Courtney, 1968 **The Reader's Adviser** ,1977 **Aristotle's Politics and Poetics** Aristotle, 1966 To Flourish Or Destruct Christian Smith, 2015-03-23 Christian Smith is a force to conjure with in sociology both in its empirical forays studies of youth and religious life and in its higher reaches of theory where his work sets out to move culture morality and identity to the center of social thought We published his 2011 book What Is a Person to critical plaudits and healthy sales Striking a middle path between extremes of positivist science and relativism Smith s theory of personhood teased out how we can know what is good in personal and social life and what sociology can tell us about human rights and dignity To Flourish

or *Destruct* is a sequel. It builds on the earlier book to explore the question of human motivations for action. In arguing for a sociological turn in a more humanist direction, he sets up a scaffolding for a philosophy of moral realism that makes human flourishing the realization of basic human goods a centerpiece of social science. Smith's Aristotelian account of flourishing argues that genuinely investing in the flourishing of other people is a necessary condition for personal flourishing in short, learning to love others. The guiding assumption is that flourishing is the natural aim of all human life. He then turns to the question of evil, the absence or privation of what is good, with extended consideration of Stalin and Hitler and totalitarianism in general, in contrast to his inventory of basic human goods, motivations and interests. The title poses the question: will I flourish or will I destruct? On which path is my life moving?

Politics and Skepticism in Antebellum American Literature
Dominic Mastroianni, 2014-10-23. This volume explores the way in which antebellum American writers perceived the political implications of modern philosophical skepticism. Dominic Mastroianni offers new readings of six major American authors: Emerson, Melville, Hawthorne, Dickinson, Douglass, and Jacobs, and illumines their thinking about revolution, civil war, and the world's susceptibility to transformation.

Arendt and America
Richard H. King, 2015-10-20. German Jewish political philosopher Hannah Arendt (1906-75) fled from the Nazis to New York in 1941 and during the next thirty years in America she wrote her best known and most influential works such as *The Human Condition*, *The Origins of Totalitarianism*, and *On Revolution*. Yet despite the fact that a substantial portion of her oeuvre was written in America, not Europe, no one has directly considered the influence of America on her thought until now. In *Arendt and America*, historian Richard H. King argues that while all of Arendt's work was haunted by her experience of totalitarianism, it was only in her adopted homeland that she was able to formulate the idea of the modern republic as an alternative to totalitarian rule. Situating Arendt within the context of U.S. intellectual, political, and social history, King reveals how Arendt developed a fascination with the political thought of the Founding Fathers. King also re-creates her intellectual exchanges with American friends and colleagues such as Dwight Macdonald and Mary McCarthy, and shows how her lively correspondence with sociologist David Riesman helped her understand modern American culture and society. In the last section of *Arendt and America*, King sets out the context in which the Eichmann controversy took place and follows the debate about the banality of evil that has continued ever since. As King shows, Arendt's work, regardless of focus, was shaped by postwar American thought, culture, and politics, including the Civil Rights Movement and the Cold War. For Arendt, the United States was much more than a refuge from Nazi Germany; it was a stimulus to rethink the political, ethical, and historical traditions of human culture. This authoritative combination of intellectual history and biography offers a unique approach for thinking about the influence of America on Arendt's ideas and also the effect of her ideas on American thought.
