Political Thought Of Mori Arinori A Study Of Meiji Conservatism:

The Political Thought of Mori Arinori Alistair Swale, 2000 An alternative interpretation of the Meiji Government's controversial Education Minister and thinker Mori Arinori who developed a workable philosophy of government and administration in line with the pragmatic needs of Japanese society

The Political Thought of Mori Arinori Alistair Swale, 2013-10-23 This new study of the Meiji Government's controversial Education Minister and thinker Mori Arinori seeks to complement Ivan P Hall's excellent earlier biography 1973 by providing an alternative interpretation of the man and his mission namely that he is overwhelmingly closer to the social evolutionist's view of social change with a considerable debt to the writings of Spencer rather than the Utilitarian philosophy of J S Mill In other words Mori was able to develop a workable philosophy of government and administration in line with the pragmatic needs of Japanese society The book therefore will contribute to a radical rethink of Japanese perceptions of the Meiji reforms seen in their own terms

Mori Arinori's Life and Resources in America Arinori Mori, 2004-01-01 Mori notes Where men think that they know everything and boast of their superior wisdom the presumption is that they have yet much to learn Today's readers whether in the United States in Japan or elsewhere who may think they already know so much about the subject will find much of value in *Life and Resources in America* Akira Iriye Harvard University from the foreword Mori Arinori's *Life and Resources in America* was written by the young educated ex samurai the Japanese government selected as its first diplomatic representative in the United States Originally published in English in Washington D C in 1871 this book sheds much light on the shape of an American society government and economy recovering from the Civil War Like earlier philosopher tourists such as Alexis de Tocqueville and Harriet Martineau Mori understands the United States as a stage upon which an important experiment in democracy pluralism and liberalism is unfolding *Life and Resources in America* is distinct for its view from the Reconstruction period and by a non European observer Historian John E Van Sant has annotated and lightly edited this uniquely illuminating text making it readily accessible to the contemporary audience it deserves

Western Political Thought in Dialogue with Asia Cary J. Nederman, Takashi Shogimen, 2008-12-16 Given the rise of globalization and coinciding increase in cultural clashes among diverse nations it has become eminently clear to scholars of political thought that there exists a critical gap in the knowledge of non Western philosophies and how Western thought has been influenced by them This gap has led to a severely diminished capacity of both state and nonstate actors to communicate effectively on a global scale The political theorists area scholars and intellectual historians gathered here by Takashi Shogimen and Cary J Nederman examine the exchange of political ideas between Europe and Asia from the Middle Ages to the early twentieth century They establish the need for comparative political thought showing that in order to fully grasp the origins and achievements of the West historians of political thought must incorporate Asian political discourse and ideas into their understanding By engaging in comparative studies this volume proves the necessity of a cross disciplinary approach in guiding the study of the global history of political

thought *The Meiji Restoration* Alistair D. Swale, 2009-11-04 The Meiji Restoration of 1868 is one of the most astonishing political events of the modern era yet it doesn't fit easily with Western precedents of mass mobilization and social transformation This book challenges some of the preconceptions that have hindered the Restoration being understood on its own terms *Global Spencerism* , 2015-10-27 Today the name most closely associated with evolutionary theory is Charles Darwin Given Darwin's immense reputation it is easy to forget that Herbert Spencer in his time was just as famous as Darwin It turns out that Spencer's evolutionary thought was not what necessarily appealed to many of his readers since they had their own sense of his identity and importance By focusing on Spencer the evolutionist scholars have tended to concentrate their attention on a rather narrow view of him that has come out of Anglo American appropriations of his thought Spencer was one of the first international public intellectuals whose views on psychology religion sociology ethics education and biology captured the imagination of readers all over the world The chapters will cover the communication and appropriation of Spencer's ideas in Russia the Middle East China Japan Mexico Argentina Brazil the United States Italy Scandinavia and France Contributors are Li Bin Juan Manuel Rodriguez Caso Gowan Dawson Heloisa Maria Bertol Domingues Marwa Elshakry Mark Francis G Clinton Godart Michael Gordon Paola Govoni Rosaura Ruiz Gutierrez Hans Henrik Hjermitsev Ricardo Noguera Solano Adriana Novoa Greg Radick Nathalie Richard Ke Zunke Mooring the Global Archive Martin Dusinger, 2023-10-05 Martin Dusinger follows the Yamashiro maru steamship across Asian and Pacific waters in an innovative history of Japan's engagement with the outside world in the late nineteenth century His compelling in depth analysis reconstructs the lives of some of the thousands of male and female migrants who left Japan for work in Hawaii Southeast Asia and Australia These stories bring together transpacific historiographies of settler colonialism labour history and resource extraction in new ways Drawing on an unconventional and deeply material archive from gravestones to government files paintings to song and from digitized records to the very earth itself Dusinger addresses key questions of method and authorial positionality in the writing of global history This engaging investigation into archival practice asks what is the global archive where is it cited and who are we as we cite it This title is also available as Open Access

