## **Political Philosophy Of Merleau Ponty Modern Revivals In Philosophy S:**

The Political Philosophy of Merleau-Ponty Sonia Kruks,1981      The Collaborative Bibliography of Women in Philosophy  
Noël Hutchings,1997      Subject Guide to Books in Print ,1993      **Whitaker's Books in Print** ,1998      **The British**  
**National Bibliography** Arthur James Wells,1994      **Economic Methodology and Freedom to Choose (Routledge**  
**Revivals)** Patrick O'Sullivan,2012-07-26 First published in 1987 Professor O Sullivan s work provides an in depth  
philosophical examination of the foundations of method in Economics and other human sciences The argument is  
unabashedly dialectical in the great Socratic Platonic tradition and the reissue will be very welcome to all students of  
methodology in particular those students of economic methodology seeking a refreshing alternative to yet more  
mathematical game playing In an age dominated and perhaps to an extent perplexed by an ultimately non committal  
postmodernism the book provides a root and branch critique of the epistemological relativism which must lie at the root of  
the whole post modernist approach and in reasserting the fundamental importance not only for the methods of science but  
also for European civilisation of the pursuit of truth it takes a stance which is very much against the tide of the times A  
heterodox perspective is also provided and defended in detail regarding the real nature of economic methodology whereby it  
is shown that Economics epitomises a teleological mode of explanation which is significantly different from the efficient  
causal modes of explanation of the natural sciences In fact Economics is the ultimate subjectivist interpretative discipline in  
the methodological sense of Max Weber and Alfred Schutz a fact which has only been recognised and welcomed in the  
Austrian school of Economics      **Jacques Derrida (Routledge Revivals)** William Schultz,Lewis L.B. Fried,2016-06-17 First  
published in 1992 this book represents the first major attempt to compile a bibliography of Derrida s work and scholarship  
about his work It attempts to be comprehensive rather than selective listing primary and secondary works from the year of  
Derrida s Master s thesis in 1954 up until 1991 and is extensively annotated It arranges under article type a huge number of  
works from scholars across numerous fields reflecting the interdisciplinary and controversial nature of Deconstruction The  
substantial introduction and annotations also make this bibliography in part a critical guide and as such will make a highly  
useful reference tool for those studying his philosophy      *Merleau-Ponty and the Foundation of Existential Politics* Kerry H.  
Whiteside,2014-07-14 Drawing on previously unexplored sources Kerry H Whiteside presents the political theory of Maurice  
Merleau Ponty 1908 1961 one of France s best known twentieth century philosophers Whiteside argues that Merleau Ponty s  
objective in his political writings was to make existentialism into the foundation for a philosophically consistent mode of  
political thinking This study discusses the inadequacies Merleau Ponty found in the traditional philosophies of empiricism  
and idealism and then examines the subject object dualism that he believed deprived previous forms of existentialism of  
political significance Whiteside shows how Merleau Ponty overcame these problems by grounding political reasoning in a  
theory of consciousness that emphasized both its individuality and its need for socially created meaning After explaining

Merleau Ponty's modifications of the views of Sartre Aron and others the book investigates how he applied his political theory in editorial exchanges with Communists and liberals Throughout this study Whiteside traces and criticizes the changes in the philosopher's concept of Marxism and points to his many ideas that bear on current controversies in political theory Originally published in 1988 The Princeton Legacy Library uses the latest print on demand technology to again make available previously out of print books from the distinguished backlist of Princeton University Press These editions preserve the original texts of these important books while presenting them in durable paperback and hardcover editions The goal of the Princeton Legacy Library is to vastly increase access to the rich scholarly heritage found in the thousands of books published by Princeton University Press since its founding in 1905

*Possibilities of Place in Continental Thought* Jussi Palmusaari, Nicolas Schneider, 2024-09-05 Exploring the critical potential of place in continental philosophy *Possibilities of Place in Continental Thought* tests the political and ontological valences of this concept to go beyond the limits of existing geographical and phenomenological approaches Considering place as emergent relational and enveloping or in connection to passage becoming or redemption the contributions to this volume point to the possibilities inherent in philosophical uses of place By rejecting a singular and homogenous theory of place this collection collapses the dichotomies that tend to characterize the discourse on place in favour of a plural conceptualization It draws attention to the spatial and temporal dynamics within varying theoretical and historical contexts and moves the field forward in significant and vital ways

**Forthcoming Books** Rose Army, 2003-04 **Tradition(s)** Stephen H. Watson, 1997 What exactly is tradition Stephen H Watson provides a fine grained account of tradition that draws on Gadamer who conceives of tradition in terms of continuity and Foucault who engages in critique through the presentation of difference Tradition's accomplishes this through a series of original readings of Kant and post Kantian German philosophy **Books in Print**, 1991 **Managerial Prerogative and the Question of Control (Routledge Revivals)** John Storey, 2014-10-10 In both Marxist and non Marxist scholarship there has been a remarkable neglect of the managerial control of labour John Storey's analysis of the modern labour process shows that managerial control is in fact more precarious than has been so far recorded This book first published in 1983 reassesses the Braverman theory of the inexorable degradation of work and demonstrates the need to go beyond not only Braverman but also most of the ensuing attempts to complement or repair his underlying thesis The book will be of interest to students of the social sciences **Kritische Gesamtausgabe** Hannah Arendt, 2018 **The Philosopher's Index**, 2009 Vols for 1969 include a section of abstracts **Seducing America** Roderick P. Hart, 1999 These feelings have become television's distinctive currency postmodern tokens for a manifestly uncertain world Hart explores the considerable costs of this legacy for governance and urges that it be supplanted by a New Puritanism a set of community based attitudes badly needed in the nation at present **The Cumulative Book Index**, 1996 A world list of books in the English language **Directory of American Scholars: Philosophy, religion and law**, 1999 *Guide to Reprints*, 2009 *Singing with the Mountains*

William Sherman, 2023-12-05 An illuminating story of a Sufi community that sought the revelation of God In the Afghan highlands of the sixteenth century the messianic community known as the Roshaniyya not only desired to find God's word and to abide by it but also attempted to practice God's word and to develop techniques of language intended to render their own tongues as the organs of continuous revelation As their critics would contend however the Roshaniyya attempted to make language do something that language should not do infuse the semiotic with the divine Their story thus ends in a tower of skulls the proliferation of heresiographies that detailed the sins of the Roshaniyya and new formations of Afghan identity In *Singing with the Mountains* William E B Sherman finds something extraordinary about the Roshaniyya not least because the first known literary use of vernacular Pashto occurs in an eclectic Roshani imitation of the Qur'an The story of the Roshaniyya exemplifies a religious culture of linguistic experimentation In the example of the Roshaniyya we discover a set of questions and anxieties about the capacities of language that pervaded Sufi orders imperial courts groups of wandering ascetics and scholastic networks throughout Central and South Asia In telling this tale Sherman asks the following questions How can we make language shimmer with divine truth How can letters grant sovereign power and form new ethnic identities and ways of belonging How can rhyme bend our conceptions of time so that the prophetic past comes to inhabit the now of our collective moment By analyzing the ways in which the Roshaniyya answered these types of questions and the ways in which their answers were eventually rejected as heresies this book offers new insight into the imaginations of religious actors in the late medieval and early modern Persianate worlds
