Political Liberalism Variations On A Theme:

Political Liberalism Shaun P. Young, 2004-08-24 Leading theorists explore the concept of political liberalism **A Perfectionist Theory of Justice** Collis Tahzib, 2022 This book makes a significant contribution to one of the most persistent debates in contemporary political philosophy that between liberals and perfectionists **Rawls and the Environmental Crisis** Dominic Welburn, 2016-12-08 The liberal political theorist John Rawls despite remaining largely silent on green concerns was writing during a time of increasing awareness that the ecological stability of the earth is being compromised by human activity Rawls's reluctance to engage with such concerns however has not stopped several scholars attempting to extend or expand his works to incorporate this newfound fear for the ecosystems that support human life But why Rawls What is to be gained from developing the ideas of a theorist whose primary aim was to establish a system of justice for contemporaneous rational and reasonable citizens of a liberal polity This research monograph offers a critical consideration of the contextual framework within John Rawls's Political Liberalism and considers its compatibility with the conceptual process of greening Rawls and the Environmental Crisis argues that Rawls's perceived neutrality on green concerns is representative of a widespread societal indifference to environmental degradation and describes the plurality of methodological and ethical approaches undertaken by green political theorists in analyzing the contribution Rawls's theory makes to environmental concerns Addressing a series of key debates within contemporary political philosophy regarding a wider frustration with liberal theory in general Rawls and the Environmental Crisis will be of great interest to researchers in contemporary political philosophy environmental ethics green political theory stewardship theory and those interested in renewing existing conceptions of deliberative democracy **Richard Rorty: Outgrowing Modern Nihilism** Tracy Llanera, 2020-06-10 The book makes a new contribution to the contemporary debates on nihilism and the sacred Drawing on an original interpretation of Richard Rorty's writings it challenges the orthodox treatment of nihilism as a malaise that human beings must overcome Instead nihilism should be framed as a problem for human culture to outgrow through pragmatism The Secular Imaginary Sushmita Nath, 2022-11-10 It sheds light on Indian narratives of secularity Gandhian sarva dharma samabhava Nehruvian secularism and Gandhi Nehru tradition **The Art of World-Making** Harry D. Gould, 2017-06-26 On its face The Art of World Making focuses on honouring the career of Nicholas Greenwood Onuf and his contributions to the study of international relations of equal importance however while using Onuf's work as their touchstone the contributions to this volume range widely across IR theory making important interventions in some of the most important topics in the field today The volume considers the place of Constructivism and Republicanism in the field of international relations and the contestation that accompanies the question of their place in the field asking What explains the dominance of some forms of Constructivism and the relative lack of influence of other forms What can rule oriented Constructivism the focus here provide our field that other forms of Constructivism have been unable to Into what new and productive directions

can Constructivism be taken What are its gaps and what are the resources to remedy those gaps What can Republicanism tell us about ongoing issues in international law global governance liberalism and crisis Drawing together essays from some of the leading scholars in the field space is given after each chapter for a detailed and highly personal response piece to each contribution written by Onuf This unique volume will be essential reading for students and scholars of international relations

Reflections on Rawls Shaun P. Young, 2016-04-08 The late John Rawls was one of the most inspiring provocative and influential political philosophers of the twentieth century In this collection a panel of distinguished political philosophers critically explore the intellectual legacy of Rawls The essays herein engage Rawls's political theorizing from his earliest published writings in the 1950s to his final publication in 2001 *Justice as Fairness A Restatement* and explore a diversity of issues related to his arguments such as the attractiveness of his methodology methodologies and the normative coherence and empirical validity of his claims In turn the effectiveness both of his arguments and those of various supporters and critics are evaluated from the perspective of a variety of analytical approaches including cosmopolitanism communitarianism perfectionism liberalism and legal theory This book is an edifying and engaging dialogue with ideas and arguments that have provided the theoretical framework for much of contemporary political philosophy and a thoughtful assessment of their continuing significance and place within the pantheon of political philosophy

Contemporary Moral and Social Issues, 2014-04-15 *Contemporary Moral and Social Issues* is a uniquely entertaining introduction that brings ethical thought to life It makes innovative use of engaging topically oriented original short fiction together with classic and influential readings and editorial discussion as a means of helping students think philosophically about ethical theory and practical ethical problems Introduces students to ethical theory and a range of practical moral issues through a combination of key primary texts clear editorial commentary and engaging original fiction Includes discussion of topics such as world poverty abortion animals the environment and genetic engineering containing Facts and Factual Issues for each topic to give students an up to date understanding of related factual issues Uses immersive original short works of fiction as a means to engage students to think philosophically about serious ethical issues Sample Course Framework available

