

# DOGMATISM

## DEFINITION

Dogmatism is the unwavering belief in a set of principles or doctrines without considering or accepting alternative viewpoints or evidence. It denotes a rigid stance, often based on religious, philosophical, or ideological beliefs, that resists change or questioning. Such a mindset can inhibit open dialogue and critical thinking.

## EXAMPLES

- **Creationism:** Despite extensive evidence supporting evolution, creationists assert otherwise, often due to dogmatic adherence to religious explanations.
- **Climate Change:** Despite overwhelming scientific evidence that humans are causing climate change, some deniers assert that this is not the case.

**Know Thyself** Stephen M Fleming, 2021-04-27 Unlock the secrets to understanding yourself and others with the surprising science of the human mind's greatest power introspection Are you sure Whether in a court room a doctor's office a gameshow's hot seat or a student's desk we are always trying to answer that question Should we accept eyewitness testimony or a physician's diagnosis Do we really want to risk it all on a final question And what should we be studying in order to do as well as possible on a test In short how do we know what we and others know or as importantly don't know As cognitive neuroscientist Stephen Fleming shows in Know Thyself we do this with metacognition Metacognition or thinking about thinking is the most important tool we have for understanding our own mind Metacognition is an awesome power It is what enables self awareness as well as what lets us think about the minds of others It is the ultimate human trait and in its most rarefied forms is a power that neither other animals nor our current artificial intelligences have Metacognition teaches us the limits of our own knowledge Once we understand what it is and

how it works we can improve our performance and make better decisions For example on the SAT it helps us gauge when we should skip a question rather than lose points getting an answer wrong Know Thyself like the metacognition itself is equal parts scientific philosophical and practical And that means like Thinking Fast and Slow and Predictably Irrational it s that rarest of books one that can both expand our minds and change our lives

**Islam and the Arab Awakening** Tariq Ramadan, 2012-10-12 One of the most important developments in the modern history of the Middle East the so called Arab Spring began in Tunisia in December 2010 bringing down dictators sparking a civil war in Libya and igniting a bloody uprising in Syria Its long term repercussions in Egypt and elsewhere remain unclear Now one of the world s leading Islamic thinkers examines and explains it in this searching provocative and necessary book Time Magazine named Tariq Ramadan one of the most important innovators of the twenty first century A Muslim intellectual and prolific author he has won global renown for his reflections on Islam and the contemporary challenges in both the Muslim majority societies and the West In Islam and the Arab Awakening he explores the uprisings offering rare insight into their origin significance and possible futures As early as 2003 he writes there had been talk of democratization in the Middle East and North Africa The U S government and private organizations set up networks and provided training for young leaders especially in the use of the Internet and social media and the West abandoned its unconditional support of authoritarian governments But the West did not create the uprisings Indeed one lesson Ramadan presents is that these mass movements and their consequences cannot be totally controlled Something

irreversible has taken place dictators have been overthrown without weapons But he writes democratic processes are only beginning to emerge and unanswered questions remain What role will religion play How should Islamic principles and goals be rethought Can a sterile polarizing debate between Islamism and secularism be avoided Avoiding both naive confidence and conspiratorial paranoia Ramadan voices a tentative optimism If a true civil society can be established he argues this moment's fragile hope will live

book proposes an original typology for grasping the differences between diverse types of biblical interpretation fashioned in a triangle around a major theological and philosophical lacuna the relation between divine and human action Despite their purported concern for reading God's word most modern and postmodern approaches to biblical interpretation do not seriously consider the role of divine agency as having a real influence in and on the process of reading Scripture Mark Bowald seeks to correct and clarify this deficiency by demonstrating the inevitable role that divine agency plays in contemporary proposals in relation to human agency enacted in the composition of the biblical text and the reader This book presents an important contribution to the emerging field of theological hermeneutics     *The Quelbe Commentary 1672-2012* Dale Francis, 2014 Explore the rich heritage contemporary culture and society of the Virgin Islands by delving into its wonderful music Dale Francis a resident of the Virgin Islands whose ancestry there dates back to the early 1700s examines what Africans Europeans and Tainos contributed to Virgin Islands quelbe He also chronicles key genres that were played between 1672 and 2012 As you immerse yourself into a fascinating blend of African and European music traditions you'll learn about the anthropology of the music what it tells us about power dynamics the relationship between the music and religion and deeper meanings hidden in the music You'll also discover the ancient secret in the bamboula art form the power of cariso freedom in the quelbe and learn how the music of the Virgin Islands continues to retain traditional elements despite contemporary influences Your appreciation for life will reach new heights as you explore the social economic and political dynamics of mankind through the musical heritage of the Virgin Islands in *The Quelbe Commentary     Religion, Humility, and Democracy in a Divided America* Ruth Braunstein, 2019-08-05 Strong religious convictions motivate citizens to engage in American public life and are viewed as a source of closed mindedness and a driver of political polarization This book combines theoretical reflections on this tension empirical studies examine how a range of religious actors balance conviction with humility in their political work     **Critical Theology and the Challenge of Jürgen Habermas** Marc Philippe Lalonde, 1999 In answer to this breach Lalonde sets out to design a non theological approach to understanding the religious by expanding the form of critical theory and the content of religious philosophy
