INTRO: LO STUDIO DELLA POLITICA E DELLA SOCIETÀ

Il padre della sociologia politica può essere considerato Weber, ovvero colui che ha meglio saputo coniugare il fenomeno sociologico con la politica. Ci sono tre temi importanti per la sociologia politica:

- A. L'interesse per le credenze, quindi la percezione pubblica e quello che la gente pensa e/o crede. Per esempio la sociologia politica studia la fiducia o meno degli individui verso le istituzioni e quali. In questo caso quindi si parte dall'atteggiamento della società e dagli individui che la compongono per spiegare i fenomeni politici. Oggi si parla di empowerment dei cittadini grazie alle piattaforme di social media: il web e più in particolare le piattaforme di social media hanno consentito un aumento del potere comunicativo dal basso.
- B. Le relazioni di potere, la sociologia politica cerca di non mettere mai tra parentesi le asimmetrie di potere in questa lotta continua per i principi di visione e di divisione. Il potere qui lo definiamo come la capacità simmetrica di influenzare delle decisioni anche contro la volontà di colui che le accetta. Queste relazioni di potere sono sempre presenti e portano alle diverse capacità di immettere un nuovo tema nell'agenda o di inserire un nuovo frame. La politica è un'attività o il processo attraverso cui determinati gruppi raggiungono e applicano decisioni vincolanti che incidono sulla collettività nel suo complesso.
- C. Linee di divisione del mondo sociale, nel momento in cui queste vengono attivate politicamente dalle élite politiche; la sociologia politica infatti si interessa appunto della relazione tra società e politica, questo è quindi uno dei casi più interessanti analizzati dalla materia, quando una relazione di tipo sociale viene attivata politicante.

La politica è il processo attraverso cui determinati gruppi raggiungono e applicano decisioni vincolanti che incidono nella collettività nel suo complesso. C'è un'altra visione di politica portata avanti da Bonieu, sociologo importante nella Francia del '900, il quale la definisce come una lotta per i principi di visione e di divisione del mondo sociale.

La politica essendo un concetto poliedrico presenta almeno tre facce:

- C.1. rimanda alla dimensione procedurale della politica: il controllo delle istituzioni, la competizione elettorale, le alleanze politiche. La lotta per il potere risente di un duplice fenomeno: da un lato il declino delle ideologie tradizionali, dall'altro lo sviluppo della personalizzazione della politica.
- C.2. richiama la cornice istituzionale; essa allude anche alla questione dell'identità della cultura politica che lega i cittadini alla comunità stessa. Lo stato è la polity per definizione, ma le politics sono anche sub e sovranazionali.
- C.3. è l'output del sistema politico: le politiche pubbliche. Sono quindi le azioni della politica che escono dai luoghi del potere.

Lo studio della politica appare quindi intrinsecamente intrecciato allo studio della società: le scienze sociali sono fondamentali per capire la sfera politica e le scienze politiche per comprendere la sfera sociale.

Votare, protestare, impegnandosi partendo dal basso (bottom – up) sono azioni che a loro volta si diverberano verso l'alto (top – down). Importante tenere in considerazione che il voto e le altre forme di partecipazione, si sviluppano in un contesto socioculturale in continuo cambiamento: il processo di individualizzazione che indebolisce le ideologie in primis; o basti pensare alla globalizzazione. Nella fase attuale per esempio si osserva un giudizio negativo da parte dei governati verso i governanti, e questo approccio porta alla delegittimazione delle istituzioni politiche. A questo proposito vi è una sorta di paradosso: da un lato è cresciuto il numero il numero di paesi che abbracciano i principi democratici, i

sistemi democratici suscitano, nei cittadini che ci vivono, sentimenti di insoddisfazione con particolare riferimento al funzionamento concreto e alla qualità del processo democratico. Si pensi al fenomeno del neopopulismo, ai sentimenti antipolitici diffusi nella società. Il ciudadino critico, va ricordato, non rifiuta la democrazia ma critica la politica in termini di attori della rappresentanza, delle loro performance. La politica dunque è un qualcosa che

Conflict, Power, and the Landscape of Constitutionalism Gilles Tarabout, Ranabir Samaddar, 2020-11-29 The book seeks to critically examine the implication of a constitution of law for a political society It presents a collection of essays that seek to investigate how power acts on power how limits produce excess how separation of powers produces the union of powers sanctified by the very constitution that had guaranteed the division in the first place and how the theory of separation is at the same time a myth and a reality At the backdrop of the book of course is the theory that every good constitution rigorously separates the legislature the executive and the judiciary from one another to guarantee the independence of each of these powers such that this separation results in life liberty and security If a constitution however symbolises and produces power precisely because it separates one site of power from another it follows that it is power itself that is the limit of power Constitutionalism as a political culture of laws therefore must explain the dynamics of power The book addresses both constitutions and the societies in which they emerge Many of the essays in this collection show how institutional practices originating from a legal text create a matrix of power that owes its life neither to a contract between men nor between the state and men nor even between the society and men but rather to relations established organized and formalized by laws The collection is significant because it gives colonial and post colonial experiences a justified place in studies of law and constitutionalism for it shows that while Montesquieu Kant and Burke each in their own way were promoting the spirit of laws a more significant history of law making was being enacted in order to defend a particular rule and a particular type of government on another side of the world Based on comparative studies in several countries across three continents the book centrally deals with issues of constitutionalism politica
