Political Economy Of Protection:

The Political Economy of Protection Arye L. Hillman, 2013-10-15 This book examines how trade policy is determined in democratic countries and illustrates how protectionist policies are engendered by political processes that allow groups to pursue their own interests

The Political Economy of Protection Daniel Lederman, 2005-03-29 The Political Economy of Protection explains why countries especially developing countries change their trade policies over the course of history It does so through an interdisciplinary approach which borrows analyses from both political science and economics While the central focus of this book is to explain historical changes in trade policy in one country Chile it is broadly relevant for students scholars and trade specialists interested in gaining a deeper understanding of the politics and economics of international trade Given the intensifying public debates about the benefits of globalization the author provides a uniquely rigorous yet interdisciplinary analysis of the forces that shape trade policy decisions not just in Chile but throughout the world

The Political Economy of Environmental Protectionism Achim Körber, 2000 In this book Achim Korber carefully examines the influence of environmental policy on trade policy He explores environmental protectionism and models it using public choice theory The author focuses on a theoretical analysis of ecological protectionism and the potential misuse of environmental regulation as a tool to gain competitive advantage a comprehensive case study on the tuna dolphin cases of the GATT WTO The study reveals that the US legislation was not as it was widely perceived a victory for the environmentalists but for the billion dollar industry of the US tuna canneries an in depth literature survey on various approaches to protectionism including an analysis of lobbying models including the contest success function P The Political Economy of Environmental Protectionism with its wealth of new material will be of great interest to environmental political and trade economists as well as policymakers and researchers

The Political Economy of Trade Protection Anne O. Krueger, 2007-12-01 This clear concise summary of the in depth analyses presented in The Political Economy of American Trade Policy examines the level form and evolution of American trade protection In case studies of trade barriers imposed during the 1980s to help the steel semiconductor automobile lumber wheat and textile and apparel industries the contributors trace the evolution of efforts to obtain protection protectionist measures and their results A chapter assessing the common themes that emerge from the studies concludes that the focus of current trade law is exclusively on the individual protection seeking industries with little regard for indirect effects on using industries or for consumers Reform could usefully take these effects into account This volume will interest policymakers business executives and anyone interested in trade policy formulation and practice

Power, Protection, and Free Trade David A. Lake, 2018-03-15 Why do nations so frequently abandon unrestricted international commerce in favor of trade protectionism David A Lake contends that the dominant explanation interest group theory does not adequately explain American trade strategy or address the contradictory elements of cooperation and conflict that shape the international economy Power Protection and Free Trade

offers an alternative systemic approach to trade strategy that builds on the interaction between domestic and international factors In this innovative book Lake maintains that both protection and free trade are legitimate and effective instruments of national policy the considered responses of nations to varying international structures

The Political Economy of American Protection in Theory and in Practice Anne O. Krueger, 1990 The results of recent empirical research show that the actual determinants of the form and substance of protection have little to do with the implicit classroom model of benevolent social guardians intent upon maximizing a Benthamite social utility function This has led to efforts to understand the political bureaucratic process through which commercial policy is determined and to the beginnings of a positive theory of protection sometimes referred to as the political economy of protection In this paper the theoretical cases in which protection might be warranted are contrasted to the actual pattern of protection and mechanisms by which protection is decided upon in one open economy the United states and the various models attempting to explain the observed pattern of protection and the mechanisms that generate it are surveyed

The Political Economy of Trade Policy Devashish Mitra, 2016-03-11 The Political Economy of Trade Policy Theory Evidence and Applications is a collection of sole authored and co authored papers by Devashish Mitra that have been published in various scholarly journals over the last two decades It covers diverse topics in the political economy of trade policy ranging from the role of modeling lobby formation in the context of trade policy determination to its applications to the question of unilateralism versus reciprocity and trade agreements It also includes the theory and the empirics of the choice of policy instruments Finally the book presents the empirical investigation of the Grossman Helpman Protection for Sale model as well as the Mayer Median Voter model of trade policy determination

