Political Performers:

Political Performances Susan C. Haedicke, 2009 Political Performances Theory and Practice emerges from the work of the Political Performances Working Group of the International Federation for Theatre Research Fédération Internationale pour la Recherche de Théâtre The collection of essays strives to interrogate definitions and expand boundaries of political performance Members of Political Performances are from around the world and so approach the intersection of politics and performance from very different perspectives Some focus on socio political context others on dramatic content others on political issues and activism and still others examine the ways in which communities perform their collective identity and political agency The organizational structure of Political Performances highlights the variety of ways in which politics and performance converge Each section Queries Texts Contexts and Practice frames this confluence according to certain common threads that emerge from essays that deal with topics from the ethics of autobiographical performance the political efficacy of verbatim theatre the challenges of community based performance political and self censorship and the impossibility of representing atrocity The essays challenge existing ideas of political performance and point the way to new approaches Performance, Identity, and the Neo-Political Subject Fintan Walsh, Matthew Causey, 2013-04-17 This book stages a timely discussion about the centrality of identity politics to theatre and performance studies It acknowledges the important close relationship between the discourses and practices historically while maintaining that theatre and performance can enlighten ways of being with others that are not limited by conventional identitarian languages The essays engage contemporary theatre and performance practices that pose challenging questions about identity as well as subjectivity relationality and the politics of aesthetics responding to neo liberal constructions and exploitations of identity by seeking to discern describe or imagine a new political subject Chapters by leading international scholars look to visual arts practice digital culture music public events experimental theatre and performance to investigate questions about representation metaphysics and politics The collection seeks to foreground shared universalist connections that unite rather than divide visiting metaphysical questions of being and becoming and the possibilities of producing alternate realities and relationalities The book asks what is at stake in thinking about a subject a time a place and a performing arts practice that would come after identity and explores how theatre and performance pose and interrogate these questions Political Cyberperformance Christina Papagiannouli, 2016-04-30 Written from a practice based perspective this book focuses on the political character of cyberperformance the genre of digital performance that uses the Internet as a performance space The Etheatre Project comprises a series of experimental cyberperformances aiming to reconsider the characteristics of theatre in the Internet age **Queer Political Performance and Protest** Benjamin Shepard, 2009-09-10 From the birth of the Gay Liberation through the rise of the AIDS Coalition to Unleash Power ACT UP in 1987 the global justice movement in 1994 the largest day of antiwar protest in world history in February 2003 the Republican National Convention protests in August 2004

and the massive immigrant rights rallies in the spring of 2006 the streets of cities around the world have been filled with a new theatrical model of protest Elements of fun creativity pleasure and play are cornerstones of this new approach toward protest and community building No movement has had a larger influence on the emergence of play in social movement activity than the gay liberation and queer activism of the past thirty years This book examines the role of play in gay liberation and queer activism and the ways in which queer notions of play have influenced a broad range of social movements

Perception of Grass Root Democracy and Political Performance G. Palanithurai,1998 Grass root democracy is a fascinating concept at present and is very often used nowadays The functioning of the grassroots democracy largely depends on the congruence of the perception of policy makers at the top of the system and the beneficiaries at the bottom of the subject matter If the leaders at the grass root level understand the spirit of the decentralisation of power in the backdrop of the context the realization of the objectives of the devolution of power will be easier Federalism and Political Performance Ute Wachendorfer-Schmidt,2005-08-08 Federalism and Political Performance features a panel of international experts who compare the political performance of federal and non federal states and evaluate the impact of different types of federation International Political Science Mr. Rohit Manglik,2024-02-14 EduGorilla Publication is a trusted name in the education sector committed to empowering learners with high quality study materials and resources Specializing in competitive exams and academic support EduGorilla provides comprehensive and well structured content tailored to meet the needs of students across various streams and levels International Encyclopedia of Political Science Bertrand Badie,Dirk Berg-Schlosser,Leonardo Morlino,2011-09-07 Developed in partnership with the International Political Science Association this must have authoritative political science resource in eight volumes provides a definitive picture of all aspects of political life **Actors and Activists** David Schlossman,2017-09-25 This scholarly work looks at the issue of politics and performance in America today with particular attention paid to performances produced by activists the NEA Four and Miss Saigon **Phenomenology and the Primacy of the Political** Véronique M. Fóti,Pavlos Kontos,2017-05-11 This volume is a Festschrift in honor of Jacques Taminiaux and examines the primacy of the political within phenomenology These objectives support each other in that Taminiaux s own intellectual itinerary brought him increasingly to an affirmation of the importance of the political Divided into four sections the essays contained in this volume engage with different aspects of the political dimension of phenomenology its dialogue with classic texts of political philosophy the political facets of phenomenological praxis phenomenology s contribution to actual political debates and the impact of Taminiaux s work in the shaping of phenomenology s notion of politics The phrase the primacy of the political echoes the primacy of perception as it was famously defined by Merleau Ponty This book emphasizes however the inescapability of the political rather than its foundational character i e the fact that various itineraries of thought explored in different fields of phenomenological research give rise to politically relevant reflections It points out and elucidates political connotations that haunt

