Understanding Poverty and the Environment Fiona Nunan, 2015-03-27 Does poverty lead to environmental degradation Do degraded environments and natural resources lead to poverty Or are there other forces at play Is the relationship between poverty and the environment really as straightforward as the vicious circle portrayal of poverty leading to environmental destruction leading to more poverty would suggest Does it matter if the relationship is portrayed in this way This book suggests that it does matter Arguing that such a portrayal is unhelpful and misleading the book brings together a diverse range of analytical frameworks and approaches that can enable a much deeper investigation of the context and nature of poverty environment relationships Analytical frameworks and approaches examined in the book include political ecology a gendered lens Critical Institutionalism the Environmental Entitlements framework the Institutional Analysis and Development approach the Sustainable Livelihoods Framework wellbeing analysis social network analysis and frameworks for the analysis of the governance of natural resources Recommended further reading draws on published material from the last thirty years as well as key contemporary publications giving readers a steer towards essential texts and authors within each subject area Key themes running through the analytical frameworks

and approaches are identified and examined including power access institutions and scale Political Ecology Paul Robbins,2011-11-01 This fully updated new edition introduces the core concepts central thinkers and major works of the burgeoning field of political ecology Explores the key arguments and contemporary explanatory challenges facing the sub discipline Provides the first full history of the development of political ecology over the last century and its theoretical underpinnings Considers the major challenges facing the field now and for the future Study boxes introduce key figures in the development of the discipline and summarize their most important works Fully updated to include recent events such as the Gulf of Mexico Oil Spill as well as both urban and rural examples from the developed and underdeveloped world

Third World Political Ecology Sinead Bailey,Raymond Bryant,2005-08-08 An effective response to contemporary environmental problems demands an approach that integrates political economic and ecological issues Third World Political Ecology provides an introduction to an exciting new research field that aims to develop an integrated understanding of the political economy of environmental change in the Third World The authors review the historical development of the field explain what is distinctive about Third World political ecology and suggest areas for future development Clarifying the essentially politicised condition of environmental change today the authors explore the role of various actors states multilateral institutions businesses environmental non governmental organisations poverty stricken farmers shifting cultivators and other grassroots actors in the development of the Third World s politicised environment Third World Political Ecology is the first major attempt to explain the development and characteristics of environmental problems that plague parts of Asia Africa and Latin America Drawing on examples from throughout the Third World the book will be of interest to all those who wish to understand the political and economic bases of the Third World s current predicament **When**

"conservation" Leads to Land Degradation Lesterlin, G., Giordano, Mark, Keohavong, G.,2005 In this report we test the hypothesis that the primary factors behind the farming system changes in Ban Lak Sip lay not in the village itself but rather in the broader Laotian social economic and political setting The study uses an integrated approach that examines both the physical and social dimensions of land use and soil erosion in Ban Lak Sip within this broader system environment *The Theoretical Evolution of International Political Economy, Third Edition* Darel Paul,Abla Amawi,2013-10-03 This collection of seminal readings in international political economy charts the historical and theoretical evolution of the field from the seventeenth century to the present day Bringing together classic works and leading contemporary arguments this book outlines the development of three schools of IPE thought Economic Nationalism Liberalism and Marxism while also including theoretical perspectives beyond the dominant traditions The third edition not only retains but increases the number of classic works from the previous editions while also updating the reader with contemporary writings reflecting the most important recent theoretical developments in the field It also incorporates new theoretical terrains with sections on feminist and Green IPE as well as a wholly new introduction Readings include works by Thomas Mun Adam Smith David Ricardo John Stuart Mill

Alexander Hamilton Friedrich List Karl Marx Friedrich Engels V I Lenin Karl Kautsky Robert Keohane Andrew Moravcsik Robert Wade Benjamin Cohen Robert W Cox Giovanni Arrighi Roland Vaubel Ronald Rogowski Michael Hardt Antonio Negri Marieke de Goede Ann Tickner Spike Peterson Eric Helleiner and Alf Hornborg Providing many of the most frequently cited IPE references in a single volume the third edition of *The Theoretical Evolution of International Political Economy* continues to be an essential resource for students of both international relations and international economics **The Theoretical Evolution of International Political Economy, Third Edition** Darel E. Paul, Abla Amawi, 2013-09-16 This collection of seminal readings in international political economy charts the historical and theoretical evolution of the field from the seventeenth century to the present day Bringing together classic works and leading contemporary arguments this book outlines the development of three schools of IPE thought Economic Nationalism Liberalism and Marxism while also including theoretical perspectives beyond the dominant traditions The third edition not only retains but increases the number of classic works from the previous editions while also updating the reader with contemporary writings reflecting the most important recent theoretical developments in the field It also incorporates new theoretical terrains with sections on feminist and Green IPE as well as a wholly new introduction Readings include works by Thomas Mun Adam Smith David Ricardo John Stuart Mill Alexander Hamilton Friedrich List Karl Marx Friedrich Engels V I Lenin Karl Kautsky Robert Keohane Andrew Moravcsik Robert Wade Benjamin Cohen Robert W Cox Giovanni Arrighi Roland Vaubel Ronald Rogowski Michael Hardt Antonio Negri Marieke de Goede Ann Tickner Spike Peterson Eric Helleiner and Alf Hornborg Providing many of the most frequently cited IPE references in a single volume the third edition of *The Theoretical Evolution of International Political Economy* continues to be an essential resource for students of both international relations and international economics **Geoenvironment, An Introduction** U. Aswathanarayana, 2018-12-19 The focus of this book is on the management of the geoenvironment It seeks to explain how through an understanding of the environmental processes that take place in rocks soils waters sediments air and so on the resources contained in them could be managed sustainably Topics covered in the book include Ecologically sustainable industrial development dynamics of the geoenvironment the impact of mining on rocks soils water and biota the natural radiation environment the use of geotechnology to mitigate the consequences of natural disasters and the disposal of various kinds of waste particularly hazardous waste The models proposed by the World Bank on how to make environmental amelioration economically viable are also looked at **Natural Resource Policymaking in Developing Countries** William Ascher, Robert G. Healy, 1990 Drawing on case studies developed over a two year period 1987-1989 by Fellows in the Program in International Development Policy at Duke University including experienced representatives from developing countries the World Bank and scholars the authors integrate the growing interest in environmental protection and resource conservation into the existing body of knowledge about the political economy of developing countries This book is about the links that tie resource use environmental quality and economic development and the way in which those links are

affected by the distribution of income and resource ownership The links may be relatively simple as in the case of peasant farmers too poor to conserve resources for the future and with nothing to gain from sound environmental practices Or they may be very complex as the authors find when they demonstrate how achievement of higher incomes by the rich can increase environmentally destructive behavior by the poor Many of the links in some way involve rural land use whether for agriculture or forestry Natural Resource Policymaking in Developing Countries argues that the policies that matter are not merely those dealing with resources and the environment but a much broader set that includes income distribution and asset ownership

Structural Adjustment Ed Brown, Bob Milward, Giles Mohan, Alfred B. Zack-Williams, 2013-04-15 Structural Adjustment Theory Practice and Impacts examines the problems associated with Structural Adjustment Programmes SAPs and reveals the damaging impacts they can have The book looks at how the debt crisis of the 1970 s forced developing countries to seek external help and then reviews what constitutes as a standard adjustment programme detailing the political economic social and environmental impacts of SAPs The final section draws together theories and political responses and presents a case for alternatives to the programmes
