*Law, Policy and Reproductive Autonomy* Erin Nelson, 2014-07-18 Reproductive choices are at once the most private and intimate decisions we make in our lives and undeniably also among the most public. Reproductive decision-making takes place in a web of overlapping concerns: political and ideological, socio-economic, health and health care, all of which engage the public and involve strongly held opinions and attitudes about appropriate conduct on the part of individuals and the state. *Law, Policy and Reproductive Autonomy* examines the idea of reproductive autonomy, noting that in attempting to look closely at the contours of the concept, we begin to see some uncertainty about its meaning and legal implications about how to understand reproductive autonomy and how to value it. Both mainstream and feminist literature about autonomy contribute valuable insights into the meaning and implications of reproductive autonomy. The developing feminist literature on relational autonomy provides a useful starting point for a contextualised conception of reproductive autonomy that creates the opportunity for meaningful exercise of reproductive choice. With a contextualised approach to reproductive autonomy as a backdrop, the book traces aspects of the regulation of reproduction in Canadian, English, US, and Australian law and policy, arguing that not all reproductive decisions necessarily demand the same level of deference in law and policy and making recommendations for reform.

**The Other Macdonald Report** Daniel Drache, Duncan Cameron, 1985-01-01 In 1982 the Macdonald Commission began its 20 million mission to find a consensus on Canada's future The commission held hearings in 28 towns and cities met with 700 concerned parties and assembled nearly 40 000 pages of testimony In his Report Commission chair Donald S Macdonald announced Canada must make a leap of faith and embrace free trade with the U S apparently signalling the victory of a globalizing corporate vision of the country's development The Other Macdonald Report reopens the debate presenting twenty key submissions to the Commission by organizations such as the Canadian Conference of Catholic Bishops the United Auto Workers the National Action Committee on the Status of Women the Canadian Mental Health Association and the National Farmers Union Together these groups offer a vision of Canada where human needs take priority over capital and technology The Other Macdonald Report offers alternatives to the corporate vision for Canada's future alternatives forged during the vibrant free trade debates of the mid 1980s

**Sport Policy** Nils Asle Bergsgard, Barrie Houlihan, Per Mangset, Svein Ingve Nødland, Hilmar Rommetvedt, 2009-11-04 Sport Policy a comparative analysis of stability and change builds on the growing general interest in the comparative study of sport policy and the more specific interest in processes of policy change and issues associated with policy convergence In stark contrast to many other areas of public policy such as education personal welfare and health care there is a paucity of theoretically informed comparative studies in sport Over recent years there has been a steady increase in public investment in sport and frequently

as a consequence a sharper debate about how public resources should be used However there has been little analysis of the factors that shape the generation of domestic sport policy and little attempt to identify the variables that might influence the policy process Sport Policy a comparative analysis of stability and change provides a theoretically informed analysis of the sports systems in Canada England Germany and Norway These economically advanced countries are carefully selected to enable the investigation of the significance of variables and because they share a number of socio economic and sports related characteristics which provides the text with a unique breadth and depth of coverage This text is a vital addition to the general paucity of literature in this area and is written by an internationally renowned author team     Research

Perspectives on the Role of Informatics in Health Policy and Management El Morr, Christo,2013-07-31 Healthcare providers require timely and accurate information about their patients As such a great amount of effort and resources are spent to ensure that the right information is presented to the right people at the right time Research Perspectives on the Role of Informatics in Health Policy and Management focuses on the advancements of Health Information Science in order to solve current and forthcoming problems in the health sector Managers policy makers researchers and Masters and PhD students in healthcare related fields will use this book to provide necessary insight on healthcare delivery and also to inspire new ideas and practices to effectively provide patients with the greatest quality care     Multilevel Social Determinants of Individual

and Family Well-being: National and International Perspectives Dillon Browne,Nicole Racine ,Brae Anne McArthur,2024-07-03 The social determinants of health perspective stipulates that health and well being for individuals and families are inextricably linked to contextual risk and protective factors nested across layers of organization At a time of significant social change and environmental stress it is of pressing importance to showcase lifespan research that identifies these social determinants to guide policy and public health response that is sensitive to the historical epoch
