Policy Change And Discourse In Europe:

Policy Change and Discourse in Europe Claudio M. Radaelli, Vivien A. Schmidt, 2004 In this special issue the authors have two interconnected goals to explain substantively the process of policy change in Europe and to demonstrate that explanations of policy change are most complete when using a pluralism of approaches including discourse The introduction provides the definitions of what they mean by policy change in Europe and explores the conceptual and methodological issues in question The following six articles offer empirical analyses of policy change in different sectors using a wide range of approaches including discourse The conclusion sums up what they have learned comparatively about European policy change across sectors Daniel Wincott has kindly provided an article reflecting on the results of their project Editor Policy Change and Discourse in Europe Claudio Maria Radaelli, Vivien Ann Schmidt, 2005 This book examines policy discourse Europeanisation and the classic variables of politics in their institutional context It presents sophisticated theoretical analysis grounded in empirically rich comparative case studies Policy Change and Discourse in Europe, 2004 **Institutional and Policy Change in the European Parliament** Ariadna Ripoll Servent, 2015-02-24 In an EU increasingly worried about the security of its citizens and its territory how should the European Parliament make policy decisions in these areas This study investigates how the empowerment of the European Parliament has led it to abandon its defence of civil liberties in order to become a full partner in inter institutional negotiations **Handbook of European Policies** Hubert Heinelt, Sybille Münch, 2018-01-26 This definitive Handbook addresses the current lack of research into European policymaking and development using an interpretive perspective Questioning areas that mainstream approaches tend to neglect contributors target the ways in which ideas arguments and discourses shape policies in the institutional context of the EU EU and the Balkans Leila Simona Talani, 2020-12-15 Integration and disintegration are the two poles of the economic political and security discourse in an area the Balkans and Southern Eastern Europe SEE which over the past fifteen years has been the stage of dramatic events Integration and disintegration are the two dimensions of an identity problem that many feel the area can solve by joining the European Union and diffusing its many conflicts in the peaceful waters of Europeanisation However quite apart from the obvious point that the accession process cannot be taken for granted in relation to many of the new Balkan countries integration into the EU can be argued as having been and still being a further catalyst for disintegration This book assesses the extent to which the integration of the Balkans into the EU will either foster or discourage the integration of the area itself as well as the winners and losers under this process The book addresses the topic in a multidisciplinary way The contributions are the result of a fruitful co operation between scholars from the Balkans the UK and the US The book tackles the issue of the relation between the EU and the Balkans in all its controversial and contradictory dimensions **Research Design in European Studies** T. Exadaktylos, C. Radaelli, 2012-04-16 A seminal text in European studies which addresses issues of research design and causal analysis The

chapters draw on different methodological traditions notions of causality and methods and use strong research design to address substantive problems in public policy party politics foreign policy and legislative studies Foreign Policy Change in Europe Since 1991 Jeroen K. Joly, Tim Haesebrouck, 2021-08-27 In the past three decades the world has witnessed many rapid and invasive changes and seems to be changing countries have adapted their foreign policies to these changes Building on a clear typology of foreign policy change and a consistent theoretical framework this book offers a comparative analysis of foreign policy change in Europe throughout the post Cold War period Along the lines of our analytical framework country experts discuss how and why the further ever more rapidly in ways that seemed only imaginable in movies This book investigates how European foreign policies of eleven European countries have changed over the past thirty years This book hereby advances our understanding of the phenomenon of foreign policy change and identifies the most important drivers and inhibitors of change *The SAGE Handbook of European Union Politics* Knud Erik Jørgensen, Mark Pollack, Ben Rosamond, 2007-01-03 This volume is one to which anyone trying to make sense of the EU of the early 21st century will return again and again A terrific line up that combines diverse talents from North America and Europe Few books of this kind could live up to the billing definitive benchmark but this one certainly does John Peterson University of Edinburgh A most useful book that can be highly recommended A strong analytical framework coupled with unparalleled coverage of the major issues of the political science research of the EU makes this volume a formidable tool for teaching and a significant input to new scholarly research It is both relatively sophisticated and very accessible to graduate students and advanced researchers The clear writing style and the richness of information presented will certainly make this book interesting for non academic readers Igor Vidacak Institute for International Relations Zagreb Journal of Common Market Studies An admirably comprehensive source book for those interested in how the tools of political science inspire EU area studies The editors enlist leading researchers to synthesize the state of the art in their field of expertise The Handbook of European Union Politics will be an indispensable intellectual resource for researchers teachers and graduate students of the European Union Liesbet Hooghe University of North Carolina at Chapel Hill USA Presents an excellent overview of political science research on the EU It finds the right balance between establishing the state of the art and pointing the reader to theoretical diversity Highly recommended for advanced students and scholars looking for quick and solid orientation in a fragmented field and for new ideas for research Frank Schimmelfennig ETH Zurich Switzerland This is a milestone in the study of EU politics The authors include the most knowledgeable practitioners in the field and collectively they provide a comprehensive and highly competent overview of the state of theory and research on EU institutions politics and policies Fritz Scharpf Max Planck Institute for the Study of Societies Germany The European Union EU poses quite profound questions for scholars and students of the social and political sciences This benchmark handbook is designed to provide an authoritative state of the art guide to the scope of the field suitable for both established scholars and students of the EU reflect and contribute to the

debates about the nature of the field of EU studies and EU politics in particular explore in detail the development of the many approaches to the study of EU politics Divided into four sections the Handbook focuses on theorizing European integration the EU as polity politics and policy making in the EU and the EU and the international system Its appeal will reside not only in its comprehensive and authoritative coverage of the field but also in the quality of its contributors and the diversity of theoretical and methodological approaches included The resulting volume is a must have for all scholars and advanced students of the EU and European integration

