Social Change and Political

Culture Gheorghe Fulga, 2005 *Political Protest and Social Change* C. Andrain, D. Apter, 1994-12-19 This book probes three issues about the linkage between political protests and social change First why do individuals participate in protest activities including nonviolent movements and revolutions How do cultural beliefs sociopolitical structures personal attitudes motives and perceptions shape the decision to participate Second why do participants choose certain tactics Protesters use different types of tactics violent vs nonviolent public vs covert organized vs spontaneous and confrontation vs accommodation with other groups political parties and government agencies Most activists view a particular tactic as a useful means to attain their policy demands Third what policy consequences emerge from the activities of protest movements The book explores the impact of protests on social change and on the distribution of political power particularly greater access of subordinate groups to government policymakers A theory of political opportunities helps explain these issues about the origins activities and outcomes of protests Political Institutions and Public Policy B. Steunenberg, F. van Vught, 2012-12-06 The discipline of public administration and public policy is experiencing a renaissance of research in which explicit attention is paid to political institutions This renewed interest in institutions is not simply an extension of the classical paradigm in the study of public administration which peaked in the 1920s and 1930s but offers a new orientation on political institutions While classical institutionalism is known for its focus on the formal structures of the executive branch of government the new institutionalism concentrates on the interaction between political institutions and the behavior of policy makers This interaction which until recently was largely neglected in public administration and public policy forms the basic theme of this volume To advance the study of political institutions two rather basic problems need to be addressed What are institutions and what are adequate ways to analyze them We briefly discuss both questions which determine the structure of this book

Routledge Handbook of Comparative Political Institutions Jennifer Gandhi, Rubén Ruiz-Rufino, 2015-04-10 The Routledge Handbook of Comparative Political Institutions HCPI is designed to serve as a comprehensive reference guide to our accumulated knowledge and the cutting edge of scholarship about political institutions in the comparative context It differs from existing handbooks in that it focuses squarely on institutions but also discusses how they intersect with the study of mass behaviour and explain important outcomes drawing on the perspective of comparative politics The Handbook is organized into three sections The first section consisting of six chapters is organized around broad theoretical and empirical challenges affecting the study of institutions It highlights the major issues that emerge among scholars defining measuring and analyzing institutions The second section includes fifteen chapters each of which handles a different substantive institution of importance in comparative politics This section covers traditional topics such as electoral rules and federalism as well as less conventional but equally important areas including authoritarian institutions labor market institutions and the military Each chapter not only provides a summary of our current state of knowledge on the topic but also advances claims that emphasise the research frontier on the topic and that should encourage greater investigation The final section

encompassing seven chapters examines the relationship between institutions and a variety of important outcomes such as political violence economic performance and voting behavior The idea is to consider what features of the political sociological and economic world we understand better because of the scholarly attention to institutions Featuring contributions from leading researchers in the field from the US UK Europe and elsewhere this Handbook will be of great interest to all students and scholars of political institutions political behaviour and comparative politics Jennifer Gandhi is Associate Professor Department of Political Science Emory University Rub n Ruiz Rufino is Lecturer in International Politics Department of Political Economy King s College London
