Crowe,2016-09-23 In this fully updated edition with a new foreword by Andre Liebich David M Crowe provides an overview of the life history and culture of the Gypsies or Roma from their entrance into the region in the Middle Ages up until the present drawing from previously untapped East European Russian and traditional sources **The Foreign Policies of Eastern Europe: Domestic and International Determinants** J.A. Kuhlman,2024-12-09 *Poland and the Western Powers 1938-1938* Anna M. Cienciala,1968-12-15 This study has two objectives The first is to explain the nature and historical roots of the problems facing Polish foreign policy in 1938 39 and the manner in which they were approached by the men who shaped and directed Polish diplomacy The second is to illustrate the political interdependence in these years of Eastern and Western Europe This interdependence hinged on the German problem The attitude of France and Britain towards Poland and Eastern Europe as a whole was primarily a reflection of their policy towards Germany at the same time this policy was the decisive factor in the individual reactions of Germany s eastern neighbours to the threat of resurgent German power As far as Poland was concerned she not only had to strive to avert the danger of German revisionism the realization of which would have made her a vassal of Berlin but she also had to consider the possibility of Soviet expansion at her expense This study is however primarily concerned with Polish attempts to obtain security with regard to Germany and in the period in question this was the main objective of Polish diplomacy **Poland, a Country Study** United States. United States. Congress. House. Committee on the Judiciary,1963 *Weak States in the International System* Michael I. Handel,1990 This work defines weak states and their strengths and weaknesses It examines why they are weak and their position in different international systems as well as their economic positions *Between The Revolution And The West* Hugh D. Phillips,2019-09-19 This is the first complete biography of Maxim Litvinov a Bolshevik revolutionary who began his professional life running guns into Tsarist Russia and eventually became the leading Soviet diplomat in the turbulent 1930s

His was a spectacular career spanning some of the most dramatic decades of the twentieth century and including an unsuccessful effort to contain Hitler with the cooperation of the Western Allies Litvinov's subsequent replacement as Soviet foreign minister by Molotov in 1939 signaled the dramatic shift in Soviet foreign policy that led directly to the outbreak of World War II After the war Litvinov's final public act was to bluntly warn the West of the danger presented by Stalin's cold war policies a threat Litvinov even dared to compare with that posed by Hitler a decade earlier Litvinov's career ended in the relative obscurity from which it had sprung his consistently pro-Western policies no longer consonant with the reemerging Soviet hostility toward the West Passing away from remarkably natural causes in 1951 Litvinov left behind a political legacy that lay dormant for forty years until its recent revival by Mikhail Gorbachev

Between the Revolution and the West is based on extensive research in the Soviet Union and the West including previously unavailable archives and interviews with Litvinov's friends and family Hugh Phillips work casts light not only on Litvinov the man but also on Soviet foreign policy during crucial and dramatic times

National Identities in Soviet Historiography Harun Yilmaz, 2015-02-20 Under Stalin's totalitarian leadership of the USSR Soviet national identities with historical narratives were constructed These constructions envisaged how nationalities should see their imaginary common past and millions of people defined themselves according to them This book explains how and by whom these national histories were constructed and focuses on the crucial episode in the construction of national identities of Ukraine Azerbaijan and Kazakhstan from 1936 and 1945 A unique comparative study of three different case studies this book reveals different aims and methods of nation construction despite the existence of one party rule and a single overarching official ideology The study is based on work in the often overlooked archives in the Ukraine Azerbaijan and Kazakhstan By looking at different examples within the Soviet context the author contributes to and often challenges current scholarship on Soviet nationality policies and Stalinist nation building projects He also brings a new viewpoint to the debate on whether the Soviet period was a project of developmentalist modernization or merely a renewed Russian empire The book concludes that the local agents in the countries concerned had a sincere belief in socialism especially as a project of modernism and development and at the same time were strongly attached to their national identities Claiming that local communist party officials and historians played a leading role in the construction of national narratives this book will be of interest to historians and political scientists interested in the history of the Soviet Union and contemporary Eastern Europe the Caucasus and Central Asia
