Sovereign Grace William R. Stevenson Jr.,1999-06-17 The Reformation thinker John Calvin had significant and unusual things to say about life in public encounter things which both anticipate modern thinking and says William Stevenson can serve as important antidotes to some of modern thinking s broader pretensions This study attempts to give a coherent picture of Calvin s political theory by following the stream that flows from his fascinating short essay *On Christian Freedom* one chapter in the magisterial *Institutes of the Christian Religion* Stevenson argues that a full examination of this essay yields not only a more thorough explication and historical placement of Calvin s political ideas proper but also a more complete and coherent picture of their theological underpinnings *Environmental Human Rights* Jan Hancock,2019-07-12 This title was first published in 2003 *Environmental Human Rights* redefines the political ethical and legal relationships between the environment and human rights to claim the human rights to an environment free from toxic pollution and to natural resources Through a focus on the operational dynamics of social power this compelling book details how global capitalism subjugates concerns of human security and environmental protection to the values of allocative efficiency and economic growth The capacity of social power to construct ethical norms and to determine the efficacy of law is examined to explain how ethical and legal concepts have been selectively applied to accommodate existing patterns of production consumption and exchange that cause environmental degradation and human rights violations By looking at how environmental values have been systematically excluded from the human rights discourse the book claims that human rights politics and law has been constructed on double standards to accommodate the destructive forces of capitalism **The Other World** Joseph N. Weatherby,Craig Arceneaux,Emmit B. Evans,Dianne Long,Ira Reed,Olga D. Carter,2016-01-08 *The Other World* combines a thematic and area studies approach to explore contemporary global issues in the developing world Accessible and interdisciplinary this text offers political economic social and historical analysis plus case studies on Latin America Sub Saharan Africa North Africa and the Middle East Central Asia and the Southern Near Abroad and Asia Highlighting