Hannah Arendt's Aesthetic Politics Jim Josefsen, 2019-05-27 We face a crisis of public reason Our quest for a politics that is free moral and rational has somehow made it hard for us to move to change our positions to visit places and perspectives that are not our own and to embrace reality This book addresses this crisis with a model of public reason based in a new aesthetic reading of Hannah Arendt's political theory It begins by telling the story of Arendt's engagement with the *Augenblicke* of Nietzsche Kierkegaard Jaspers Heidegger Kafka and Benjamin in order to identify her own aesthetic Moment Josefsen then explicates this Moment what he calls the freedom of the beautiful as a third face of freedom on par with Arendt's familiar freedoms of action and the life of the mind He shows how this freedom rooted in Jaspers's phenomenology and a non metaphysical reading of Kant serves to redress the world alienation that was a uniting theme across Arendt's works Ultimately this volume aims to challenge

orthodox accounts of Arendtian politics presenting Arendt's aesthetic politics as a radically new model of republicanism and as an alternative to political liberal deliberative and agonistic models of public reason **Liberal realism** Matt

Sleat, 2015-11-01 Political realism has recently moved to the centre of debates in contemporary political theory In this monograph Matt Sleat presents the first comprehensive overview of the resurgence of interest in realist political theory and develops a unique and original defence of liberal politics in realist terms Through explorations of the work of a diverse range of thinkers including Bernard Williams John Rawls Raymond Geuss Judith Shklar John Gray Carl Schmitt and Max Weber the author advances a theory of liberal realism that is consistent with the realist emphasis on disagreement and conflict yet still recognisably liberal in its concern with respecting individuals freedom and constraining political power The result is a unique contribution to the ongoing debates surrounding realism and an original and timely reimagining of liberal theory for the twenty first century This provocative work will be of interest to students and all concerned with the possibility of realising liberalism and its moral aspirations in today's world **Liberalism and Human Suffering** A. Abbas, 2010-10-11 A

materialist critique of the politics poetics and economics of suffering in liberalism that argues for attention to the labour of suffering of the victim in many well meaning but flawed politics of redress and imagines forms of representation solidarity and justice that better honour the history and materiality of this labour **Raymond Aron and Liberal Thought in the**

Twentieth Century Iain Stewart, 2020 The first historical account of Raymond Aron's role in the reconfiguration of liberal thought in the short twentieth century *White Privilege* Neil Altman, 2020-09-27 *White Privilege* Psychoanalytic

Perspectives looks at race and the significant role it plays in society and in clinical practice Much of the effort going into racial consciousness raising rests on the concept of unearned white privilege In this book Neil Altman looks deeply into this notion suggesting that there are hidden assumptions in the idea of white privilege that perpetuate the very same racially prejudicial notions that are purportedly being dismantled The book examines in depth the structure of racial categories polarized between white and black that are socially constructed resting on fallacious ideas of physical or psychological differences among peoples Altman also critically examines such related concepts as privilege guilt and power It is suggested that political positions are also artificially polarized into categories of liberal left and conservative right in ways that contribute to stereotyping between people with different political leanings foreclosing mutual respect dialogue and understanding Finally *White Privilege Psychoanalytic Perspectives* explores the implications for the theory and practice of psychoanalytic psychotherapy discussing these ideas in detail and depth with clinical illustrations Drawing on Altman's rich clinical experience and many years of engaging with racial and societal problems this book offers a new agenda for understanding and offering analytic practice in contemporary society It will appeal to clinicians psychoanalytic therapists and anyone with an interest in social problems and how they manifest in society and in therapy today Reasonably Radical

Anthony Simon Laden, 2001 *Reasonably Radical* synthesizes both approaches in a new form of liberal theory deliberative

