Political Leadership In Sierra Leone:

Political Leadership in Sierra Leone John R. Cartwright, 1978-12-15 In an age when men have come to believe that their destinies can be determined by human actions rather than by fate the question looms large of what a leader can do to fulfill the aspirations of those looking for guidance Since the political arena is one involving the use of power the position of the political leader in particular has become the focus for men's hopes and fears This book is a case study of the effect that different forms of political leadership can have upon the shaping of a single state It focuses upon two successive Prime Ministers of the Small West African state of Sierra Leone Sir Milton Margai and his younger brother Sir Albert Margai By examining their dealings with local political units their handling of ethnic and regional conflicts their attitude of change and their relations with major economic forces the author assesses why both leaders had such different measures of success with their divergent political policies The major findings of this study are that the method that a leader chooses to accomplish his goals can be important to their realisation as the choice of goals themselves and that a leader may find himself committed to a particular course through simply pursuing a line of least resistance Muslim Fula Business Elites and Politics in Sierra Leone

Alusine Jalloh, 2018 The first comprehensive book on the participation of Muslim Fula business elites in the post independence politics of Sierra Leone

Owolabi, 2023 An examination of the divergent developmental legacies of forced settlement and colonial occupation on both sides of the Black Atlantic world The European powers that colonized much of the world over the last few hundred years created a variety of social systems in their various colonies In *Ruling Emancipated Slaves and Indigenous Subjects* Olukunle P. Owolabi explores the divergent developmental trajectories of Global South nations that were shaped by forced settlement where European colonists imported African slaves to establish large scale agricultural plantations or by colonial occupation which resulted in the exploitation of indigenous non white populations Owolabi shows that most forced settlement colonies emerged from European domination with higher levels of education attainment greater postcolonial democratization and favorable human development outcomes relative to Global South countries that emerged from colonial occupation after 1945 To explain this paradox he examines the distinctive legal administrative institutions that were used to control indigenous colonial subjects and highlights the impact of liberal reforms that expanded the legal rights and political agency of former slaves following abolition Spanning three centuries of colonial history and postcolonial development this is the first book to systematically examine the distinctive patterns of state building that resulted from forced settlement and colonial occupation in the Black Atlantic world **Post-War Regimes and State Reconstruction in Liberia and Sierra Leone** Amadu Sesay, Charles Ukeje, 2009 This original study by some of West Africa's leading scholars interrogates post war reconstruction processes in the twin West African countries of Liberia and Sierra Leone focusing on the effects of regime types on the nature scope success or failure of their post war reconstruction efforts

Civil War and Democracy in West Africa David Harris, 2011-12-13 In the aftermath of explosive civil wars in Africa during the 1990s and 2000s the establishment of multi party elections has often been heralded by the West as signaling the culmination of the conflict and the beginning of a period of democratic rule However the outcomes of these elections are very rarely uniform with just as many countries returning to conflict as not Here David Harris uses the examples of Sierra Leone and Liberia to examine the nexus of international and domestic politics in these post conflict elections In doing so he comes to the conclusion that it is political rather than legal solutions that are more likely to enhance any positive political change that has emerged from the violence This book is thus of significance to Western and African policy makers and also to students and scholars who wish to engage with the critical issues of conflict resolution and reconciliation both in Sierra Leone and Liberia in particular and in the wider region in general

Human Security and Sierra Leone's Post-Conflict Development Francis Wiafe-Amoako, 2014-07-22 Achieving security and development in the post conflict era is a challenge with which stakeholders

have to grapple While stakeholders are quick to claim success when physical hostilities cease between the belligerents ensuring sustainable peace has been a daunting task In some countries in Africa the post conflict era is characterized by organizing elections to ensure greater political participation It is believed that elections will begin a process of openness and trust in the governing system A supplement to electoral democracy has been power sharing arrangements used to resolve post election violence and ensure stability within the state However what underlie most conflicts in Africa is the marginalization and lack of an enabling environment to achieve individual life objectives Policies and strategies to achieve security and enhance development post conflict have at best been an extremely slow process and sometimes elusive In Sierra Leone for instance though the official declaration of the end of war and the successful general elections held in 2002 2007 and 2012 have led to some domestic stability developmental targets in the post conflict era have proceeded at a snail s pace The country continues to rank at the bottom of most UNDP human development indicators since 2002 Human Security and Sierra Leone s Post Conflict Development analyzes the extent to which human security issues have been addressed and subsequently implemented in the post conflict reconstruction process While Sierra Leone has made tremendous efforts at implementing reforms in the areas of political sensitization promotion of civil rights and civil liberties as well as personal security the lack on the part of the government to effectively address the unemployment problem has negatively affected security and developmental targets Thus the post conflict management strategies in Sierra Leone fail to secure and promote some aspects of human security leading to fragile peace and slow progress in achieving sustainable security and development Human security is an all encompassing phenomenon and must be addressed to achieve overall wellbeing of the people especially in post conflict environments

An underlying theme of the book is the misrepresentation of the Krio people in Sierra Leone historiography. **Restructuring Sierra Leone** United States. Congress. House. Committee on International Relations. Subcommittee on Africa, 1999. *The Impact of Women's Political Leadership on Democracy and Development* Commonwealth Secretariat, 2013-12-06. Women's minimal leadership role in national and local political spheres remains a serious concern worldwide. The Commonwealth Gender Plan of Action for Gender Equality 2005-2015 calls on governments to introduce measures to promote at least 30 per cent representation of women in parliament, government and business. The Impact of Women's Political Leadership on Democracy and Development describes the barriers to women's political participation and explains why the contribution of women is so crucial to democracy. It identifies established strategies: electoral reform, New Zealand party voluntary quotas, South Africa and legislative quotas, Bangladesh and India, that have helped these Commonwealth countries to meet the global target of 30 per cent and thus to effectively advance the participation of women in decision making at all levels.
