Policing South Africa The Sap And The Transition From Apartheid:

Police Integrity in South Africa Sanja Kutnjak Ivkovich, Adri Sauerman, 2020-04-29 Policing in South Africa has gained notoriety through its extensive history of oppressive law enforcement. In 1994 as the country's apartheid system was replaced with a democratic order, the new government faced the significant challenge of transforming the South African police force into a democratic police agency, the South African Police Service (SAPS), that would provide unbiased policing to all the country's people. More than two decades since the initiation of the reforms, it appears that the SAPS has rapidly developed a reputation as a police agency beset by challenges to its integrity. This book offers a unique perspective by providing in-depth analyses of police integrity in South Africa. It is a case study that systematically and empirically explores the contours of police integrity in a young democracy. Using the organizational theory of police integrity, the book analyzes the complex set of historical, legal, political, social, and economic circumstances shaping police integrity. A discussion of the theoretical framework is accompanied by the results of a nationwide survey of nearly 900 SAPS officers probing their familiarity with official rules, their expectations of discipline within the SAPS, and their willingness to report misconduct. The book also examines the influence of the respondents' race, gender, and supervisory status on police integrity. Written in a clear and direct style, this book will appeal to students and scholars of criminology, policing, sociology, political science, as well as to police administrators interested in expanding their knowledge about police integrity and enhancing it in their organizations.

Migration and National Identity in South Africa, 1860-2010 Audie Klotz, 2013-09-16 An extraordinary outbreak of xenophobic violence in May 2008 shocked South Africa, but hostility toward newcomers has a long history. Democratization has channeled such discontent into a non-racial nationalism that specifically targets foreign Africans as a threat to prosperity. Finding suitable governmental and societal responses requires a better understanding of the complex legacies of segregation that underpin current immigration policies and practices. Unfortunately, conventional wisdoms of path dependency promote excessive fatalism and ignore how much South Africa is a typical settler state. A century ago, its policy makers shared innovative ideas with Australia and Canada, and these peers, which now openly wrestle with their own racist past, merit renewed attention. As unpalatable as the comparison might be to contemporary advocates of multiculturalism, rethinking restrictions in South Africa can also offer lessons for reconciling competing claims of indigeneity through multiple levels of representation and rights.

Culture, Organization, and Management in South Africa Marja Spierenburg, Harry Wels, 2006 South Africa is celebrating its first decade of democratic freedom. It therefore seems appropriate to examine in more detail how South Africa has tried to restore some of the many social injustices caused by the former apartheid regime. This book offers a view into the world of organization and management from a cultural perspective. The authors investigate how initiatives and policies with the aim of generating more employment equity have been developed, implemented, and have worked out in various sectors of the South African economy. The various chapters present in-depth case studies that deal with

the South African government local NGOs universities and tourism The book reveals in detail the local struggles of the historically disadvantaged and the powers that be to try and live up to the ideals of the New South Africa Sex and Nation in Transatlantic Literatures Agata Szczeszak-Brewer, 2025-06-12 Nationalist and tribal cohesion in Ireland South Africa the US and elsewhere often relies on an absence of female and gender nonconforming bodies in the public life Staging a vital counter narrative to global nationalist discourses this book explores how 20th and 21st century postcolonial literatures criticize hetero normative definitions of nationhood across different geopolitical and cultural contexts Szczeszak Brewer delves into the metaphorical currency of male impotence and sexual aggression in nationalist narratives She examines the place of gender nonconforming characters in literature from Ireland the US Poland France Britain South Africa and Senegal in the work of writers including James Joyce Witold Gombrowicz Jean Toomer Bessie Head Zo Wicomb J M Coetzee Andrea Levy Patrick McCabe and David Diop Aligning queer and gender perspectives with discussions of white supremacy this book examines the urgency for contemporary geopolitics to imagine new discourses of community against the backdrop of a rise in neo nationalisms steeped in homophobic and misogynistic rhetoric **Defensive Restructuring of the Armed Forces in Southern Africa** Bjørn Møller, Gavin Cawthra, 2019-01-15 Published in 1997 the work explores the reorientation of security policies and the accompanying restructuring of the armed forces going on in Southern Africa under entirely new circumstances Democracy has come to South Africa the civil wars in Angola and Mozambique have ended and the region is establishing a regional framework for cooperation While covering the entire region a special focus is placed on South Africa which is predestined to play a leading role but which is struggling with the legacy of the apartheid regime and its repeated aggressions against neighbouring states A defensive restructuring of the South African of the South African military is an element in the building of mutual trust The implications of such defensive restructuring to a non offensive defence are described in detail In addition to the analytical contribution the work also contains central documents and a bibliography

Crime and Modernity John Lea, 2002-07-25 Lea has produced a serious and scholarly contribution of great interest to

criminologists whether critical or not to post graduates as well as the more advanced undergraduate This is a book that is well written absorbing thoughtful and thought provoking The British Journal of Criminology Crime control is in crisis Not only have levels of crime risen but more important crime is increasingly regarded as a normal aspect of the social and economic system rather than disruption or deviance The blurring boundaries between the criminal and the normal are evident in a number of areas from the activities of multinational corporations to the life of the inner city In this book John Lea develops a broad historical and sociological overview relating the rise and fall of effective crime control to different types of social structures It traces the process of modernisation and industrialisation from the eighteenth to the mid twentieth centuries which established the social preconditions for effective control and management of criminality In the early years of the present century it is clear that these preconditions are now being progressively undermined as industrial society undergoes profound changes in its direction of development The result is traced through a variety of types of criminality and the progressive debilitation of existing institutions and processes of crime control A major feature of this book is its wide scope and imaginative application of historical and theoretical perspectives on modernisation and capitalist social development to the contemporary problems of controlling a wide variety of crime It represents a significant contribution to the ability of criminology and the sociology of crime to confront the dilemmas and controversies of the twenty first century

Constitutional Triumphs, Constitutional Disappointments Rosalind Dixon, Theunis Roux, 2018-04-19 The 1996 South African Constitution was promulgated on 18th December 1996 and came into effect on 4th February 1997 Its aspirational provisions promised to transform South Africa's economy and society along non racial and egalitarian lines Following the twentieth anniversary of its enactment this book co edited by Rosalind Dixon and Theunis Roux examines the triumphs and disappointments of the Constitution It explains the arguments in favor of the Constitution being replaced with a more authentically African document untainted by the necessity to compromise with ruling interests predominant at the end of apartheid Others believe it remains a landmark attempt to create a society based on social economic and political rights for all citizens and that its true implementation has yet to be achieved This volume considers whether the problems South

Africa now faces are of constitutional design or implementation and analyses the Constitution's external influence on constitutionalism in other parts of the world

We often think of war as creating two different kinds of people soldiers and civilians But hasn't history taught us that this distinction is painfully nebulous The contributors to this volume writing from different disciplinary vantages address a number of important issues connected to the ways in which the social distinctions and divisions surrounding war especially those that determine participation play out across different historical and geographical settings Contextualizing the dichotomy of civilian and combatant against these larger complexities this book offers a new understanding of the problematic middle ground that civilians occupy during wartime
