Policy Transfer New Public Management And Globalization Mexico And The Caribbean:

Policy Transfer, New Public Management and Globalization Ann Marie Bissessar, 2002-09-04 New public management as sketched by Bissessar social sciences U of West Indies St Augustine is a re engineered form of public administration that emphasizes decentralized administration contracting out and privatization and is heavily favored as a model to be imposed on developing countries by the institutions of neoliberalism Bissessar presents 10 essays that from the perspective of small Latin American and Caribbean countries tend to suggest that the transfer of this style of administration fails to be successful because of the lack of primary infrastructure although there are differences in both focus and emphasis among the contributors Annotation copyrighted by Book News Inc Portland OR

Globalization and Governance Ann Marie Bissessar, 2014-10-04 Despite the controversial nature of globalization there is no doubt that the pace and intensity of global interactions has been multiplied exponentially over the last few decades Criticism of globalization is generally arranged into three camps political economic and cultural Political critics point to the status of the small state and conclude either that it is in retreat or that the state has reconstituted itself to confront the challenges posed by globalization thereby transforming itself into a competition state Economic critics hold that globalization is nothing new that international transactions are in the logic of capitalism and that the trade along the silk route goes back centuries Cultural critics protest that globalization is taking us headlong into the homogenization of the world Others warn of new fault lines that would lead to a clash of civilizations and international conflicts along those lines Others lament that cultural globalization will end with the Americanization of the world This collection of essays like the debates themselves is divided into three parts The first section focuses on the political aspects of globalization In one essay Globalization and the Caribbean the essayist argues that internationalization leaves no room for small countries in the Caribbean The essays in the second section are devoted to an economic inquiry into the process and impact of globalization In Inequality and the Division of Gains at the Global Level one essayist notes that the logic of economic theory is being overwhelmed by the interests of the powerful and that the concerns of the poor countries are important only to the point where they begin to impact the well being of the rich The final section explores the issue of cultural and social integration Instructors considering this book for use in a course may request an examination copy here

Handbook of Globalization, Governance, and Public Administration Ali Farazmand, Jack Pinkowski, 2006-07-25 Globalization transcends borders and cultures as it develops both from the natural flow of information and communication technologies and as a directed and driven quest for global hegemony by self serving corporations and world political heavyweights It bears a multifaceted web of influence that manifests in inequalities in growth prosperity and

Handbook of Policy Transfer, Diffusion and Circulation Osmany Porto de Oliveira, 2021-03-26 This important Handbook brings together preeminent international scholars sharing their comparative and international perspectives on the topic Their original contributions cover the key issues and questions around policy transfer diffusion and circulation research

Altogether chapters illuminate how rich and provocative the current debate on the interpretation of how public policies travels is and the vibrancy of the area's research within the broad planet of public policy analysis

Decolonising Restorative Justice Leanne Alexis Levers, 2023-09-01 This book critically examines the colonial dimensions of restorative justice through the lens of justice policy reform in Jamaica Restorative justice is not new Practices of restitution can be found throughout history predominantly in non Western traditions and religions One of the key principles of restorative practices is contextualisation That is restorative practices are developed and embedded within the political economic and cultural context of the communities in which they are practised Many of the countries that have gone on to develop restorative justice as part of their formal justice system have developed their policy on the model of their indigenous communities for example in Canada and in New Zealand However with the globalisation of restorative practices within the past decade many countries have sought to colonise restorative justice by developing a standardised best practice approach Instead of a practice that is developed and formed by its community colonised restorative justice dictates that one size fits all Examined through the lens of the development and implementation of restorative justice policies in Jamaica this book argues that this Westernised approach diminishes the effectiveness of restorative justice in its capacity to address the victim's needs to hold the offender accountable in a way that reintegrates them into society and to empower the community by involving them in the provision of justice to victims Restorative justice then must be decolonised and local indigenous practices acknowledged if it is to achieve its aims This book will be of interest to a range of scholars with interests in decolonisation as well as alternative dispute resolution especially those in sociolegal studies criminology human rights social policy political science and Caribbean studies

Extended Statehood in the Caribbean Lammert de Jong, Dirk Kruijt, 2005 In this book the islands connections with American and European metropolitan centers are considered lifelines which must be strengthened The constitutional arrangement is defined as extended statehood a form of government that is meant to supplement the island government Circumstances have changed and require a format of analysis that goes beyond the old landscape of colonies and independent states The objective of this book is to promote a new look at extended statehood in the Caribbean while raising a number of questions relating to the operation of the different extended statehood systems across the region

The Age of Knowledge James Dzisah, Henry Etzkowitz, 2011-10-14 The Age of Knowledge emphasizes that the ongoing transformations of knowledge both within universities and for society more generally must be understood as a reflection of the larger changes in the constitutive social structures within which they are invariably produced translated and reproduced

Political Change and Environmental Policymaking in Mexico Jordi Diez, 2013-10-31 This book explores environmental policymaking in Mexico as a vehicle to understanding the broader changes in the policy process within a system undergoing a democratic transformation It constitutes the first major analysis of environmental policymaking in Mexico at the national level and examines the implementation of forestry policy in Mexico's largest rain forest the Selva Lacandona of the state of Chiapas