Revisiting Japan's Restoration Timothy Amos, Akiko Ishii, 2021-11-29 This volume presents the reader with thirty one short chapters that capture an exciting new moment in the study of the Meiji Restoration The chapters offer a kaleidoscope of approaches and interpretations of the Restoration that showcase the strengths of the most recent interpretative trends in history writing on Japan while simultaneously offering new research pathways On a scale probably never before seen in the study of the Restoration outside Japan the short chapters in this volume reveal unique aspects of the transformative event and process not previously explored in previous research They do this in three core ways through selecting and deploying different time frames in their historical analysis by creative experimentation with different spatial units through which to ascertain historical experience and by innovative selection of unique and highly original topics for analysis The volume offers

students and teachers of Japanese history modern history and East Asian studies an important resource for coming to grips with the multifaceted nature of Japan's nineteenth century transformation The volume will also have broader appeal to scholars working in fields such as early modern modern world history global history Asian modernities gender studies economic history and postcolonial studies

Political Process Donald J. Boudreaux, Christopher J. Coyne, Brian Kogelmann, 2024-12-15 Political Process New Perspectives on the Virginia and Bloomington Schools explores political process as emphasized by the Virginia and Bloomington schools of political economy Though the Virginia school of public choice and Bloomington school of institutional analysis have risen to prominence through the works of James Buchanan Gordon Tullock and Elinor Ostrom their joint emphasis on political process has been neglected The chapters in this volume explore the idea of political process through a multi disciplinary perspective and to better situate both schools in this discussion Approximately half the chapters make theoretical contributions proposing new frameworks for understanding how people come together to make collective decisions The other half examine applied case studies through a process oriented framework

Practical Pursuits Janine Anderson Sawada, 2004-05-31 The idea that personal cultivation leads to social and material well being became widespread in late Tokugawa Japan 1600-1868 Practical Pursuits explores theories of personal development that were diffused in the early nineteenth century by a network of religious groups in the Edo Tokyo area and explains how after the Meiji Restoration of 1868 the leading members of these communities went on to create ideological coalitions inspired by the pursuit of a modern form of cultivation Various engaged in divination Shinto purification rituals and Zen practice these individuals ultimately used informal political associations to promote the Confucian style assumption that personal improvement is the basis for national