phenomenological concepts such as world self nature intersubjectivity or language and traces them to a broad range of approaches concepts and methods In its explorations the book discusses a broad range of thinkers including but not limited to Aristotle and Kant Bergson Husserl Heidegger Merleau Ponty Gadamer Ricoeur and Arendt

The Media and Political Process Eric Louw, 2010-02-17 How have professional communicators transformed the business of politics How do political bodies use the media to sell domestic and foreign policies to the public This fully revised new edition of *The Media and Political Process* assesses the impact of spin doctoring and media activity in liberal democracies that are just as concerned with impression management and public relations as with policy Political processes never stand still and this revised second edition explores the mediatisation of the political process in light of recent developments from Vladimir Putin's growth into a political celebrity to the activities of spin doctors in the 2008 US Presidential Elections Providing a comprehensive overview of the evolution operation and terminology of political communication this text is an accessible lively resource for students of political communication and media and politics and will be important further reading for students of journalism public relations and cultural studies

The Media and Political Process Dr Eric Louw, 2005-04-18 Has the mediaization of politics played any role in encouraging a growing cynicism and disillusionment with political processes in Western democracies This book examines the increasingly topical subject of the political process and assesses The nature of the relationship between mass media and the political process The impact of media ization on existing political frameworks The implications of media ized politics Eric Louw uses a number of case studies including political celebrity war and terrorism to provide a media studies perspective on how media workers journalists public affairs officers spin doctors impact upon the political process The book also considers the media's role in promoting a range of twentieth century ideologies and emerging dominant discourses It will be important reading for students of Media Politics Cultural Studies Journalism and Public Relations

The Performance of Democracies Edeltraud Roller, 2005-09-29 Is the performance of western democracies in decline Which countries show the best performance Do institutions matter for political performance This book offers a comprehensive analysis of twenty one OECD countries by systematically examining all major domestic policy areas domestic security policy economic policy social policy and environmental policy and using outcome indicators The quality of democracy is assessed both at the level of the four policy areas and at a general level encompassing all policy areas The question of trade offs between policy areas is studied in an unprecedented way and for the first time national types of policy patterns are identified The findings of this book confront widely held assumptions about the performance of democracies Western democracies as a whole did not converge at a lower level of performance and trade offs between different policy areas did not increase The question do institutions matter can only partially be answered in the affirmative Political institutions do matter but formal and informal institutions cause different effects and both matter only sometimes and to a limited degree

The Performance of Democracies is a book with significant theoretical implications It stresses that the effect of institutions is

more complicated than most of the neo institutionalist approaches assume No clear predictions can be made on the basis of institutional factors Consequently it does not support the established assertion that fundamental political problems can simply be resolved through institutional reforms of liberal democracies Comparative Politics as a series for students and teachers of political science that deals with contemporary government and politics The General Editors are Max Kaase Professor of Political Science Vice President and Dean School of Humanities and Social Science International University Bremen Germany and Kenneth Newton Professor of Comparative Politics University of Southampton The series is produced in association with the European Consortium for Political Research

The Constitution of Political Actors Gerardo Damonte, 2008 This book analyzes the processes through which Andean communities have constituted themselves as political actors in the last decade how they have appropriated and created spaces for mobilization while gaining unexpected political agency in the context of globalization It explains and compares the complex constitution of particular political identities in the Bolivian and Peruvian Andes through an ethnographic analysis of three interrelated political developments the conflictive encounters between rural communities and multinational mining corporations the formation of campesino and indigenous national organizations and the constitution of symbolic political discourses in mass protests In developing its argument this study shows how Andean rural communities and organizations appropriate and create local and regional spaces of power contesting dominant constructions of Andean places and regions It traces the emergence of a new form of nationalism from below which aims to control recast and use the State in its struggles against global capital dominance
