 Mao Zedong launched the Great Proletarian Cultural Revolution 30 years ago This documentary history of the event presents a selection of key primary documents dealing with the Cultural Revolution s massive and bloody assault on China s political and social systems [China During the Cultural Revolution, 1966-1976](#) Tony H. Chang,1999-01-30 One of the most tumultuous periods in modern Chinese history the Cultural Revolution affected virtually all Chinese people and all aspects of Chinese life including art music and drama education factory management economic planning and medical care Studies of the Cultural Revolution in both Chinese and Western languages have burgeoned over the past three decades This comprehensive easy to use bibliography provides a guide to published English language sources on the Cultural Revolution With over a thousand entries it includes books monographs dissertations and audio visual materials on a broad range of topics from the military education religion and economics to foreign relations population art literature and drama Including titles published through the end of 1997 and a few in 1998 the book provides a general overview of the literature on the Chinese Cultural Revolution and its impact on China Its scope and coverage make it a useful resource for any library whose readers have an interest in modern Chinese history [China Since 1949](#) Linda Benson,2013-11-14 One of the most remarkable stories of the last century is the emergence of China as a modern economic giant poised at the beginning of the 21st century to become a great world power China has embraced the technological advances of the late 20th century and has provided new opportunities for millions of Chinese to improve their lives While problems have accompanied this transformation China s future holds unprecedented prosperity for 1.3 billion Chinese and greatly enhanced international status for the government that is making this possible This new textbook on the People s Republic focuses on the changes which have swept through China for the past half century As well as providing a coherent narrative of the major events in China s recent past China Since 1949 also provides an integrated treatment of the history of women s experiences under the communist regime the Chinese Communist Party s treatment of ethnic minorities within

China's borders and the rise of nationalism among the Mongols, Uighurs and Tibetans; the regional differences within China and the resulting tensions; the social implications of the Chinese Communist Party's attempts to control every facet of Chinese people's lives. The accompanying documents providing primary source materials, the Chronology and Who's Who of key figures help to ensure that this is an indispensable text for students studying modern China.

Dictators and their Secret Police Sheena Chestnut Greitens, 2016-08-16 This book explores the secret police organizations of East Asian dictators, their origins, operations and effects on ordinary citizens' lives.

Red Inc. Robert K. Schaeffer, 2015-11-17 Red Inc. takes issue with the view that economic development will eventually promote democracy. It outlines in detail the enormous social costs of the rapid rise of China's economy. Although many observers argue that Deng Xiaoping introduced capitalism to China in the late 1970s, Schaeffer believes that capitalist development really began during the 1950s under Mao Zedong. But although Mao made relentless efforts to generate the capital needed to finance economic development, his regime failed to promote any real growth. Schaeffer shows that the remarkable rise of its economy in recent years has provided China with new and often corrupt sources of wealth and power that have enabled it to resist democracy. He brings into sharp focus the consequence of the regime's uncompromising approach to capital accumulation.

The Encyclopedia of Political Revolutions Jack A. Goldstone, 2015-04-29 The Encyclopedia of Political Revolutions is an important reference work that describes revolutionary events that have affected and often changed the course of history. Suitable for students and interested lay readers, yet authoritative enough for scholars, its 200 articles by leading scholars from around the world provide quick answers to specific questions as well as in-depth treatment of events and trends accompanying revolutions. Includes descriptions of specific revolutions, important revolutionary figures and major revolutionary themes such as communism and socialism, ideology and nationalism. Illustrative material consists of photographs, detailed maps and a timeline of revolutions.

Historical Dictionary of the Chinese Communist Party Lawrence R. Sullivan, 2012 The Historical Dictionary of the Chinese Communist Party contains a chronology, an introductory essay, an appendix, an extensive bibliography and more than 400 cross-reference dictionary entries on key people, places and institutions. This book is an excellent access point.

