Introduction

In most developing countries, there is a disruption of the civil military equilibrium usually assumed in liberal democracies. In liberal tradition, the military is insulated from politics and subject to civilian control. In several developing countries, however, the military has not only intervened in the political process and overthrown the constitutional civilian authority, but it also often has established its supremacy over elected politicians. Even in those countries where the military has become almost a permanent feature of politics, military rule is still considered an aberration and symptomatic of a malfunctioning political system. In Nigeria, military rule was usually seen as a "rescue" operation necessary to save the country from civilian ineptitude. Military rule was not expected to last long; once the rescue operation was complete, the military should return to the barracks where they belonged and leave the governing to civilian politicians. The problem, however, was that although military officers accepted this rationale, military rule usually became self-sustaining.

Military interventions in politics are very common both in developing democratic or totalitarian regimes. There are various theories about the causes of military interventions; historical missionary, organizational format theory, custodian theory, and socio economic development theory. This paper aims to answer the question of "What theory is best to explain military intervention in Nigeria and the reasons for the theory."

What is Military Intervention?

Military intervention according to Fawole (1994) is defined as the conscious act of displacing and supplanting an existing political order, a government, by soldiers with the objective either of governing or influencing the political affairs of the country in particular direction determined largely by the interventionists themselves. It is directed at the political system of the state or its agents involving the threat or actual use of force to accomplish certain predetermined objectives which may be political, economic, social or even military.

Theories that explain Military Intervention in Politics

Explaining military interventions is not an easy task, because they are results of a complex mix of historical, political, economic, personal, military, social, ethnic, and cultural factors. Although some authors argue that military interventions are random phenomena unrelated to the structural characteristics of societies and international settings, many structural theories

From Garrison State to Nation-State John Moran, 2002-09-30 Why has the military not intervened in the post communist political arena since the advent of democracy in Russia Do lowered levels of professionalism actually lead to higher levels of intervention Through a systematic exploration of professionalism within the Russian military this study addresses these important questions Moran suggests that by examining the notion of subjective fragmentation both Gorbachev and Yeltsin utilized a highly effective yet potentially troublesome form of civil military control Findings that overall levels of praetorian behavior on the part of the Russian military have declined in this period in spite of declining levels of military professionalism challenge one of the most basic theoretical assumptions of civil military relations Since 1991 post communist Russia has exhibited all of the classic indicators of a society ripe for a military takeover Not only have institutional interests of the Russian officer corps been gravely threatened but surveys conducted within it have found a general lack of sympathy for democratic values Furthermore Russia's weak civil society is accompanied by high levels of corruption rampant crime secessionist movements a significant terrorist threat and a general disrespect for the rule of law Even further augmenting the chances of a military coup d'état public opinion polls of civilians have found that the military is one of the most trusted institutions in the country so trusted in fact that many Russian citizens have expressed support for a military takeover Moran explains why the military has not capitalized on these factors *European Economic and Political Survey* ,1925 *Army Politics in Cuba, 1898-1958* Louis A. Pérez Jr., 1976-03-15 Louis A. Pérez examines the founding of the national army in Cuba the rise and fall of Cuban army preeminence during the Machado regime the bizarre army seizure of power in 1933 which resulted in the collapse of the officer corps and follows the dominance of the army until the revolution of 1958 He shows that the Cuban political order rested on the stability of the army which itself grew increasingly estranged from national traditions and eventually became the tool of a clique of political leaders only to fall to rebel forces during the revolution *Strategic Review* ,1983 dedicated to the advancement and understanding of those principles and practices military and political which serve the vital security interests of the United States *Fixing Haiti* Jorge Heine, Andrew Stuart Thompson, 2011 Haiti may well be the only country in the Americas with a last name References to the land of the black Jacobins are almost always followed by the phrase the poorest country in the Western Hemisphere To that dubious distinction on 12 January 2010 Haiti added another when it was hit by the most devastating natural disaster in the Americas

a 7.0 Richter scale earthquake More than 220 000 people lost their lives and much of its vibrant capital Port au Prince was reduced to rubble Since 2004 the United Nations has been in Haiti through MINUSTAH in an ambitious attempt to help Haiti raise itself by its bootstraps This effort has now acquired additional urgency Is Haiti a failed state Does it deserve a Marshall plan like program What will it take to address the Haitian predicament In this book some of the world's leading experts on Haiti examine the challenges faced by the first black republic the tasks undertaken by the UN and the new role of hemispheric players like Argentina Brazil and Chile as well as that of Canada France and the United States *The Use of Force in International Law* Tom Ruys, Olivier Corten, Alexandra Hofer, 2018 Since the adoption of the UN Charter in 1945 the use of cross border force has been frequent This volume invites a range of experts to examine over sixty conflicts from military interventions to targeted killings and hostage rescue operations and to ask how powerful precedent can be in determining hostile encounters in international law
