Politics, Personality and Nation Building Lucian W. Pye, 1968 **Politics, Personality and Nation Building** Lucian Wilmot Pye, 1964 **Politics, Personality, and Nation Building** Lucian W. Pye, 2003-01 **Encyclopedia of the Developing World** Thomas M. Leonard, 2013-10-18 A RUSA 2007 Outstanding Reference Title The Encyclopedia of the Developing World is a comprehensive work on the historical and current status of developing countries. Containing more than 750 entries, the Encyclopedia encompasses primarily the years since 1945 and defines development broadly, addressing not only economics but also civil society and social progress. Entries cover the most important theories and measurements of development, relate historical events, movements, and concepts to development both internationally and regionally, where applicable, examine the contributions of the most important persons and organizations, and detail the progress made within geographic regions and by individual countries. *Politics, Personality, and Nation Building* James Maude Richards, 1962

The Military and Modernization Henry Bienen, 2017-07-05 There is a growing body of work on the military in developing countries. Few studies have explored in depth questions concerning the social origins of officers and enlisted men or trace career patterns within the armed forces of the developing world. With the exception of Latin America, it has been rare for a study to assess the performance of ruling or non-ruling militaries for political development and modernization of their societies. This oversight is exactly what Henry Bienen addresses in this collection. **Capitalism and Democracy in the Third World** Paul Cammack, 1997-01-01 Analyzes and interprets political development theory from a critical Marxist perspective. The central theme is the emergence of a separate doctrine for political development in the wake of disillusionment with the prospects of building a universal theory interpreted by the author as a transitional program for the installation and consolidation of capitalist regimes in the Third World. Topics include capitalism and democracy in the post-war period, the search for a theory of development, functionalism, political culture, and the comparative historical approach. Reisman, 2024-09-02 *The Idea of Nation and Its Future in India* Shibani Kinkar Chaube, 2016-10-26 This volume is a theoretico-empirical study of nations and nationalism on a global scale. It enquires if the idea of the nation, by its own logic, is feasible and whether India fulfils the requirement of nationhood with a reasonable prospect of survival. The monograph engages with the theories of nation and nationalism and examines if they are relevant and tenable in contemporary times. It looks at the way these ideas have acted out in the Indian nation while attempting to map its future trajectory. It also asks how do the two fundamental challenges to the idea of nation—ethnicity and class—fare in the era of globalisation and further how does India, a new state in an ancient society, reconceptualise the paradigm of this debate. The book will be of great interest to scholars and students of political science, political theory, history, political philosophy, and South Asian studies, as well as informed general readers.
