Kainulainen,2014-03-13 This book is an intellectual biography of the Venetian historian and theologian Paolo Sarpi 1552 1623 It analyses Sarpi s natural philosophy religious ideas and political thought Kainulainen argues that Sarpi was influenced by Neostoicism Neoepicureanism and the sixteenth century scientific revolution that Sarpi was a fideist and Christian mortalist who while critical of the contemporary Church of Rome admired the purity of the early church Focusing on Sarpi s separation between church and state his use of absolutism divine right of kings and reason of state the book offers a fresh perspective on medieval and reformation traditions It will be of interest to those interested in early modern intellectual history and the interplay between science religion and politics in sixteenth and seventeenth century political discourse

The Romanesque Revival: Religion, Politics, and Transnational Exchange ,2003 *The Privatized State* Chiara Cordelli,2020-11-24 Why government outsourcing of public powers is making us less free Many governmental functions today from the management of prisons and welfare offices to warfare and financial regulation are outsourced to private entities Education and health care are funded in part through private philanthropy rather than taxation Can a privatized government rule legitimately The Privatized State argues that it cannot In this boldly provocative book Chiara Cordelli argues that privatization constitutes a regression to a precivil condition what philosophers centuries ago called a state of nature Developing a compelling case for the democratic state and its administrative apparatus she shows how privatization reproduces the very same defects that Enlightenment thinkers attributed to the precivil condition and which only properly constituted political institutions can overcome defects such as provisional justice undue dependence and unfreedom Cordelli advocates for constitutional limits on privatization and a more democratic system of public administration and lays out the central responsibilities of private actors in contexts where governance is already extensively privatized Charting a way forward she presents a new conceptual account of political representation and novel philosophical theories of democratic authority and legitimate lawmaking The Privatized State shows how privatization undermines the very reason political institutions exist in the first place and advocates for a new way of administering public affairs that is more democratic and just

State Ideology and Language in Tanzania Jan Blommaert, 2014-07-16 Tanzania is often seen as an exceptional case of successful language planning in Africa with Swahili being spread to all corners of the country Yet this objective success has always been accompanied by a culture of complaints proclaiming its utter failure State Ideology and Language in Tanzania sets out to explore this paradox through a richly documented historical sociolinguistic and anthropological approach covering the story of Swahili from the early days of independence until today Focusing on the ways in which Swahili was swept up in the Ujamaa revolution the transition to socialism led by president Nyerere Jan Blommaert demonstrates how the language became an emblem not just of the Tanzanian cultural nation but above all of the political nation Using Swahili meant the acceptance of socialism and the spread of Swahili across the country should equal the spread of Ujamaa socialism When this did not happen the verdict of failure was proclaimed on Swahili which did not prevent the language from becoming one of the most widely used and dynamic languages on the continent This book is a thoroughly revised version of the 1999 edition which was welcomed at the time as a classic It now extends the period of coverage to 2012 and includes an entirely new chapter on current developments making this updated edition an essential read for students and scholars in language linguistics and African Studies
