Political Economy Of Hope And Fear:

The Political Economy of Hope and Fear Marcellus William Andrews, 1999-05-01 Popular liberal writing on race has relied on appeals to the value of diversity and the fading memory of the Civil Rights movement to counter the aggressive conservative assault on liberal racial reform generally and on black well being in particular Yet appeals to fairness and justice no matter how heartfelt are bound to fail Marcellus Andrews argues since the economic foundations of the Civil Rights movement have been destroyed by the combined forces of globalization technology and tight government budgets The Political Economy of Hope and Fear fills an important intellectual gap in writing on race by developing a hard nosed economic analysis of the links between competitive capitalism racial hostility and persistent racial inequality in post Civil Rights America Andrews speaks to the anger and frustration that blacks feel in the face of the nation s abandonment of racial equality as a worthy objective by showing how the considerable difficulties that black Americans face are related to fundamental changes in the economic fortunes of the U S The Political Economy of Hope and Fear is an economist s plea for unsentimental thinking on matters of race to replace the mixture of liberal hand wringing and conservative mythmaking that currently passes for serious analysis about the nation's racial predicament The Political Economy of Hope and Fear Marcellus Andrews, 1999-05 Andrews economics Wellesley College argues that economic foundations of the Civil Rights movement have been destroyed by the combined forces of globalization technology and tight government budgets He fills an important intellectual gap in writing on race by developing an economic analysis of the links between competitive capitalism racial hostility and persistent racial inequality in post Civil Rights America Annotation copyrighted by Book News Inc The Political Economy of Affect and Emotion in East Asia Jie Yang, 2014-05-09 When thinking about Portland OR the culture and economy of East Asia many attribute to the region a range of dispositions including a preference for consensus and social harmony loyalty and respect towards superiors and government family values collectivism and communitarianism Affect is central to these concepts and yet the role of affect and its animated or imagined potentialities in the political economy of East Asia has not been systematically studied The book examines the affective dimensions of power and economy in East Asia It illuminates the dynamics of contemporary governance and ways of overcoming common Western assumptions about East Asian societies Here affect is defined as felt quality that gives meaning and imagination to social political and economic processes and as this book demonstrates it can provide an analytical tool for a nuanced and enriched analysis of social political and economic transformations in East Asia Through ethnographic and media analyses this book provides a framework for analyzing emerging phenomena in East Asia such as happiness promotion therapeutic governance the psychologization of social issues the rise of self help genres transnational labor migration new ideologies of gender and the family and mass mediated affective communities Through the lens of affect theory the contributors explore changing political configurations economic engagements modes of belonging and forms of subjectivity in East Asia and use

ethnographic research and discourse analysis to illustrate the affective dimensions of state and economic power and the way affect informs and inspires action This interdisciplinary book will be of great interest to students and scholars of Asian studies anthropology sociology media studies history cultural studies and gender and women s studies Practices of Hope Stefan Skrimshire, 2011-11-03 Politics of Fear Practices of Hope is about the relationship between two hugely influential ideas in political life fear and hope How are cultures of resistance nurtured within an environment of paranoia and social paralysis Stefan Skrimshire argues that grass roots responses to a politics of fear coincide with an explosion of interest in the guasi religious themes of apocalypse eschatology and utopia in cultural life Where visions of a better future are replaced by the acceptance of a fearful present a state of war with no end this is an important examination of the beliefs that underpin our capacity to hope The African American Entrepreneur W. Sherman Rogers, 2009-12-14 African American entrepreneurship has been an integral part of the American economy since the 1600s On the eve of the Civil War the collective wealth of free blacks was approximately 50 million In 2006 African Americans earned a whopping 744 billion a figure that exceeds the gross domestic product of all but 15 nations of the 192 independent countries in the world As W Sherman Rogers ably demonstrates African Americans have achieved these economic gains under difficult circumstances Slavery segregation and legally limited access to property education and other opportunities have taken a heavy toll even to this day Besides providing a penetrating glimpse into the world of black entrepreneurship both past and present this book urges African Americans to gain financial independence as entrepreneurs Business ownership Rogers argues will bring security wealth that can be passed to successive generations and educated offspring with much greater earning power The African American Entrepreneur Then and Now explores the lower economic status of Black Americans in light of America's legacy of slavery segregation and rampant discrimination It shines a light on the legal historical sociological and political factors that together help explain the economic condition of Black people in America from their arrival in America to the present In the process the book spotlights the many amazing breakthroughs made by Black entrepreneurs even before the Civil War and Emancipation Profiles of businesspeople from the post Civil War period through today include Booker T Washington pioneer banker and insurer A G Gaston hair care entrepreneur Madame C J Walker Ebony publisher John H Johnson Black Entertainment Television founder Robert L Johnson publisher Earl Graves music producer Damon Dash rapper Sean Combs former basketball stars Dave Bing and Magic Johnson food entrepreneur Michelle Hoskins broadcast personality Cathy Hughes former Beatrice Foods head Reginald Lewis Oprah Winfrey and many more As Rogers points out reading about remarkable African American entrepreneurs can inspire readers to adopt an entrepreneurial mindset To further that goal and help readers take the plunge he outlines many of the skills tools and information necessary for business success success that can help chart a new path to prosperity for all African Americans Uncomfortable Situations Daniel M. Gross, 2017-08-28 What is a hostile environment How exactly can feelings be mixed What on earth might it mean when someone writes that he was happily situated as a slave The answers of course depend upon whom you ask Science and the humanities typically offer two different paradigms for thinking about emotion the first rooted in brain and biology the second in a social world With rhetoric as a field guide Uncomfortable Situations establishes common ground between these two paradigms focusing on a theory of situated emotion Daniel M Gross anchors the argument in Charles Darwin whose work on emotion has been misunderstood across the disciplines as it has been shoehorned into the perceived science humanities divide Then Gross turns to sentimental literature as the single best domain for studying emotional situations There's lost composure Sterne bearing up Equiano environmental hostility Radcliffe and feeling mixed Austen Rounding out the book an epilogue written with ecological neuroscientist Stephanie Preston provides a different kind of cross disciplinary collaboration Uncomfortable Situations is a conciliatory work across science and the humanities a groundbreaking model for future studies **Perspectives on Political Economy** R.
