Korea's Economic Miracle Robert Castley,2016-07-27 Very few developing countries have successfully industrialised Many are under pressure from international organisations to achieve self sustainable industrialisation This is why Korea s case is particularly interesting There have been many attempts to explain the causes of Koreas economic miracle These have focused mainly on the internal factors such as the discipline of the Korean workforce and export promotion policies The present study however shows that these factors contributed to Korea s impressive growth but do not explain the reasons for her success External factors have been more important the Japanese economy in particular This book examines therefore in detail the impact of Japan s economic growth on the Korean economy in particular the stimulating effects of trade sub contracting relocation of industry investment loans and technology transfer It demonstrates how Japan provided a range of goods services and capitals which were precisely what the newly industrialising country needed , [Handbook of the International Political Economy of Energy and Natural Resources](#) Andreas Goldthau,Michael F. Keating,2018-01-26 This Handbook offers a comprehensive overview of the latest research from leading scholars on the international political economy of energy and resources Highlighting the important conceptual and empirical themes the chapters study all levels of governance from global to local and explore the wide range of issues emerging in a changing political and economic environment *The International Political Economy of Intellectual Property Rights* Meir Perez Pugatch,2004-01-01 This book is a substantial contribution to the discussion on trade related intellectual property rights It provides a clear step by step in depth analysis of the TRIPS agreement particularly as it relates to the European pharmaceutical industry Politics law and economics are judiciously blended Meir Pugatch s work should be read not just by academic experts and students in the field but also by trade policy and IPR practitioners interested in an accessible policy relevant treatment of the issues at hand Razeen Sally London School of Economics and Political Science UK This book investigates the realm of intellectual property rights IPRs within the context of international political economy In particular it examines the extent to which powerful interest groups such as pharmaceutical multinational companies influence the political dynamism underlying the field of IPRs Meir Perez Pugatch argues that a pure economic approach does not provide a sufficient or satisfactory explanation for the creation of intellectual property rights most notably patents The author instead suggests that a dynamic approach based on the international political economy of interest groups and systemic outcomes provides a better starting point for explaining how the international intellectual property agenda is determined **The Modernization of Agriculture** Carlos Pomareda,1992 **A Political Economy Analysis of China's Civil Aviation Industry** Mark Dougan,2016-04-29 First

published in 2002 This volume is a political economy analysis of China's civil aviation industry with a focus on the reform period beginning in the late 1970s up to the present The chief aim is to identify and analyze the most important political economy variables impacting on the industry's development during this time *Telecommunications Industry in India* Dilip Subramanian, 2017-08-04 Telecommunications Industry in India represents the first comprehensive study of a state run enterprise in the telecommunications industry The study traces over a period of half a century 1948-2009 the growth and decline of Indian Telephone Industries ITI At the heart of the monograph stands one central interrogation How does the socio technical system of production in a state controlled firm shape the relations linking the four main actors the state management union and workers The original contribution of this book lies in combining business history and labour history within a single conceptual framework The author evaluates the broader conclusions about the telecommunications industry and public sector through the lens of an individual firm to arrive at a more nuanced understanding of the dynamics of change in the globalizing Indian economy The work is well in command of the literature on the global business history counterparts of ITI in the telecommunications industry It is further strengthened by the use of French material on the subject which is now accessible for the first time in English Please note Taylor Francis does not sell or distribute the Hardback in India Pakistan Nepal Bhutan Bangladesh and Sri Lanka **Proceedings of the Seminar** , *The Political Economy of Pharmaceutical Patents* Sherry S. Marcellin, 2016-02-24 This book provides a fresh multidisciplinary and exciting look at the making and remaking of pharmaceutical patents at the GATT WTO by utilising a Coxian political economy of continuity and change in the global political economy GPE Marcellin focuses on the role of the transnational drug industry in the making of the patent provisions in the original TRIPS Agreement and consequently the role of the African Group at the WTO in the remaking of those patent provisions *International Political Economy Yearbook* W. Ladd Hollist, 2020-01-29 The International Political Economy Yearbook will be published annually under the sponsorship of the International Political Economy Section of the International Studies Association at the Department of Political Science Brigham Young University The intent of the series is to describe and explain the structure and the dynamic operation of the international political economy and to explore their political social and economic impact on different countries be they advanced market economies newly industrializing countries or underdeveloped countries This first volume is an overview of the policy and research field of international political economy studies It explores what international political economy is what approaches and theories might broaden and deepen our understanding of the phenomena addressed what perspectives seem inappropriate or misdirected and why neither international relations scholars nor mainstream economists can any longer claim status as senior partners in the community of scholars and policymakers interested in these issues It also addresses major policy problems confronting both advanced and developing countries including commodity trade foreign investment regulation of multinational corporations food shortages and other development problems industrial crises in the United States and Europe international debt and the

Unpacking the International Technology Transfer Debate Padmashree

Sampath, Pedro Roffe, 2013 This paper captures the political economy of technology transfer negotiations since the 1960s to address two key questions The first question is whether the debates cater to country level technological needs in developing countries To find answers to this the paper critically reviews the progress made in understanding the role of technology and innovation capacity for economic development over the past decades and whether these find a place in the negotiations and deliberations as we have them today The second question that the paper seeks to address is more forward looking with a view to make a constructive contribution towards resolving some of the most longstanding issues in technology transfer How and through what ways can international discussions on technology transfer be made to reflect the lessons learned up until now on how countries build technological capabilities and the challenges posed by the changing global environment for knowledge and technology The analysis places a particular emphasis on the technology transfer intellectual property rights IPRs nexus which in many ways has been at the heart of the international discourse on technology transfer The authors conclude by identifying the main issues that remain outstanding in this discourse and propose some thoughts for the way forward

Developing the Rivers of East and West Africa Heather J. Hoag, 2013-09-12

How did rivers contribute to the economic and political development of modern Africa How did African and European notions of nature's value and meaning differ And how have these evaluations of Africa's rivers changed between 1850 and the present day Drawing upon examples from across the African continent Developing the Rivers of East and West Africa explores the role African waterways played in the continent's economic social and political development and provides the first historical study of the key themes in African river history Rivers acted as more than important transportation byways their waters were central to both colonial and postcolonial economic development efforts This book synthesizes the available research on African rivers with new evidence to offer students of African and environmental history a narrative of how people have used and engaged the continent's water resources It analyzes key themes in Africa's modern history European exploration establishment of colonial rule economic development green politics and each case study provides a lens through which to view social economic and ecological change in Africa