Research Methods in European Union Studies K. Lynggaard,I. Manners,K. Löfgren,2016-01-08 This collection sets a new agenda for conducting research on the EU and learns from past mistakes In doing so it provides a state of the art examination of social science research designs in EU studies while providing innovative guidelines for the advancement of more inclusive and empirically sensitive research designs in EU studies

Democracy in Europe Vivien A. Schmidt,2006-10-19 This eagerly awaited volume from a leading scholar on Europeanization explores the impact of European integration on national democracies Focusing on the case studies of France Britain Italy and Germany this is an exciting contribution to work on the implications of European integration for democratic government

Trajectories of Minority Rights Issues in Europe Timofey Agarin,Malte Brosig,2016-01-13 The interest in minority protection emerged during the period of democratic transition particularly of ethnically segmented postcommunist societies after the end of the Cold War Minority issues became prominent as postcommunist states lined up as potential candidates for EU membership and the respect for and protection of minority rights was an essential part of criteria these states had to fulfil before EU accession Minority rights protection has constituted an important gatekeeping criterion for EU membership Its monitoring remains a powerful instrument to mediate tensions and to adjudicate discriminations in the present day Europe In many countries minority rights standards have been transposed in domestic legislation but whether these norms constitute a legitimate background which states accept sustain and promote is the focus of this book This volume takes on the task of analysing the diffusion of minority rights norms across the European continent It looks specifically at the oft neglected process of compliance meaning not only the formal adoption of European laws but also their implementation within the domestic context The contributions analyse the political rhetoric legal transposition and behavioural compliance in a range of European states East and West to assess compliance to norms of minority protection This book was published as a special issue of Perspectives on European Politics and Society

Europeanization as Discursive Practice Senka Neuman Stanivuković,2017-09-01 Europeanization as Discursive Practice adopts a poststructuralist reading of Europeanization to study the effects of EU accession in the light of political territoriality and consequent state building processes in the EU and Central and Eastern European countries CEECs and the Western Balkans from 1990 2013 Focusing on how domestic actors have framed Europe EU norms in the debates on territorial reforms and the implications of this framing on policy reforms it asks how competing articulations of the EU and its norms construct state

territoriality in the given political and policy debates The book argues that the European Union acted as a discursive force and a challenge to the established structures of understanding of territoriality statehood and power With this the author proposes a new research model for the study of Europeanization that goes beyond the neo institutionalist account of the EU s policy norm transfer to member non member states This text will be of key interest to students scholars and practitioners of European integration EU foreign policy enlargement policy and regional policy and territoriality in post socialist spaces

Ideas and Politics in Social Science Research Daniel Beland,Robert Henry Cox,2010-12-10 Writing about ideas John Maynard Keynes noted that they are more powerful than is commonly understood Indeed the world is ruled by little else One would expect therefore that political science a discipline that focuses specifically on the nature of power would have a healthy respect for the role of ideas However for a variety of reasons not least of which is the influence of rational choice theory which presumes that individuals are self maximizing rational actors this is not the case and the literature on the topic is fairly thin As the stellar cast of contributors to this volume show ideas are in fact powerful shapers of political and social life In Ideas and Politics in Social Science Research Daniel B land and Robert Henry Cox have gathered leading scholars from a variety of subdisciplines in political science and sociology to provide a general overview of the theoretical empirical and methodological issues raised by social science research on ideas and politics Throughout they hone in on three central questions What is the theoretical basis for studying ideas in politics What are the best methods What sort of empirical puzzles can be solved by examining ideas and related phenomena such as discourse policy paradigms and framing processes In sum this is a state of the art academic work on both the role of ideas in politics and the analytical utility that derives from studying them

Arab Spring Challenges for Democracy and Security in the Mediterranean Patricia Bauer,2016-01-22 This volume presents essential aspects of Mediterranean politics to be reconsidered in the light of the Arab upheavals since 2010 The focal point of the book is the question in how far European Mediterranean relations are challenged by the various developments It explores the relationship between security and democracy within the Arab countries and in European Mediterranean relations The ambiguity between the promotion of democratic values and the preservation of common interests in cooperation in economic and security affairs is stirred up by changing political actors and new conflictual constellations inside the Arab countries All these changes evoke new challenges for all areas of the European Mediterranean cooperation Thus the volume assembles contributions from different angles on the re formulation of the European Neighbourhood Policy as well as the Democracy Assistance towards the Southern Mediterranean It discusses the major security issues of a cooperative security architecture counter terrorism action migration control and security sector reform in order to explore the relevant challenges in the field The contributions analyse the recent developments and challenges provide critical insights into those fields and endeavour to provide some proposals for improving Mediterranean cooperation on democracy and security This book was published as a special issue of Democracy and Security

European Regions

Elisabeth Donat, Sarah Meyer, Gabriele Abels, 2020-09-23 At the beginning of the 21st century the EU is facing deep political social and economic changes The benefit of supranational organization is no longer obvious to European citizens and questions of legitimacy have accompanied the EU's development over the last decades Regions albeit often deemed obsolete present themselves as stable and reliable partners in this turbulent environment in being important objects of identification to their citizens but also relevant political and legal entities in the EU's multilevel governance system This edited volume asks about the role of regions and regional identity in a European Union that is perhaps struggling more than ever about its future *The EU's Lisbon Strategy* P. Copeland, 2012-10-23 How successful was the EU's Lisbon Strategy This volume provides the first comprehensive assessment of the Strategy and reflects on its key developments during its 10 year cycle The volume contains both theoretical and empirical contributions by some of the leading scholars of EU studies across the social sciences
