Policing And Conflict In Northern Ireland:

Policing and Conflict in Northern Ireland J. Wright, K. Bryett, 2015-12-22 In societies suffering from acute political and social cleavage policing agencies are invariably at the heart of the conflict resolution processes In Northern Ireland there have been calls for the RUC to be disbanded as well as for it to be retained unchanged After considering various options and models especially from Spain South Africa and the Netherlands this book charts a path for reform that takes account of Northern Ireland's political realities and will help build trust and inclusions

Policing Northern Ireland Aogan Mulcahy, 2013-06-17 This book provides an account and analysis of policing in Northern Ireland providing an account and analysis of the RUC Royal Ulster Constabulary from the start of the troubles in the 1960s to the early 1990s through the uneasy peace that followed the 1994 paramilitary ceasefires 1994 1998 and then its transformation into the Police Service of Northern Ireland following the 1999 Patten Report A major concern is with the reform process and the way that the RUC has faced and sought to remedy a situation where it faced a chronic legitimacy deficit Policing Northern Ireland focuses on three key aspects of the police legitimization process reform measures which are implemented to redress a legitimacy crisis representational strategies which are invoked to offer positive images of policing and public responses to these various strategies Several key questions are asked about the ways in which the RUC has sought to improve its standing amongst nationalists first what strategies of reform has the RUC implemented second what forms of representation has the RUC employed to promote and portray itself in the positive terms that might secure public support third how have nationalists responded to these initiatives The theoretical framework and analysis developed in the book also highlights general issues relating to the implications of police legitimacy and illegitimacy for social conflict and divisions and their management and or resolution in relation to transitional societies in particular In doing so it makes a powerful contribution to wider current debates about police legitimacy police community relations community resistance and conflict resolution

Policing and Combating Terrorism in Northern Ireland Neil Southern, 2018-04-12 This book explores the challenges of combating terrorism from a policing perspective using the example of the Royal Ulster Constabulary GC RUC in Northern Ireland The RUC was in the frontline of counter terrorism work for thirty years of conflict during which time it also provided a normal policing service to the public However combating a protracted and vicious terrorist campaign exacted a heavy price on the force Importantly the book addresses a seriously under researched theme in terrorism studies namely the impact of terrorism on members of the security forces Accordingly the book examines how officers have been affected by the conflict as terrorists adopted a strategy which targeted them both on and off duty This resulted in a high percentage of officers being killed whilst off duty sometimes in the company of their wives and children The experience of officers wives is also documented thus highlighting the familial impact of terrorism Generally speaking the victims of terrorist attacks have received scant scholarly attention which has resulted in victims experiences being little understood This piece of work casts a specific and unique

light on the nature of victimhood as it has been experienced by members of this branch of the security forces in Northern Ireland

Policing and Conflict in Northern Ireland J. Wright, 2000-11-03 In societies suffering from acute political and social cleavage policing agencies are invariably at the heart of the conflict resolution processes In Northern Ireland there have been calls for the RUC to be disbanded as well as for it to be retained unchanged After considering various options and models especially from Spain South Africa and the Netherlands this book charts a path for reform that takes account of Northern Ireland's political realities and will help build trust and inclusions

Democratic Policing in Transitional and Developing Countries Michael D. Wiatrowski, 2016-05-13 Is it possible to create democratic forms of policing in transitional and developing societies This volume argues that policing models and practices promoted by the west are often inadequate for adoption by countries making democratic transitions because they do not adequately address issues such as human rights equity co production accountability openness and organizational change Therefore police reform is often limited to a one size fits all approach The book expands the dialogue so that discussions of democratic policing around the world are more realistic comprehensive and sensitive to the local context Detailed case studies on Iraq South Africa Northern Ireland and Kazakhstan provide a realistic assessment of the current state of policing The editors use the studies to suggest how to promote democratic policing and other important goals of democratic reform around the world The volume will assist academics policy makers NGOs and others in tailoring a local democratic policing strategy within a broader framework to enhance socioeconomic development and citizen capacity build social capital reduce various forms of conflict and support human rights

Community Policing in Indigenous Communities Mahesh K. Nalla, Graeme R. Newman, 2013-03-04 Indigenous communities are typically those that challenge the laws of the nation states of which they have become often very reluctantly a part Around the world community policing has emerged in many of these regions as a product of their physical environments and cultures Through a series of case studies *Community Policing in Indigenous Communities* explores how these often deeply divided societies operate under the community policing paradigm Drawing on the local expertise of policing practitioners and

researchers across the globe the book explores several themes with regard to each region How community policing originated or evolved in the community and how it has changed over time The type of policing style used whether informal or formal and uniformed or non uniformed whether partnerships are developed with local community organizations or businesses and the extent of covert operations if any The role played by community policing in the region including the relative emphasis of calls for service the extent to which advice and help is offered to citizens whether local records are kept of citizen movement and locations and investigation and arrest procedures The community's special cultural or indigenous attributes that set it apart from other models of community policing Organizational attributes including status in the hierarchy of control within the regional or national organization of policing The positive and negative features of community policing as it is practiced in the community Its effectiveness in reducing and or preventing crime and disorder The book demonstrates that community policing cannot be imposed from above without grassroots input from local citizens It is a strategy not simply for policing with consent but for policing in contexts where there is often little if any consent It is an aspirational practice aimed to help police and communities within contested contexts to recognize that positive gains can be made enabling communities to live in relative safety

Policing Citizens P.A.J. Waddington, 2002-11-01 This analysis of policing throughout the modern world demonstrates how many of the contentious issues surrounding the police in recent years from paramilitarism to community policing have their origins in the fundamentals of the police role The author argues that this results from a fundamental tension within this role In liberal democratic societies police are custodians of the state s monopoly of legitimate force yet they also wield authority over citizens who have their own set of rights

Policing European

Metropolises Elke Devroe,Adam Edwards,Paul Ponsaers,2017-02-03 Understanding the politics of security in city regions is increasingly important for the study of contemporary policing This book argues that national and international governing arrangements are being outflanked by various transnational threats including the cross border terrorism of the attacks on Paris in 2015 and Brussels in 2016 trafficking in people narcotics and armaments cybercrime the deregulation of global financial services and environmental crime Metropolises are the focal points of the transnational networks through which policing problems are exported and imported across national borders as they provide much of the demand for illicit markets and are the principal engines generating other policing challenges including political protest and civil unrest This edited collection examines whether and how governing arrangements rooted in older systems of national sovereignty are adapting to these transnational challenges and considers problems of and for policing in city regions in the European Union and its single market Bringing together experts from across the continent Policing European Metropolises develops a sociology of urban policing in Europe and a unique methodology for comparing the experiences of different metropolises in the same country This book will be of value to police researchers in Europe and abroad as well as postgraduate students with an interest in policing and urban policy