China's Transition Andrew James Nathan, 1997 With more than one billion people, China represents both an ocean of economic opportunity and a frustrating backwater of continuing brutal political repression. What are the prospects for democratic evolution in a nation with one of the world's poorest human rights records? How have other nations responded to China since the recent dramatic opening of its economic system and how should they respond in the future? These are some of the most important questions confronting both the United States and the international community. On democracy, human rights and the move to integrate China into the international economy, on Mao Zedong's regime and the reform since his death and on the Taiwan experiment and Hong Kong's reintegration with China, Nathan offers an accessible introduction to the intricate web of contemporary Chinese politics and China's changing place in the global system.

Aesthetics and Marxism Kang Liu, 2000-03-10 Liu's study examines writers, philosophers and political leaders in China and the West and reveals the extent to which they incorporate ideas about culture and aesthetics in their theories and practices

Political Booms: Local Money And Power In Taiwan, East China, Thailand, And The Philippines Lynn T White, 2009-06-10 Why have Taiwan, rich parts of China and Thailand boomed famously while the Philippines has long remained stagnant both economically and politically? Do booms abet democracy? Does the rise of middle classes promise future liberalization? Why has Philippine democracy brought no boom and barely served the Filipino people? This book, unlike most previous studies, shows that both the roots and results of growth are largely political rather than economic. Specifically, it pays attention to local, not just national, power networks that caused or prevented growth in the four places under consideration. Violence has been common in these polities along with money. Elections have contributed to socio-political problems that are also obvious in Leninist or junta regimes because elections are surprisingly easy to buy with corrupt money from government contracts. Liberals should pay more serious theoretical attention to the effects of money on justice and Western political science should focus more clearly on the ways non-state local power affects elections. By considering the effects on fair justice of local money and power largely from small and medium-sized firms that emerge after agrarian reforms, this book asks democrats to face squarely the extent to which electoral procedures fail to help ordinary citizens. Students and scholars of Asia will all need this book as will students of the West whose methods have become parochial.

Chinese Femininities, Chinese Masculinities Susan Brownell, Jeffrey N. Wasserstrom, 2002 Chinese Literature Lydia H. Liu

Corporate Bankruptcy Law in China Natalie Mroczkova, 2021-01-28 This fascinating study uses qualitative and quantitative data and insights from interviews with judges, lawyers, government officials, entrepreneurs, bankers, consultants and academics in China and abroad to provide a new perspective on the problems that have hindered the implementation of the Enterprise Bankruptcy Law in China and recent attempts at reform. The analysis provides unique insights into China's business world and its interaction with the judicial and political system in China. In addition, the book also provides important information about how the Enterprise Bankruptcy Law affects foreign companies, agencies and governments that are active in China. The author draws on empirical data, decided cases and her experience of how the law and surrounding practices deal with foreign stakeholders whose interests are affected by corporate bankruptcy in China. The book will improve understanding of how China's corporate bankruptcy law has been used in practice, what has limited its practical effectiveness, whether it is desirable for the law to be used more readily in China and the possible options for its reform.

Mass Politics In The People's Republic Alan P.L. Liu, 2019-03-04 Exploring the crucial link between state and society in the People's Republic of China (PRC), this book analyzes the interaction between the Chinese Communist Party and the country's major social groups. It explores how public opinion contributes to a mass political culture in China.

China's Use of Military Force Andrew Scobell, 2003-09-08 In this unique study of China's militarism, Andrew Scobell examines the use of military

force abroad as in Korea 1950 Vietnam 1979 and the Taiwan Strait 1995 1996 and domestically as during the Cultural Revolution of the late 1960s and in the 1989 military crackdown in Tiananmen Square Debunking the view that China has become increasingly belligerent in recent years because of the growing influence of soldiers Scobell concludes that China's strategic culture has remained unchanged for decades Nevertheless the author uncovers the existence of a Cult of Defense in Chinese strategic culture The author warns that this Cult of Defense disposes Chinese leaders to rationalize all military deployment as defensive while changes in the People's Liberation Army's doctrine and capabilities over the past two decades suggest that China's twenty first century leaders may use military force more readily than their predecessors

Chongqing's Red Culture Campaign Xiao Mei, 2017-07-06 Based on fieldwork conducted in Chongqing including interviews and document analysis this book examines the nature of Chongqing's Red culture campaign and the interaction between the political programme and the practices of its participants above all analysing how far the campaign was a return to Maoist revolutionary mass campaigning