The Political Economy of Anti-dumping Protection Patricia Wruuck, 2015-02-09 This book deals with anti dumping measures AD and investigates two questions First what country characteristics affect AD use and notably do domestic political institutions have an effect Second how is the decision to impose a new AD measure affected by anticipation of trading partners potential retaliation This book applies a strategic perspective to AD to address these questions presenting a game theoretic model together with an empirical test The approach sheds light on the dynamics of interaction between trading partners and allows to capture selection processes which underpin the trade restrictions that can actually be observed The book provides a fresh look on when and how trading powers apply antidumping measures how this is shaped by strategic interaction and whether institutions do make a difference to the outcome In a period in which the international trading system has to cope with numerous stresses such as an increased resort to administered protection largely by big emerging economies this is a timely and important contribution Dr Klaus G nter Deutsch Managing Director Research Economic and Industrial Policy German Federation of Industries This book successfully integrates two research traditions in international politics the traditional view that looks at domestic factors of anti dumping policies and the strategic view that conditions the imposition of anti dumping measures on the likely retaliatory behavior of the trading partner The result is an

informative and constructive examination of anti dumping protection and trade wars in the WTO Prof Dr Thomas Br uninger Chair of Political Economy University of Mannheim Germany The Political Economy of Anti Dumping Protection A Strategic Analysis is a major contribution to the important and growing field international political economy Starting with the traditional comparative institutional analysis which focuses on the implications of democratic and non democratic regimes for using anti dumping measures in trade politics the second part applies a strategic perspective on this type of sanctions uncovering the dynamic interactions between a challenging and challenged countries For all those interested in understanding the logic of sanctions the role of institutions and in how to examine the implications of theoretical models for international political economy this book is a must read Prof Dr Thomas K nig Chair of Political Science II University of Mannheim Germany

The Political Economy of Manufacturing Protection Christopher Findlay, Ross Garnaut, 2017-10-10 Protection is a persistent feature of economic policy in developed and developing countries alike However it is now widely accepted that high protection holds back economic growth Why is protection so pervasive when it is widely recognised to be against the national interest of the countries which impose it This contradiction is the focus of this important volume first published in 1986 Economists from the Philippines Thailand Malaysia Singapore and Australia have written about their countries and draw conclusions on the causes of protection from statistical analysis and from interindustry structure

The Global Political Economy of Trade Protectionism and Liberalization Tony Heron, 2012 Examines the social political and economic impacts of trade paying attention to the textiles and clothing sector with respect to developing countries This book is suitable for those studying and researching international and comparative political economy developing area studies economics law and geography

The Political Economy of Trade Policy Robert C. Feenstra, Gene M. Grossman, Douglas A. Irwin, 1996 This collection of papers by former students and colleagues celebrates the profound impact that Jagdish Bhagwati has had on the field of international economics over the past three decades Bhagwati who is the Arthur Lehman Professor of Economics at Columbia University has made pathbreaking contributions to the theory of international trade and commercial policy including immiserizing growth domestic distortions economic development and political economy His success and influence as a teacher and mentor is widely recognized among students at both MIT and Columbia and as founder of the Journal of International Economics he has encouraged research on many questions of theoretical and policy relevance The political economy of trade policy Bhagwati s most recent area of interest is the theme of this collection which addresses salient topics including market distortions income distribution and the political process of policy making

