Political Communication Yearbook 1984 Political Communication Yearbook:

Political Communication Yearbook, 1984 Keith R. Sanders, Lynda Lee Kaid, Dan D. Nimmo, 1985 Although political communication is a relatively new academic discipline it is rapidly assuming a mature role in scholarship The editors present examples of that scholarship in this book Three areas of political communication in the 1980s that capture the rich variety of problems techniques controversies and literature are included Current Perspectives on the Spiral of Silence Computers and Political Communication Analyses and Applications which examines ways in which computer technology helps to shape what we learn and how we apply political communication and Dimensions of Political Communication Analysis in the 1980s which presents six essays on current theory and research *Campaigns and Conscience* Philip Seib, 1994-03-30 Seib examines the ethical issues underlying the volatile relationship between journalists and politicians It provides an inside look at how reporters and candidates do their jobs From the screening process news organizations use to decide which candidates to cover to the truth testing of political ads to the controversies surrounding election night projections this work articulates crucial ethical questions and helps readers in their search for answers As a political communications text *Campaigns and Conscience* looks at the many facets of political journalism what reporters need to know before covering a campaign how to approach the character issue how to keep up with the frantic pace of a campaign why campaign ads should be covered as news the allure and dangers of polls projections and endorsements and the responsibility of the press to cover one of the most powerful quasi political institutions the press itself **The Lynching of Language** Sandra L. Ragan, 1996

Resources in Education, 1985 Presidential Crisis Rhetoric and the Press in the Post-Cold War World Jim A. Kuypers, 1997-08-26 Kuypers combines rhetorical theory and framing analysis in an examination of the interaction of the press and the president during international crisis situations in the post Cold War world Three crises are examined Bosnia Haiti and the North Korean nuclear capability issue Kuypers effectively demonstrates the changed nature of presidential crisis rhetoric since the end of the Cold War Kuypers employs a new historical critical approach to analyze both the press and the Clinton administration's handling of three international crisis situations Using case studies of Bosnia Haiti and the alleged North Korean nuclear buildup in 1993 he examines contemporary presidential crisis communication and the agenda setting and agenda extension functions of the press The importance of this study lies in its timeliness President Clinton is the first atomic age president not to have the Cold War meta narrative to use in legitimating international crises Prior studies in presidential crisis rhetoric found that the president received broad and consistent support during times of crisis Kuypers found that the press often advanced an oppositional frame to that used by the Clinton administration The press frames were found to limit the options of the President even when the press supported a particular presidential strategy This is a major study that will be of interest to scholars and researchers of the press the modern presidency and American foreign policy

Press Bias and Politics Jim A. Kuypers,2002-09-30 Kuypers charts the potential effects the printed presses and broadcast media have upon the messages of political and social leaders when they discuss controversial issues Examining over 800 press reports on race and homosexuality from 116 different newspapers Kuypers meticulously documents a liberal political bias in mainstream news This book asserts that such a bias hurts the democratic process by ignoring non mainstream left positions and vilifying many moderate and most right leaning positions leaving only a narrow brand of liberal thought supported by the mainstream press This book argues that the mainstream press in America is an anti democratic institution By comparatively analyzing press reports as well as the events that occasioned the coverage Kuypers paints a detailed picture of the politics of the American press He advances four distinct reportorial practices that inject bias into reporting offering perspectives of particular interest to scholars students and others involved with mass communication journalism and politics in the United States

Videostyle in Presidential Campaigns Anne Johnston,Lynda Kaid,2000-10-30 Since 1952 when Eisenhower s media consultants decided they could warm up the General s personality and overcome selective exposure by using short spots on television advertising has played a major role

in American presidential campaigns By the late 1990s candidates and their political parties spend hundreds of millions on TV ads Political spots have become the dominant form of communication between voters and candidates Kaid and Johnston report the results of a systematic and thorough analysis of virtually all of the political commercials used in general election campaigns from 1952 through the 1996 presidential contest Important to scholars students and other researchers involved with political communications mass communications and presidential elections