prosperity This wide ranging yet painstakingly researched study represents a new direction in historical analysis Where previous scholarship has used large conceptual units like Confucianism and Buddhism as its main actors and has emphasized the discontinuities in Edo and Meiji religious life Sawada addresses the history of religion in nineteenth century Japan at the level of individuals and small groups She employs personal cultivation as an interpretive system crossing familiar boundaries to consider complex linguistic philosophical and social interconnections Turning Points in Japanese History Bert Edstrom, 2013-12-16 So called turning points or defining moments are both the oxygen and grid lines that historians and researchers seek in plotting the path of social and political development of any country In the case of Japan the ninth Conference of the European Association of Japanese Studies provided a unique opportunity for leading scholars of Japanese history politics and international relations to offer an outstanding menu of turning points many addressed for the first time over 20 of which are included here Thematically the book is divided into sections including Medieval and Early Modern Japan Japan and the West Contested Constructs in the Study of Tokugawa and Meiji Japan Aspects of Modern Japanese Foreign Policy and Democracy and Monarchy in Post War Japan **The Power of Memory in Modern Japan** Sven Saaler, Wolfgang Schwentker, 2008-06-26 Due to their symbolic and iconographic meanings expressions of collective memory constitute the mental topography of a society and make a powerful contribution to its cultural political and social identity In Japan the subject of memory has prompted a huge response in recent years Indeed it has been and continues to be debated at many levels of Japan s political social economic and cultural life For the historian and social scientist the opportunity to access recorded memories is invariably welcomed as a valuable building block in research and a determinant in establishing balance and perspective This volume brings together a selection of the most significant research on memory relating to modern Japan Thematically structured Politics and International Relations Memorials Museums National Heroes Popular and Intellectual Representations of Memory Realms of Memory Centre and Periphery the subjects treated include the Nanjing massacre comfort women the fate of war monuments the political use of national memory in post war Japan and remembering the atomic bomb **Rethinking the Russo-Japanese War, 1904-5**, 2007-05-17 Despite the growing number of publications on the Russo Japanese War an abundance of questions and issues related to this topic remain unsolved or call for a reexamination This 30 chapter volume the first in the two volume project Rethinking the Russo Japanese War provides a comprehensive reexamination of the origins of the conflict the various dimensions of the nineteen month conflagration the legacy of the war and its place in the history of the twentieth century Such an enterprise is not only timely but unique It has benefited from a multinational team of thirty two scholars from twelve nations representing a broad disciplinary background The majority of them focus on topics never researched before and without exception provide a novel and critical view of the war This reexamination is of course facilitated by a century long perspective as well as an impressive assortment of primary and secondary sources many of them unexplored and in a number of cases unavailable earlier **Dao Companion to**

Pan-Asianism Sven Saaler, Christopher W. A. Szpilman, 2011-04-16 This first volume in a two volume set provides the only comprehensive Western language history of Pan Asianism through primary sources and commentaries The book argues that Pan Asianism often though unfairly associated with the Yellow Peril has been a powerful political and ideological force in modern Asia It has shaped national identities and strongly influenced the development of international relations across Asia and the Pacific Scholars have long recognized the importance of Pan Asianism as an ideal of Asian solidarity regional cooperation and integration but also as an ideology that justified imperialist expansion and military aggression Yet sustained research has been hampered by the difficulty of accessing primary sources Thoroughly remedying this problem this unique sourcebook provides a wealth of documents on Pan Asianism from 1850 to 1920 many translated for the first time from Asian languages All sources are accompanied by expert commentaries that provide essential background information Providing an essential overview of Pan Asianism as it developed throughout modern Asia this collection will be an indispensable tool for scholars in history political science international relations and sociology Its accessible presentation makes it a valuable resource for non specialists as well

Against Harmony James Mark Shields, 2017 Against Harmony traces the history of progressive and radical experiments in Japanese Buddhist thought and practice from the mid Meiji period through the early Showa Perhaps the two best representations of progressive Buddhism during this time were the New Buddhist Fellowship 1899 1915 and the Youth League for Revitalizing Buddhism 1931 1936 both non sectarian lay movements well versed in both classical Buddhist texts and Western philosophy and religion Their work effectively collapsed commonly held distinctions between religion philosophy ethics politics and economics Unlike many others of their day they did not regard the novel forces of modernization as problematic and disruptive but as opportunities James Mark Shields examines the intellectual genealogy and alternative visions of progressive and radical Buddhism in the decades leading up to