liberalism **Liberalism in Illiberal States** Mark I. Vail, 2018 After the end of the Cold War liberalism emerged as the world's dominant political economic ideology and economic liberalism seemed to have achieved global hegemony In *Liberalism in Illiberal States* Mark Vail acknowledges the dominance of economic liberalism but argues that its implementation in specific countries is always unique and dependent upon powerful historical factors He focuses on France Germany and Italy countries that many scholars do not view as liberal at all and contends they have in fact developed distinct forms of national liberalism of which their postwar models of capitalism were merely one manifestation Vail argues that these states political economies have been shaped by centuries old liberal traditions which have continued to inform national alternatives to transnational neoliberalism in the contemporary era He presents case studies that show how nationally specific interpretations of liberalism are flexible and responsive to local realities especially in times of economic uncertainty By demonstrating how variegated the practice of economic liberalism actually is *Liberalism in Illiberal States* will reshape our understanding of liberal political economy in the contemporary world *The Cosmopolitan Constitution* Alexander Somek, 2014 Originally the constitution was expected to express and channel popular sovereignty It was the work of freedom springing from and facilitating collective self determination After the Second World War this perspective changed the modern constitution owes its authority not only to collective authorship it also must commit itself credibly to human rights Thus people recede into the background and the national constitution becomes embedded into one or other system of peer review among nations This is what Alexander Somek argues is the creation of the cosmopolitan constitution Reconstructing what he considers to be the three stages in the development of constitutionalism he argues that the cosmopolitan constitution is not a blueprint for the constitution beyond the nation state let alone a constitution of the international community rather it stands for constitutional law reaching out beyond its national bounds This cosmopolitan constitution has two faces the first political face reflects the changed circumstances of constitutional authority It conceives itself as constrained by international human rights protection firmly committed to combating discrimination on the grounds of nationality and to embracing strategies for managing its interaction with other sites of authority such as the United Nations The second administrative face of the cosmopolitan constitution reveals the demise of political authority which has been traditionally vested in representative bodies Political processes yield to various and often informal strategies of policy coordination so long as there are no reasons to fear that the elementary civil rights might be severely interfered with It represents constitutional authority for an administered world **Democracy at the Ballpark** Thomas David Bunting, 2021-11-01 What is the relationship between sports and politics Often politics are thought to be serious whereas sports are diversionary and apolitical Using baseball as a case study *Democracy at the Ballpark* challenges this understanding examining politics as they emerge at the ballpark around spectatorship community equality virtue and technology Thomas David Bunting argues that because spectators invest time and meaning in baseball the game has power

as a metaphor for understanding and shaping politics The stories people see in baseball mirror how they see the country politics and themselves As a result democracy resides not only in exclusive halls tread by elites but also in a stadium full of average people together under an open sky Democracy at the Ballpark bridges political theory and sport providing a new way of thinking about baseball It also demonstrates the democratic potential of spectatorship and rethinks the role of everyday institutions like sport in shaping our political lives offering an expanded view of democracy *Pragmatist Politics* John McGowan,2012 In our current age of cynicism John McGowan suggests that the time is right to take a fresh look at pragmatism the philosophy of American democracy As McGowan shows pragmatism can be an inspiring alternative to the despair that seems to dominate contemporary American politics *Pragmatist Politics* is passionate and convincing both heartfelt and clear eyed It offers an expansive vision of what the United States could be and should be From John Dewey and William James McGowan derives a history of democracy as a way of life characterized by a distinctive ethos and based on an understanding of politics as potentially effective collective agency That democratic ideal is wedded to a liberalism that focuses on extending the benefits of democracy and of material prosperity to all Beyond the intellectual case for liberal democracy McGowan turns to how James especially was attuned to the ways that emotional appeals often trump persuasion through arguments and he examines the work of Kenneth Burke among others to investigate the link between liberal democracy and a comic view of human life Comedy McGowan notes allows consideration of themes of love forgiveness and generosity that figure far too infrequently in philosophical accounts of politics In McGowan s work the combination of pragmatism and comedy takes us on a wide ranging exploration of what American politics and by extension American life could actually be like if it truly reflected American values **The Liberal Way of War** Robert P. Barnidge,Jr,2016-03-03 Examining some of the huge challenges that liberal States faced in the decade after 11 September 2001 the chapters in this book address three aspects of the impact of more than a decade of military action This book begins by considering four different expressions of universalist moral aspirations including the prohibition of torture and discusses migration and responsibility to protect as well as the United Nations Human Rights Committee s Concluding Observations about security and liberty in the last decade International humanitarian law and the problems posed by the territorial character of war and the effects of new technologies and child soldiers are also analysed Finally Islamic law and its interface with international law is considered from a new perspective and contributions in this final part offer a different way of thinking about an authentically Islamic modernisation that would be compatible with Western models of political order With contributions from international lawyers from diverse backgrounds this book fills an important gap in the literature on the themes of international human rights law international humanitarian law and Islamic law **Nietzsche's Culture of Humanity** Jeffrey Church,2015-09-11 This book argues that Nietzsche is a meritocratic thinker not as many have argued an aristocrat or a democrat

Reviewing **Political Liberalism Variations On A Theme**: Unlocking the Spellbinding Force of Linguistics

In a fast-paced world fueled by information and interconnectivity, the spellbinding force of linguistics has acquired newfound prominence. Its capacity to evoke emotions, stimulate contemplation, and stimulate metamorphosis is truly astonishing. Within the pages of "**Political Liberalism Variations On A Theme**," an enthralling opus penned by a very acclaimed wordsmith, readers embark on an immersive expedition to unravel the intricate significance of language and its indelible imprint on our lives. Throughout this assessment, we shall delve in to the book is central motifs, appraise its distinctive narrative style, and gauge its overarching influence on the minds of its readers.