The Inaugural Addresses of Twentieth-Century American Presidents Halford Ryan, 1993-06-30 The essays in Halford Ryan's *The Inaugural Addresses of Twentieth Century American Presidents* explore how presidents have used their addresses to empower themselves in office The volume's construct holds that the president delivers persuasive speeches to move the Congress and the people and to move the people to move the Congress if it is intransigent Even on Inauguration Day a largely ceremonial occasion the president seeks acquiescence and action from Congress and the people in his first rhetorical deed as the nation's chief executive officer Since scholars agree that the rhetorical presidency arose in the twentieth century with Theodore Roosevelt the book commences with Roosevelt's address followed by all subsequent presidents' inaugurals including that of Bill Clinton The authors' methodology applies classical rhetoric to the nexus of political discourse the interrelationships between the speaker the speech and the audience discussing *vox populi* *elocutio* *inventio* and *actio* Each of the chapters analyzes the political situation with regard to political purpose giving special attention to genre criticism and to the themes of campaign rhetoric that were or were not carried forth into the inaugural address The essayists explicate the evolution of each inaugural's preparation criticize its delivery and evaluate its persuasive strengths and weaknesses by accounting for its reception by the media and by the American people Recommended for scholars of political communication and rhetoric political science history and presidential studies

Continuity and Change in the Rhetoric of the Moral Majority W David Snowball, 1991-03-30 The persuasive strategies employed by the Moral Majority in the early 1980s reassured and calmed a segment of the American population left confused and uncertain by recent national events David Snowball analyzes this powerful movement how its rhetoric energized its supporters the positions it endorsed and causes it championed and its response to political and media critics By examining the fundamental messages the tactics used and the personalities involved the study reveals that while the basic message of the Moral Majority remained constant its changing popular image and maturing rhetoric which initially added momentum to its rapid rise may also have been at the root of its swift decline by the end of the decade While tracing the movement's origins Snowball investigates in depth the American people's reaction to the influence of the Moral Majority He subsequently reviews its founding tenets and the language typically used to encourage its disciples A look at the specific issues which polarized critics and followers exposes the reasons for the movement's collapse and poses questions regarding its future Although the primary focus of this study is the history of the Moral Majority the analysis also provides valuable insight into the nature of the American political system's response to religiously motivated

Mutz, 1998-11-28 People's perceptions of the attitudes and experiences of mass collectives are an increasingly important force in contemporary political life In *Impersonal Influence* Mutz goes beyond simply providing examples of how impersonal influence matters in the political process to provide a micro level understanding of why information about distant and impersonal others often influence people's political attitudes and behaviors *Impersonal Influence* is worthy of attention both from the standpoint of its impact on contemporary politics and because of its potential to expand the boundaries of our understanding of social influence processes and media's relation to them The book's conclusions do not exonerate media from the effects of inaccurate portrayals of collective experience or opinion but they suggest that the ways in which people are influenced by these perceptions are in themselves not so much deleterious to democracy as absolutely necessary to promoting accountability in a large scale society *The International Encyclopedia of Media Effects, 4 Volume Set* Patrick Rössler, 2017-03-06 The International Encyclopedia of Media Effects presents a comprehensive collection of the most up to date research on the uses and impacts of media throughout the world Provides the definitive resource on the most recent findings of media effects research Covers all aspects of the uses and impact of media utilizing empirical psychological and critical research approaches to the field Features over 200 entries contributed by leading international scholars in their associated fields Offers invaluable insights to for students scholars and professionals studying and working in related fields and will stimulate new scholarship in emerging fields such as the Internet Social Media and Mobile Communication Part of The Wiley Blackwell ICA International Encyclopedias of Communication series published in conjunction with the International Communication Association Online version available at Wiley Online Library **Branding the Candidate** Lisa D. Smith,Kathy B. Smith,1994-04-11 This work treats presidential leadership as persuasive communication The major

theories of presidential leadership found in the literature establish the central role of persuasion and introduce the interpretive systems approach to political communication as a theoretical framework for the study of presidential leadership as persuasion Case studies examine recent presidents use of public persuasion to perform their leadership functions Particular attention is devoted to coalitional constraints on presidential pardoning rhetoric presidential leadership through the politics of division the political significance of conflicting political narratives the sermonic nature of much 20th century presidential discourse the difficulties inherent in persuading the public to make sacrifices and the dangers of relying too heavily on public rhetoric The concluding chapter considers the rhetoric that contributed to the demise of the Bush presidency the election of Bill Clinton and the challenges facing the Clinton presidency *Grim Fairy Tales* Lisa M.