Findlay **Export Restraint and the New Protectionism** Kent Albert Jones,1994 A study of an important recent device used to restrict international trade Trade and Protectionism Takatoshi Ito,Anne O. Krueger,2007-12-01 During the first three decades following the Second World War an increasingly open international trading system led to unprecedented economic growth throughout the world But in recent years that openness has been threatened by increased protectionism regional trading arrangements Europe 1992 and the U S Canada Free Trade Agreement and setbacks in negotiations on the General Agreement on Tariffs and Trade In Trade and Protectionism American and East Asian scholars consider the dangers of this trend for the world economy and especially for East Asian countries The authors look at the current global trading system and at the potential threats to East Asian economies from possible regional arrangements such as separate trading blocks in the Western Hemisphere and Europe They cover trade between the United States and Japan Korea and Japan and Japanese East Asian trade policies trade in agriculture and semiconductors and the frictions that have jeopardized this trade and direct foreign investment The contributors round out the work with discussions of the political economy of protection in Korea and Taiwan and political economy considerations as they affect trade policy in general This is the second volume of the National Bureau of Economic Research East Asia Seminar on Economics The first volume The Political Economy of Tax Reform also edited by Takatoshi Ito and Anne O Krueger addresses tax reform in the global economy **On the Political Economy of Protection in Germany** Carl Hamilton,Hans H. Glismann,P. K. Mathew Tharakan,1980 The Oxford Handbook of the Political Economy of International Trade Lisa L. Martin,2015-04-23 The Oxford Handbook of the Politics of International Trade surveys the literature on the politics of international trade and highlights the most exciting recent scholarly developments It examines the impact of domestic societal actors domestic institutions and international interactions on trade policy and trade flows as well as building on this basic analytical framework Including contributions from prominent scholars around the globe and from multiple theoretical and methodological traditions the volume considers the development of concepts and policies about international trade the influence of individuals firms and societies the role of domestic and international institutions and the interaction of trade and other issues such as monetary policy environmental challenges and human rights Showcasing both established theories and findings and cutting edge new research the Handbook is a valuable reference for scholars of political economy *The Political Economy of Agricultural Price Distortions* Kym Anderson,2010-08-30 Despite numerous policy reforms since the 1980s farm product prices remain heavily distorted in both high income and developing countries This book seeks to improve our understanding of why societies adopted these policies and why some but not other countries have undertaken reforms Drawing on recent developments in political economy theories and in the generation of empirical measures of the extent of price distortions the present volume provides both analytical narratives of the historical origins of agricultural protectionism in various parts of the world and a set of political econometric analyses aimed at explaining the patterns of distortions that have emerged over the past five decades

These new studies shed much light on the forces affecting incentives and those facing farmers in the course of national and global economic and political development They also show how those distortions might change in the future The Political Economy of Protection in GVCs Rodney D. Ludema, Anna Maria Mayda, Zhi Yu, Miaojie Yu, 2019 This paper explores the political economy of import protection in a setting where imports may contain a country's own domestic value added (DVA) via domestically produced inputs that get exported and used in foreign downstream production We show that import competing producers and their domestic input suppliers are generally allies in favor of protection but this alliance weakens as DVA increases because a home tariff on finished goods decreases foreign demand for home inputs Empirically we examine detailed discriminatory trade policies of 23 countries toward China and use Chinese transaction level processing trade data to construct a measure of DVA We also measure input customization We find that both upstream and downstream political organization increase downstream protection but the effect of the former is smaller when DVA as a share of final imports from China is larger Tariffs on products containing inputs that are neither customized nor politically organized appear to be unaffected by the DVA share Tariff Determination in the General Equilibrium of a Political Economy Hom Moorti Pant, 2019-05-23 First published in 1997 this volume builds an economic model in which a model of the policy formation process was grafted onto an economic model of the traditional kind Politics are not made in a vacuum they have their basis in the politico economic system which economists have been modelling and analysing for a very long time For economists government policies are particularly important as they determine the environment within which all agents make their choices and the way in which the market allocates resources Through an examination of tariffs and an equilibrium model of the economic sphere of a small open political economy Hom Moorti Pant aims to explore some of the reasons and effects of government policy decisions on the economy The Political Economy of America Protection in Theory and in Practice Anne O. Krueger, 1990 **Imperfect Competition And Political Economy** Colin Carter, 2019-04-24 This book presents International Agricultural Trade Research Consortium commissioned papers The papers systematically explore the conceptual and empirical dimensions of the new trade theory and try to determine the potential application to agricultural trade and trade policy analysis
